5. HEALTH RECORD: Fifteen days hospitalization last summer with blood-poisoning in his hand. This left him with one stiff finger, which he considers to be no disability. Appendix operation in 1925.

6. GENERAL IMPRESSIONS OF APPLICANT:

Mr. Tamm is 24 years of age but appears to be older. He will become 25 on April 21, 1931. He is single. His father, E. A. Tamm, has for twenty-five years been employed by the Milwaukee Railroad, and during the past twelve years of that time has been Freight and Passenger Agent at Butte. His only brother, Quinn Tamm, is a student at the University of Virginia.

After finishing the Central High School at Butte in 1923, the applicant for one year took an academic course at Mount St. Charles College, Helena, Montana. Thereafter, he attended the University of Montana at Missoula for two years, taking one year of Arts & Sciences and one year of Law. He then went to Washington where for three years he studied law at the Georgetown University, receiving his LLB degree in June, 1930. He has not yet taken the bar examination but plans to take it in Montana during the coming December if he does not receive this appointment. The applicant explained that his studies and plans have been directed towards securing a position as a Special Agent in this service, and that if given the position he has no intention to practice law.

The applicant's only commercial experience has been temporary employment in clerical positions with the Milwaukee Railroad during the summer months. His highest salary in all of these jobs has been about \$1,800 per annum.

II was favorably impressed with the gentlemanly demeanor and excellent appearance of this applicant. He impresses me as a person possessing considerable mental alertness and sincerity of purpose. I realize that he is rather youthful and falls below the minimum age requirement but regardless of this it is my belief that he would develop into one of the better field agents if given that opportunity. Accordingly, I recommend him for favorable consideration.

Result of dictation test: Good. Fair. Poor.
Bureau test rating 85 %.

7. Do you consider the Applicant qualified for the appointment he seeks and, if appointed, do you believe he would develop into better than an average employee? Yes.

Inspector.

Butte, Montana, August 19, 1930.

Director,
Bureau of Investigation,
Department of Justice,
Washington, D. C.

Dear Sir:

I have made application for appointment as Special Agent because of a natural interest which I feel in work of this nature. Interviews with various young men employed in this position has led me to believe that the work is of a kind to which I could best put my educational developments. I feel that by my training both in college and in legal work that I am qualified to fulfill the duties attached to this office. Moreover, I am certain that a thorough investigation of my character will disclose that I am in position to apply for such employment.

Yours very truly,

E. A. TAMM

MEMORANDUM FOR THE DIRECTOR:

RE: - E. A. TAMM,
Applicant for appointment as
Special Agent.

SUMMARY

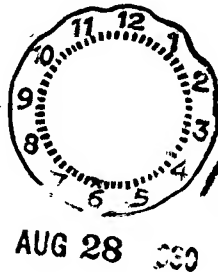

Age, 24 years. LL.B. degree - Georgetown University. Test rating-85%.
(will be 25 - April, 1931). Single.

Inspector Keith states applicant possesses an excellent personal appearance and approach and an excellent personality; that he is well-poised; average in speech; possesses fair assurance; is not nervous and is tactful; that he answers questions definitely; has studied Federal Procedure; Mr. Keith does not think he possesses executive ability and in his opinion is likely to develop. Mr. Keith states applicant looks older than his age, is single, has not yet taken the bar examination; that his studies and plans have been directed toward securing a position as a special agent. His only commercial experience has been temporary employment in clerical positions with the Milwaukee Railroad during summer months. Mr. Keith states he was favorably impressed; that applicant appeared to possess considerable mental alertness and sincerity of purpose. He recommends applicant be considered favorably. His dictation test is reported as good.

SYNOPSIS OF FACTS:

Applicant has a high scholastic standing at Georgetown University Law School; reputation excellent - honest and has the highest morals. Graduated from Georgetown University in 1930, receiving an LL.B. degree. No police record of applicant in the District of Columbia.

R.U.C.

REFERENCE: Letter of the Director dated September 4, 1930.

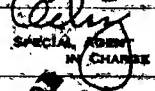

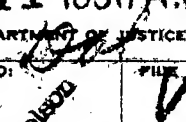

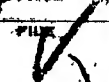

DETAILS: AT WASHINGTON, D. C.

Hugh Fegan, Dean of the Georgetown Law School, states that he remembers applicant very well; that he could not recommend him too strongly for the position he is seeking with the Department, as applicant's scholastic record is one of exceptional standing; that he received the prize in legal ethics in his third year while attending Georgetown University; that applicant had never missed a day of school in his two years of attendance, and that he would willingly recommend him, for a position in any capacity with the Department.

Mrs. Clara Feister, 1401 Fairmont St., N. W. (reference given by applicant) states that applicant is honest, earnest, and a splendid young man, a gentleman in every sense of the word; that applicant lived with her for a year while he was attending Georgetown University Law School; that she did not know applicant before he came to Washington, D. C., but that he had a letter of recommendation from someone in Butte (name not remembered at this time) and that while he lived at her place of residence for a year, he lived up to his recommendation in every particular. Applicant does not drink; uses tobacco moderately. Applicant has high morals and is an ardent church member. That she would willingly recommend applicant for the position that he was seeking.

The records of the Georgetown Law School show that applicant was admitted Sept. 19, 1928, to the above mentioned school, having entered the third-year class, as

excellent scholastic record at Mount St. Charles College and also at the University of Montana; that he considers Applicant to be a young man of good reputation, exemplary habits, and states he has much energy and determination to succeed; that Applicant has a very pleasing personality, and while making friends readily is careful of his associates; that Applicant, to his knowledge, uses no intoxicating liquor and does not gamble; that his personal habits are of the very best, and Applicant for that reason has always been welcome as a visitor in his home; that for the past six or seven years Applicant has been away at school, coming home during his vacations, during which time Applicant would obtain employment in Butte, usually with the Milwaukee Railway, where his father has been employed for a great many years; that it is with pleasure he is able to recommend Applicant for the position sought in every way.

MR. GOW furnished Agent with a copy of a letter written to MR. HUGH J. FEGAN, Assistant Dean, Georgetown University, at Washington, written December 29, 1938. MR. GOW states that this letter, of course, was written by him long before Applicant applied for a position with this Bureau, and the letter shows that MR. GOW thought as much of Applicant at that time as he does at the present time. This letter reads as follows:

"Mr. Edward A. Tamm, a student in Georgetown Law School, has requested me to write to you and tell you what I know and think about him.

"I have known Mr. Tamm quite intimately for a number of years and he has always been and is welcome in my home. His parents and brother reside in Butte and are people of refinement and are held in the highest esteem in this community.

"Mr. Tamm graduated from the Central (Catholic) High School in Butte, later attended Mount St. Charles College in Helena, where I understand he made an excellent record as a student and from Mount St. Charles he entered the University of Montana, where he also gained recognition for his scholastic ability.

"Mr. Tamm is a young man of good reputation, exemplary habits and I believe possesses exceptional ability, energy and the determination to succeed. He has a high sense of honor and responsibility and I am confident that he will not only achieve material success but, by reason of natural ability developed by educational training, character and ethical conduct, will achieve eminence in the legal profession. He has a pleasing personality and makes friends readily but is careful in the selection of his associates.

"I was very much pleased when Mr. Tamm told me last summer that he intended to enter the Georgetown Law School and I am sure he will reflect credit upon the institution."

Agent interviewed DR. R. J. MCMONAHAN, Hennessy Building, Butte. DR. MCMONAHAN states that he has known Applicant for a good many years, and also is quite intimately acquainted with Applicant's mother and father, he being the family physician; that in his opinion Applicant is a very high class young man and well above the average; that Applicant has always been in good health, is very moral, and a conscientious scholar and worker; that he has seen Applicant frequently during the summer time in the past seven years and has had no cause to change his opinion of him since he left home as a boy to complete his studies. States that he is indeed glad to recommend him to the Bureau for the position sought; that Applicant's father is an old time employee of the Milwaukee Railway at Butte, and Applicant's mother is a very high class woman, the family being much respected in the city of Butte.

Agent interviewed HERBERT M. FAY, c/o North Butte Mining Company, offices in the Silver Bow Club Building, Butte. MR. FAY states that he is well acquainted with Applicant and with Applicant's family, who are respected and are representative people in this locality; that he knows Applicant to be very moral, hard working and conscientious; that during the summers when Applicant has been home he has always worked whenever he could find opportunity to do so, working some times at the Milwaukee Railroad, and one summer he recalls Applicant was employed at the Butte, Anaconda & Pacific Railroad offices; that Applicant is a young man of exemplary habits, uses no intoxicating liquor whatever, and does not gamble; that he has always been very much interested in his studies and has studied sentimentally to obtain a good education; that he can recommend him very highly to this Bureau or anyone else as being entirely trustworthy.

Agent interviewed SISTER FRANCESCA, principal of the Central High School at Butte. This school is now occupied entirely by girls but at the time Applicant went to school was given over to both boys and girls. Stated that she remembered Applicant, and upon examining her records found that Applicant attended Central High School from 1919 to 1923, graduating therefrom in 1923. Examination of his record disclosed that he had an average grade of 91-3/4 in all studies for the four years course; that he took a regular high school course, specializing somewhat in Latin and Spanish, taking four years of Latin and three years of Spanish. The record showed his deportment while in school to be of the best, his attendance very regular, and was never expelled from school, and the record does not show any disciplinary action taken against him.

Interviewed SISTER MARY JOSEPHA, who stated that she is the only teacher now at Central High School who was there during all the time Applicant went to school there; that she remembers him very well and knows that he was a very good student; that his deportment was excellent and he was very studious; that he was a boy of good personal habits and exceptional character.

Interviewed J. A. WALLACE, General Agent of the Butte, Anaconda & Pacific Railway, Butte. MR. WALLACE stated that he knows Applicant quite well and also knows Applicant's father and mother, whom he considers very high class people. He stated that Applicant was employed by him during the year of 1937, while Applicant was on vacation from school, from about the middle of May to September of that year; that Applicant was in the freight office doing general clerical work, also working in the railroad yards checking seals, shipments, etc.; that he was conscientious in his work and entirely trustworthy; that his habits, as far as he could observe, were exemplary; MR. WALLACE also stated to Agent that he was somewhat "hard-boiled" in observing the conduct of any of his employees, and that he had no hesitation in recommending Applicant to anyone, which he would not do unless he knew they could be depended upon.

Interviewed TOM A. DAVIS, JR., attorney, offices, Metals Bank Building, Butte. MR. DAVIS is well known to Agent, is a very good attorney, and one of the representatives in charge of the Y. M. C. A. work at Butte, by which he becomes thoroughly acquainted with most of the young men in the city. He also resides next door to Applicant's home on Floral Boulevard. He stated that he knows Applicant well and has known him since he was a small boy in school; that he has had a chance to observe Applicant very closely at any time when Applicant was at home and stated that he is a very moral young man and a boy who spends his spare time at home with his father and mother when he is not going to school or working; that Applicant has been in his (DAVIS') home many times and is always welcome to return; that he knows Applicant to be a very close student and knows that his personal habits are excellent; that he does not drink and does not gamble. Stated that Applicant belongs to the Catholic Church but to his knowledge does not belong to any lodges or fraternal societies in Butte, and being young he has never engaged in politics of any kind, to his knowledge; that he can recommend Applicant very highly.

SAMUEL R. WHITE, JR., Undertaker, 307 West Park Street, Butte, was interviewed by Special Agent G. F. Cowley, and stated as follows:

"That he did not know anything about Applicant's activities since 1937, but that he was fairly well acquainted with Applicant from 1922 to 1937, during which time they attended high school together. He stated that Applicant was a good student and a reliable, honest and conscientious young man, and that he never heard anything against Applicant. He referred Agent to OLLIE D. THOMPSON, who, he stated, was better qualified to vouch for Applicant's character than himself."

OLLIE D. THOMPSON, Chief Clerk for the Chicago, Milwaukee, St. Paul & Pacific Railway Company, Butte, was also interviewed by Special Agent Cowley, and stated as follows:

"That he had known Applicant for about fifteen years; that Applicant was honest, sincere, conscientious, and a good worker; that Applicant had been employed by the Chicago, Milwaukee, St. Paul & Pacific Railway Company at short intervals on a number of occasions during the last seven or eight years, during which time he was able to observe Applicant, and that he was not only willing but glad to recommend Applicant for the position he is seeking. He stated that he had known Applicant's father for about seventeen or eighteen years; that Applicant's father was an agent for the Chicago, Milwaukee, St. Paul & Pacific Railway Company in Butte, and that he and his family enjoy a good reputation."

The records of the Butte Police Department and the records of the Silver Bow County Sheriff's office were checked and disclosed no record whatever of Applicant.

Police Officers EDWARD O'CONNOR, JR. and FRANK BEN are about the same age as Applicant and both knew him quite well. Both stated, upon interview, by Agent, that Applicant was a young man of very good habits; that he used no intoxicating liquor whatever to their knowledge, and was a very good student in school; that they knew of nothing whatever detrimental to his character.

The following memorandum was addressed to you on August 27, 1930, by Mr. Nathan:

"Age, 24 years. LL. B. degree - Georgetown University. Test Rating-85%
(will be 25 - April, 1931). Single

"Inspector Keith states applicant possesses an excellent personal appearance and approach and an excellent personality; that he is well poised; average in speech; possesses fair assurance; is not nervous and is tactful; that he answers questions definitely; has studied Federal Procedure; Mr. Keith does not think he possesses executive ability and in his opinion is likely to develop. Mr. Keith states applicant looks older than his age, is single, has not yet taken the bar examination; that his studies and plans have been directed toward securing a position as a special agent. His only commercial experience has been temporary employment in clerical positions with the Milwaukee Railroad during summer months. Mr. Keith states he was favorably impressed; that applicant appeared to possess considerable mental alertness and sincerity of purpose. He recommends applicant be considered favorably. His dictation test is reported as good.

RECOMMENDATION

"I recommend applicant be investigated."

Applicant attended Central High School, Butte, Mont. from 1919 to 1923, graduated; grades very good; deportment very good, attendance very regular. Sister Mary Josepha stated that she remembers applicant very well and that he was a very good student; that his deportment was excellent and he was very studious; was of good personal habits and exceptional character. He attended Mount St. Charles College, Helena, Mont.

from Sept. 1924 to June 1925; grades almost perfect. He attended the University of Montana from Sept. 24, 1926 to 1928; grades good. He attended Georgetown Law School from Sept. 19, 1928 to June 9, 1930, graduated; was an excellent student. Hugh Fegan, Dean of the Georgetown Law School, stated that he remembers applicant very well; that he could not recommend him too strongly for the position he is seeking; that his record is one of exceptional standing; that he received the prize in legal ethics in his third year; would willingly recommend him for a position in any capacity with the Department.

Applicant was employed by Chicago, Milwaukee & St. Paul Railway depot, Bozeman, Mont. from June to Sept. 1924; record is good. Mr. J. A. Wallace, General Agent of the Butte, Anaconda & Pacific Railway, Butte, Mont. stated that he knows applicant quite well, also his father and mother, and considers them very high class people; that applicant was employed by him during the year 1927; that he was conscientious in his work and entirely trustworthy; that his habits were exemplary; had no hesitation in recommending applicant to anyone.

Mr. Paul A. Gow, President of the North Butte Mining Company, stated that he has known applicant for a great many years; that he is a young man of good reputation, exemplary habits, and he has much energy and determination to succeed; that he has a very pleasing personality, and while making friends easily is careful of his associates; personal habits are of the very best; that it is with pleasure he is able to recommend him for the position sought in every way. Dr. R. J. Monohan, Hennessy Bldg., Butte, Mont., stated that he has known applicant for a good many years; that he is a very high class young man and well above the average; is very moral, and a conscientious scholar and worker; is indeed glad to recommend him for the position sought. Mr. Herbert M. Fay, c/o North Butte Mining Co., stated that he is well acquainted with applicant; that he is very moral, hard working and conscientious; is of exemplary habits; recommends him very highly as being entirely trustworthy. Mrs. Clara Feister, Washington, D. C., stated that applicant is honest, earnest, and a splendid young man, a gentleman in every sense of the word; that he lived with her for a year while attending Georgetown Law School; has high morals and is an ardent church member; would willingly recommend him for the position sought. All other persons interviewed recommended applicant very highly.

Dear Sir:

Having filed an application for a position as Special Agent in the Bureau of Investigation, U. S. Department of Justice, I hereby certify that in the event of an appointment I will be governed by the following conditions:

1. Upon appointment and within ten days after receipt thereof, I shall be required to proceed at my own expense to Washington, D. C. where I will take the oath of office and enter on duty.
2. That said appointment will be for a probationary period of two months.
3. That my retention in the Bureau shall be dependent upon my services being satisfactory, and if at, or before, the expiration of the probationary period my services are deemed unsatisfactory it is understood that my services may be discontinued and that I am not to receive transportation to my home, or to any other point, at Government expense.
4. That if appointed I may be sent to any part of the continental or territorial United States that the exigencies of the Bureau's work may require; that my headquarters may be fixed in some jurisdiction other than that in which I have heretofore resided; that my headquarters may be changed as the work of the Bureau may require and that a transfer will be made from one station to another for personal reasons.

I further certify that nothing connected with this certification is to be construed by me as an assurance that an appointment will be tendered me; that I fully understand all of the foregoing and that the conditions specified herein are agreeable to me; that if appointed my acceptance will be with a full knowledge of the conditions above set forth.

Special Efficiency Report

Dear Sir:

JAN 19 1931

Special Agent E. A. Tamm reported for duty at San Antonio, Texas, on December 23, 1930, from the training school at Washington, D. C.

During the first few assignments this Employee was placed with Agent C. R. Davis in order that, while in the field, he might have the advice and guidance of an older Agent. He later worked with Special Agent J. V. Murphy and later handled several assignments alone.

Of all of the newly appointed Agents reporting to San Antonio from the school at Washington, the writer has been more impressed with this Agent than any who have been received at San Antonio for training. This Employee has an excellent personality, is a good mixer and has an abundance of energy, and in my opinion with proper training will make this Bureau an excellent Agent.

During the three weeks of training at this office this Employee has handled National Motor Vehicle Theft Act, White Slave Traffic Act, Escaped Federal Prisoner and Impersonation cases. This Employee had not been assigned to a Bankruptcy case up to the time of his transfer. This Employee left San Antonio on the morning of January 14, 1931, having been instructed by the Director to proceed to Kansas City for general assignment.

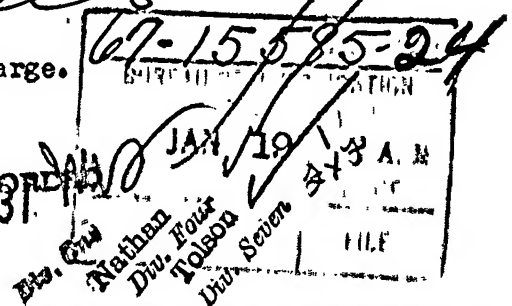

Very truly yours,

Gus T. Jones,

With further reference to Bureau communication dated January 28th, 1931, requesting a report on the ability of Special Agent E. A. Tamm^o to perform bankruptcy investigations, I now desire to call the Bureau's attention to the case entitled,

A. Pappas, d/b/a New York Confectionery,
George A. Pappas, Alien,
National Bankruptcy Act,

and the reports submitted by Special Agent Tamm under dates of February 14th and 19th, 1931, respectively.

After an examination of the reports in question, I desire to state that in my opinion the above Special Agent is qualified to conduct investigations of this character. It would appear that the investigation has been conducted in a thorough and comprehensive manner. The above Special Agent apparently has a satisfactory knowledge of those features of the National Bankruptcy Act which it is desired shall be developed in investigations of violations of that character.

After considering the fact that the above Special Agent had had only about one month's investigative experience prior to his assignment on the above case, it is my opinion that Agent Tamm performed the investigation in a very credible manner.

Very truly yours, **RECORDED**

Dear Sir:

RE: Special Agent E. A. Tamm,⁰
Personnel - Special Efficiency Report,
K. C. File No. 67-306.

The above Special Agent reported at this office on January 15th, 1931 and was immediately given a number of assignments of a general nature which assignments were handled in a most satisfactory manner considering the fact that Agent Tamm's service in the Bureau had been of such short duration.

The above Special Agent is of good appearance, has an excellent personality and in the opinion of the writer will develop into a valuable agent. It is the writer's opinion that Special Agent Tamm has ability considerably in excess of the average agent and that with the proper training and with additional experience will become a valuable Bureau employee.

Special Agent Tamm was prompt in reporting to this office, he appeared to handle all assignments given him in the most careful manner, and gave every indication of being most desirous of becoming thoroughly familiar with Bureau rules and procedure as soon as possible.

Very truly yours,

J. R. Burdge

Director,

Dear Sir:

Pursuant to your letter dated March 2, 1931, in which you request the submission of suggested changes and improvements in methods employed in conducting the Bureau's work, the following suggestions are offered for whatever consideration their value merits.

It is respectfully suggested that the Bureau prepare and circulate among all Special Agents a suggested form to be used as a preliminary paragraph in taking signed statements from Subjects. This form would, of course, embody a complete statement of Subject's full knowledge of his constitutional rights, an affirmation of the voluntary nature of the statement, and the warning that the statement may be used against Subject.

I have noted that the first statements which new Agents take from Subjects shortly after their leaving the Bureau's training school contain all the essentials necessary to make a signed confession admissible in evidence. However, an enumeration of these essentials seems to grow upon Agents after a few months of field service, due probably to the fact that a Subject who gives a signed statement generally enters a plea of guilty, and consequently his statement is never challenged as to its use in evidence.

It is further suggested that the Bureau request the Department to render an opinion on whether the use in connection with the Subject's signed statement of the expression of "knowing that whatever I say may be used for or against me," constitutes such inducement or promise as to render the signed statement inadmissible in evidence. In the event that

K

the Department believes such expressions will bar the admission of a Subject's statement in evidence, the Bureau would, of course, take appropriate steps towards the elimination of its use by Special Agents in their preparation of Subjects' statements.

Hoping that these suggestions may be of some worth to the Bureau, I am

Dear Sir:

Under date of January 6, 1931, Special Agent E. A. Tamm submitted a report in connection with the case entitled LACEY TURNER (COLORED), Fugitive, et al, White Slave Traffic Act, San Antonio File #31-836. You will note that the Office of Origin was incorrectly listed in this report.

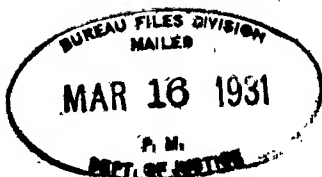

On January 28, 1931, Special Agent J. M. Burket submitted an investigative report in connection with the case entitled HOWARD M. HAMRICK, with aliases, et al, White Slave Traffic Act, San Antonio File #31-845. Although it appears that subject Howard M. Hamrick is an alien, he was not so carried in the title of this report.

On February 7, 1931, Special Agent C. R. Davis submitted a report in connection with the case entitled A. A. MARTIN, with aliases, et al, Theft of Government Property, San Antonio File #32-198. Special Agent Davis failed to use his complete title as a Special Agent, Bureau of Investigation, Department of Justice, in connection with his action in securing a statement from Silas Wright relative to this case at San Antonio, Texas, on January 29, 1931.

The foregoing matters are being called to your attention in order that steps may be taken to avoid the occurrence of similar errors in the future in reports emanating from the San Antonio office.

Re: Special Agent E. A. Tamm.

Special Agent Tamm reported to Division Two on March 2, 1931. Since that time he has been engaged in the supervision of National Motor Vehicle Theft Act cases. He has on a number of occasions also supervised other classifications of work assigned to Division Two.

Special Agent Tamm has been in the service for a very brief period, having served in the field but approximately two months prior to reporting to the Bureau. However, I am very favorably impressed with the industry and ability of this Agent. He appears to be very ambitious, handles the work assigned to him rapidly, and I believe that such errors as have occurred in his work while in Division Two have been the result of a lack of experience only. He has a pleasing personality and I believe is qualified to remain on one of the desks as a supervisor.

MEMORANDUM FOR THE DIRECTOR **RECORDED**

67-15585-38

DIP FILE

With reference to your memorandum of the 7th instant, calling attention to your conversation with Mr. Bates, Director of the Bureau of Prisons, relative to the summary prepared in the Bureau of the Atlanta Penitentiary investigation, I have conferred with Mr. Tamm, who prepared the summary in question, and he in turn has submitted a memorandum, which is attached hereto. I might also advise that subsequent to my conference with you, a memorandum was received from Mr. Bennett of the Bureau of Prisons, the same having been prepared at the request of Special Agent Turrou, who discussed the differences in the Bureau's summary and the Prison Bureau's summary with Mr. Bennett.

You will note from the memorandum received from Mr. Bennett that there are nine items to which attention is invited, and you will note further that Mr. Tamm has answered the nine items.

I really think, after careful consideration of the matter, that the only item of consequence is No. 2. Mr. Tamm states that he was wrong in concluding and stating that there were numerous patients on special diet, but that he had based this conclusion on the statement reported by Agent Turrou as coming from Dr. R. A. Vonderlehr, to the effect that his investigation disclosed a rather unusually large number of so-called soft diets as described. The statement in our summary, therefore, is not strictly correct.

With reference to Item No. 3, Mr. Bennett states that the money which Basso paid for procuring hospital privileges was sent to George Lackman, who subsequently transferred it to another prisoner, but that no money was paid to Tambakis direct by Basso. It appears that the following statement was made in the synopsis of the report of Agent Turrou, dated June 6, 1931: "Charles Basso, former prisoner at the United States Penitentiary, Atlanta, admitted paying \$100.00 to subject for hospital privileges." As a matter of fact, it appears that Basso did admit this fact. However, he admitted something that he did not know to be true or at least no certain evidence of that fact could be found. At any rate, Turrou was reporting only what

MAY 15 1986

- 2 -

8-10-31

Basso told him, and this statement was carried into the running memorandum maintained by Assistant Director Nathan, and taken from that memorandum by Special Agent Tamm when preparing the summary. I think, therefore, that there is no serious error here.

The remainder of the items I consider are adequately answered by the attached memorandum of Agent Tamm.

It is noted that the Director of the Bureau of Prisons has not sent any formal memorandum to this Bureau, and the memorandum prepared by Mr. Bennett is an informal office one. Consequently, I daresay it will be inappropriate to make any formal reply. However, I have prepared an acknowledgment of the memorandum, and am thanking the Director of the Bureau of Prisons for calling these apparent differences to our attention.

Respectfully,

V. W. Hughes.

Thirty Day Report

NATHAN
Div. Seven
Tolson

Dear Sir:

This agent has been assigned to the New York Office as Assistant Special Agent in Charge during the past thirty days. However, during a considerable portion of that time he has been engaged in the investigation of the matter of Harry L. Goldhurst et al, concerning which Bishop Cannon was involved, which only allowed him a limited time on the desk as Assistant Agent in Charge, handling general investigative matters.

Agent Tamm impresses me as being an intelligent young man, who is earnest and sincere in all of his efforts. However, as to the more serious matters or occasions which may arise he impresses me as being a little immature, which condition possibly he can eradicate by experience. He has applied himself to his work at all times and has intelligently endeavored to grasp the details of all of the work in the office here.

However, at this time I would not feel warranted in recommending him to be placed in charge of an office. However, I believe that he has very satisfactory possibilities and should materially develop in the next few months. As to his general investigative work, I would say that he is a very good agent at this time. However, as previously indicated above, his potential possibilities as an executive are dependent upon what he exhibits in the future in connection with his work here.

MEMORANDUM FOR THE DIRECTOR

Division 7 has called my attention to the fact that a memorandum has not heretofore been prepared on E. A. Tamm, with reference to his assignment to Division 4.

I consider Mr. Tamm's assignment a difficult one, for the reason that it was necessary for the writer to be absent for a long period of time in connection with a special investigation, and it was impossible to give him detailed instructions. Notwithstanding this, his work appears to have been exceptional, due to his initiative and application. Although the writer was in immediate contact with his work only part of the time, subsequent developments indicate its merit. The writer believes his chief difficulty will be his relative inexperience and that he has executive ability. I believe he should have training in direct supervision of others, in order to develop his abilities.

Respectfully,

C. A. Appel *CA Appel*

Director,
Bureau of Investigation,
Department of Justice,
Washington, D. C.

Dear Sir:

Pursuant to your letter of November 20th, 1931, the following suggestions are offered for whatever consideration their merit may justify in connection with proposed changes in Bureau administrative and investigative procedure.

It is respectfully suggested that the present rule requiring the submission of three copies to the Bureau of all reports in which the subject or subjects are aliens be changed to permit the transmittal to the Bureau of the same number of copies of reports of all investigations regardless of the alien status of the subjects. This suggestion is offered in the belief that the additional copy of the investigative report serves no meritorious purpose in the Bureau's files.

It is suggested that current Bureau regulations be so changed as to permit the Special Agent in Charge to close a White Slave Traffic Act case without reference to a United States Attorney. The departmental policy with regard to White Slave Traffic Act violations is thoroughly understood by the Special Agents in Charge of the various field offices, and the procedure of the United States Attorneys is so mechanical as to make reference to a United States Attorney's office of a White Slave Traffic Act violation in which no aggravated circumstances appear, a mere gesture which is a waste of the time of both the Bureau agent and the United States Attorney or his assistant.

Very truly yours,

E. A. Tamm

"The report of Special Agent W. G. Baum, dated November 20, entitled HARGIS E. HILLMAN, et al, your file #72-138, contains a statement on Page 3 of the details that Mr. Capt. J. Wernick, Glenside's law policeman, was interviewed by telephone on November 18, 1931. Evidently this date is incorrect and should be November 12, 1931."

REMARKS.

This employee acted as Supervisor in Division Two for some months and also for a short period in Division Four. While here his work was very satisfactory. He was transferred to New York where he has been acting as Assistant Agent in Charge since October 3rd. Mr. Connelley on November 3rd. stated that he impressed him as being intelligent, earnest and sincere; that in the more serious matters he impressed him as being a little immature; that he had applied himself well and had intelligently endeavored to grasp all details of the work. He said that at that time he would not feel warranted in recommending that he be placed in charge of an office but that he believed he had very satisfactory possibilities and should materially develop in the next few months. The efficiency rating comment, which was prepared by Mr. Baughman, is to the effect that while serving in Division Two he was interested, attentive, enthusiastic and, on the whole, showed good judgment; that he had an excellent personality and is tactful and well poised.

Consider carefully these definitions, and compare the employee with all others in the same position for the entire service:

POOR	Exceptionally poor performance of duty; exceptionally lacking in qualification considered.
UNSATISFACTORY	Duty NOT performed as well as should reasonably be expected under circumstances; not satisfactory.
FAIR	Work performed in a fairly satisfactory manner; not outstanding.
GOOD	Efficient; duty well performed; up to standard; qualification satisfactory.
EXCELLENT	Duty performed in a highly efficient manner; qualification better than usually accepted as satisfactory.

The general rating should be based upon detailed consideration of the ten qualifications set forth below and should represent your final judgment as to whether the employee is POOR, UNSATISFACTORY, FAIR, GOOD or EXCELLENT, as defined above:

KNOWLEDGE: Extent of information concerning all duties of his position; ability to analyze cases; practical application of intelligence and educational training; readiness of comprehension.

JUDGMENT: Common sense; ability to think clearly and arrive at logical conclusions; tact.

Remarks:

(Under this heading shall be set forth a digest of criticisms and conditions of significance which will reflect deficiencies, meritorious features, and special qualifications or disqualifications.)

Special Agent Tamm, while serving in Division 2, displayed not only an interest in his work but a decided attention to duty, enthusiasm, and with the exception of a few cases, which I believe were due to lack of experience, good judgment.

Agent Tamm is but 25 years of age, and has had a very brief field experience. He has an excellent personality, is tactful, well poised and with experience will, I believe, develop into an excellent Agent, and will be qualified for an executive or administrative position in the Bureau.

If deficiencies or disqualifications have been noted under "Remarks," have you brought them to the attention of the employee prior to the rendition of this rating?

In arriving at the above rating for an employee, consider each of the ten qualifications separately. In the column headed "Grade" give a separate rating between 0 and 100% for each qualification, as explained at the beginning of the sheet under definitions of Inferior, Unsatisfactory, Satisfactory, Excellent, and Superior. Then multiply each separate grade given in each separate qualification by the respective number indicated in the column headed "Relative Weight." Extend the figure obtained for each separate qualification into the column headed "Total." Add all the figures in the column headed "Total" and divide this sum by 20 to arrive at the final rating.

REMARKS:

(Under this heading shall be set forth a digest of criticisms and conditions of significance which will reflect deficiencies, meritorious features, and special qualifications or disqualifications.)

This agent is assigned as Assistant Special Agent in Charge at the New York Office, handling general miscellaneous assignments. Agent Tamm is an intelligent young man who comprehensively applies his knowledge of various matters in directing the activities of the other personnel and he is possessed of considerable executive ability, as displayed in his direction of the activities of others. This agent has a fairly comprehensive knowledge of the general routine cases coming to the attention of the Bureau for investigative purposes. However, his prior investigative experience in the Bureau has been of a limited nature and this at times is possibly reflected in some of his decisions. However, it is believed that his work as Assistant Agent in Charge has been entirely satisfactory. He is a tireless and enthusiastic worker and applies himself to his work at all times.

He is able to operate a typewriter with a fair degree of ability in preparing longhand reports.

This employee has not testified in federal court as to any case in which he has handled the investigation.

If deficiencies or disqualifications have been noted under "Remarks," have you brought them to the attention of the employee prior to the rendition of this rating? _____

MEMORANDUM FOR PERSONNEL FILES.

New York City Office.

Administrative personnel: It seems that the administrative staff of the office is fast creating an intolerable situation with respect to the investigative staff. The tactics and policies pursued by them are undesirable; are bound to lower the morale of any organization and to eliminate a spirit of loyalty, the latter being most effective in obtaining the best results. Their personalities are as different as could possibly be and each one's manner of approach, perhaps with one exception, in directing the work of the Agents appears to be fundamentally wrong. In the first place, there is a lack of appreciation of the fact that they are dealing with intelligent individuals, all of whom are well educated and most of whom are, undoubtedly, endeavoring to perform their duties in accordance with the requirements of the Bureau. Secondly, there is a lack of constructive criticism or guidance, and the existence of a tendency to create a personnel record of each person filled with memoranda of criticism. Finally, there is a snobbish or an unapproachable attitude assumed at all times by certain members.

There is an actual existing condition which is unnecessary and one that could be removed so easily by persons with the proper understanding in charge of the situation.

E. J. Connelley: (These comments are based upon observations at long range and knowledge of existing conditions.) It is not known what he does in the office unless he reads all reports. He sees very few men with the exception of a chosen few. He is devoid of personality, which undoubtedly accounts for the lack of important contacts in New York. His crudeness and "hard boiled" attitude towards the Agents are shown by the incident at the so-called "pop" talk when he made the statement that he felt like clipping one of the men on the chin. This talk further developed that he has assumed a false premise in determining the efficiency of an Agent by taking an arbitrary figure of 85% of a man's time spent outside the office.

The manner in which certain phases of the Lindbergh investigation was handled also demonstrates Connelley's lack of understanding

in directing men who are supposed to have a certain amount of intelligence or initiative. The entire force was sent out in a mysterious manner with instructions to call headquarters in the event a certain person were located and men were placed at the Morrow estate with no instructions other than to call the office should anything of importance happen. This resulted in one of the Agents getting his picture in the papers and the News reporters finding out about Agents' activities.

Edward A. Tamm- He is one member of the administrative force who assumes a very snobbish or superior attitude towards the Agents. He seems to fail to offer advice of value so far as the investigative work is concerned. His only accomplishment is that of being able to "wise crack" or indulge in insignificant criticism. His ability as an investigator is not known but he does not know the proper attitude to assume towards men who are seeking sound advice in carrying out their duties. Until he learns that he is following the wrong procedure he will never be successful in handling personnel.

C. G. Schenk- His method of meeting the personnel cannot be criticized. He endeavors to assist the men in every possible way and it is performed in a pleasant, tactful, yet firm, manner. He seems to lack maturity for certain phases of the work and has very little to offer in the way of constructive criticism. He is certainly an improvement over the other two.

Mr. I. Little- Most of his time recently has been spent away from the office. His attitude seems to be fairly impressive.

Investigative Staff- Owing to the time the men are expected to remain outside the office it is difficult to observe them for any extended period. As soon as they register in each morning they all immediately proceed to check out by 9:15 and do not return until about 4:45 PM. There are never more than three or four men in the office at one time during the day and they are usually accountants preparing their reports.

A few men are noticed but it is just a wild guess as to their possibilities: Cox; Embry; Hall; Sanders; Zimmerman, and Carver.

File Room Personnel- This particular section of the office appears to function properly and without confusion.

Stenographic Personnel- The work seems to be turned out fairly promptly and there seems to be very little congestion. The dictaphones have their advantages and disadvantages. They conserve the time of the stenographers through the elimination of dictation. On the other

hand plurals fail to register and proper names are invariably wrong, so in this manner there are more corrections and more reports required to be rewritten. For short reports, letters and memoranda the distastefulness are all right, but not so good for long reports. Recently Agent Craven dictated a 20 page bankruptcy report, and through some mistake Cravy (?) picked up the records and shaved them off, which necessitated a rediction of the entire report.

Incidental remarks: There is lost motion at times in the direction of the work. Schenken was consulted about a case after all possible investigation had been concluded in New York City and was asked if he wished the case closed. He had nothing to suggest and stated that the matter could be closed so the report was dictated accordingly. When it reached his desk he suggested a lead might be set out for the Washington Field office. This required the rewriting of the report and a memorandum for the personnel file of the Agent preparing it.

On another occasion two Agents interviewed the same individuals on the same afternoon in the same case and both would have written reports had not one of the Agents discovered that the other had already dictated a report. This duplication of assignment has occurred in other instances as well.

Confidential observations.

Dear Sir:

The Bureau notes that the last lesson returned by you of the Bureau's accounting course was submitted under date of August 12, 1931.

The Bureau must, of course, insist that its Assistant Agents in Charge avail themselves of the information contained in this course, in order that they may be in a position to properly perform the duties incumbent upon them.

Will you please advise us as to your intentions in this matter.

Very truly yours,

Director.

Dear Sir:

Reference is made to Bureau letter dated May 5, 1932, requesting to be advised as to the reasons necessitating my delay in the submission of lessons in the Bureau accounting course.

Due to the relatively large amount of overtime necessary during the first six months of my assignment to the New York Bureau Office in order to familiarize myself with the pending cases, I was unable to make proper progress with the accounting course.

However, at the present time, it does not appear that a large amount of overtime on my part will be necessary and accordingly I will endeavor to promptly submit accounting lessons.

In line with this effort I desire to advise that lesson No. 4 was submitted on May 10, 1932.

Very truly yours,

E. A. TAMM;

Dear Sir:

Reference is made to Bureau letter, dated May 10, 1932, wherein suggestions are invited for proposed changes in the investigative and administrative activities of the Bureau. The following suggestions are offered for your consideration that their value merit.

It is suggested that there be added to Section 104 of the Manual of Rules and Regulations, relative to the transfer of an employee from one field office to another, that the Special Agent in Charge transmitting the personnel file, should transmit a statement indicating the leave of absence which has been requested by the transferred employee for the current year.

It is also suggested that the Manual's rule and regulations be so revised as to permit the closing of an employee's file when he is assigned to the Special Agent in Charge of the Bureau Field Office. This suggestion is offered in the belief that a great deal of an agent's time is wasted in contacting the United States Attorney in his jurisdiction for the purpose of closing the case which will ultimately not be prosecuted.

It is suggested that in the preparation of abstracts filed in the field offices, a brief may be prepared for filing in the field office, preferably without reference to the name of the agent transmitting the report. These abstracts will be maintained in the field offices for ready reference in the event that it is desired to ascertain the identity of a particular case upon which an agent has previously worked. The obligation of such a file will be of particular value in instances where it is desired to identify a case investigated by an employee who has since been transferred to another field office or who has terminated his service with the Bureau.

E. A. TAMM,

MEMORANDUM FOR THE DIRECTOR.

In a conversation this morning with Mr. Tolson, I referred to an incident that occurred at the time that I was assigned to the New York Office of the Bureau, and Mr. Tolson suggested that I should incorporate this incident in a memorandum for you.

One morning, before 9 o'clock, as I remember about 8:30, and some time between Christmas and December 31, 1931, when I was preparing to leave the office on the case that I was handling at that time, Mr. Tamm, then the number one man at New York, passed my desk and remarked in a tone, indicating apprehension on his part, that Mr. Browne from the Bureau was at the New York Office and that we could expect an inspection. He solicited information from me as to whether I was prepared for such inspection. He seemed perturbed at the possibilities of an inspection.

I left the office shortly thereafter and when I returned in the afternoon, I did not observe that an inspection had been made and heard no more about the matter.

Respectfully,

Howard P. Locke

Re: E. A. Tamm
Special Agent

Dear Sir:

This agent has been assigned as Assistant
Special Agent in Charge at New York, handling miscellaneous
and general assignments.

Agent Tamm is an intelligent, young man
who has a very satisfactory grasp of the handling of various
matters by the Bureau, especially when the limited time he
has been in the Bureau's Service is considered. It is
believed that he is possessed of a satisfactory degree of
executive ability and that he forcibly applies his supervision
as towards the other personnel and that he does not allow any
particular leaning away from the instructions he has given.
In fact, some of the personnel might even consider that he
was somewhat harsh and abrupt. However, I do not believe that
this has been any more so than was necessary considering the
number of the personnel handled at the New York Office.

QUINN:

This is a hard-working and conscientious agent. He has a good knowledge of the Bureau's functions and of the duties to be performed by a Number 1 Man, which are handled by him in excellent shape. Some of the agents in the office retained the impression that Quinn was somewhat arbitrary under Special Agent in Charge Connolly, and the agents felt that due to the fact that he had not had a great deal of investigative experience that he was not in a position to direct others; however, Quinn does not agree that this is the case. He considers himself a valuable man, but one who at times does not like to take orders. This fault is being cured. Status, excellent.

DUNN:

This employee is very enthusiastic and industrious, discharging his duties in a very satisfactory fashion. He has shown substantial improvement. His attitude is now better toward the staff and toward the Bureau, and it is felt that previously his hard-boiled attitude was taken as a cue from Special Agent in Charge Connolly. Dunn believes that there is real substance to Quinn; that he could qualify as a Special Agent in Charge; that he has pretty good judgment and is thoroughly conversant with the Bureau's program.

EDWARDS:

This employee has shown improvement since Edwards' assignment to New York last spring; particularly is this true of his handling of agents and his general attitude. He has a thorough knowledge of the Bureau's work. He is rather immature in some of his thoughts, but he will develop into a good administrative man. Status, good.

I believe it well to comment upon the commendable interest demonstrated by Tamm in the conduct of the office and his enthusiasm for maintaining the office at the highest possible standard. He is yet fairly young and has a slight touch of age, which does not, however, appear offensive. Status, excellent.

Dear Sir:

Pursuant to your communication of October 18, 1932, wherein Bureau employees are invited to submit suggested changes to be considered for adoption by the Bureau, I desire to avail myself of the opportunity offered in said letter by advancing the following suggestions for whatever consideration their merit justifies.

It is suggested that the Bureau prepare and affix to all fingerprint cards received from contributors a small sticker, in size about one inch square, upon which will be indicated in prominent letters the age of the person whose fingerprints are submitted. In much smaller type under the figures designating the age of the person should be placed the year of the receipt of the particular fingerprint card. It is further suggested that the sticker be of a conspicuous color with perhaps distinctive colors for each fiscal year. While the practical value of affixing said stickers to the fingerprint card is infinitesimal at the present time, the adoption of some such device will greatly facilitate the removal of non-current cards in future years. It is believed that the adoption of this system now will greatly assist the discarding of obsolete cards in future years, particularly when the sticker appearing upon a particular card indicates that in all probability the person whose fingerprints are printed thereon is deceased. The administrative labor attached to the adoption of this suggestion is negligible since the stickers could be prepared in such a manner as to be readily affixed in the incoming mail room, such stickers being preferably gummed upon one side.

It is further suggested that there be incorporated in the Bureau Manual a specific provision as to whether carbon copies of disposition sheets are to be maintained in the files of the Bureau field offices. I have observed that there is a wide divergence of opinion as to the procedure upon this point.

With reference to that portion of Section 103 of the Manual of Rules and Regulations wherein it is provided that each incoming communication or report received by the Special Agent in Charge shall be stamped with the black stamp supplied "except daily reports", it is suggested that the words included in quotation marks be eliminated from this section of the Manual since there does not appear to be any logical reason why daily report forms should not bear a date stamp indicating the time of their arrival at the Bureau Field Office. It is believed that the affixing of the date stamp may be of particular value in instances where question arises as to the promptness with which an agent submits his daily reports.

It is further respectfully suggested that there be incorporated in that portion of the Bureau Manual pertaining to assignment cards, a provision requiring Special Agents in Charge to indicate upon the duplicate assignment the estimated amount of time required to complete the investigation of the particular case. It is believed that a requirement of this kind will not only facilitate the assignment of cases but will also expedite the preparation of the monthly administrative report.

Dear Sir:

A review of the reports received from your office during the past month has disclosed the following noted matters which should be given your prompt attention:

Under date of September 15th a telegram was dictated by Special Agent ~~Tamm~~, directed to the Detroit office of the Bureau, in which the Bureau notes that at least ten unnecessary words are included. Care should be exercised in the preparation of telegrams so as to exclude all unnecessary words.

The report of Special Agent J. J. Manning, dated September 10, entitled HENRY I. POSTER, your file #47-1050, omits the reference.

The report of Special Agent E. C. Leslie, dated September 21, entitled GEORGE PETER WORTHINGTON, your file #26-2632, shows the license number of the car in the synopsis as H69777, and in the details as H69237.

The following delays in the typing of reports are called to your attention in order that steps may be taken to bring about a correction of this condition:

Report of Special Agent J. M. McGrath, dated September 13, entitled JOSEPH CHAZZO, your file #26-48, 18-day delay;

Report of Special Agent W. J. West, dated September 10, entitled JOHN WALKER, your file #31-2345, 18-day delay;

Report of Special Agent T. G. Malvin, dated September 15, entitled FELT MANUFACTURERS ASSOCIATION, your file #60-249, 22-day delay;

REMARKS.

In September, 1932, Assistant Special Agent in Charge Quinn stated that this employee was a hard-working and conscientious agent; that he had a good knowledge of the Bureau's functions and of the duties to be performed by a Number One Man, which had been handled by him in excellent shape; and that he considers him a valuable man, but one who at times does not like to take orders. He stated, however, that this fault was being cured. Status - excellent.

Special Agent in Charge Dunn stated that this employee was very enthusiastic and industrious; that he had shown a substantial improvement; that he believes that there is real substance to him; that he could qualify as a Special Agent in Charge; that he had good judgment; and that he was thoroughly conversant with the Bureau's program.

Mr. Edwards stated that this employee had shown improvement in his handling of agents and his general attitude; that he had a thorough knowledge of the Bureau's work; that he was rather immature in some of his thoughts, but that he would develop into a good administrative man. Status - good.

In his efficiency rating comments, Special Agent in Charge Dunn states that this employee has rendered very satisfactory service at that office; that he is intelligent, energetic, well versed in the requirements of his position, possesses a very substantial degree of executive and administrative ability, exercises a fine degree of force and judgment in handling the personnel of the office, a tireless and enthusiastic worker; and that the character, ability, and judgment displayed by this employee while under his observation prompt the opinion that he is an extremely capable and valuable agent.

In arriving at the above rating for an employee, consider each of the ten qualifications separately. In the column headed "Grade" give a separate rating between 0 and 100% for each qualification, as explained at the beginning of the sheet under definitions of Inferior, Unsatisfactory, Satisfactory, Excellent, and Superior. Then multiply each separate grade given in each separate qualification by the respective number indicated in the column headed "Relative Weight." Extend the figure obtained for each separate qualification into the column headed "Total." Add all the figures in the column headed "Total" and divide this sum by 20 to arrive at the final rating.

REMARKS:

(Under this heading shall be set forth a digest of criticisms and conditions of significance which will reflect deficiencies, meritorious features, and special qualifications or disqualifications.)

Special Agent Tamm has rendered very satisfactory service at this office during the period covered by this rating. This employe has been assigned for several months past as principal supervisor at the New York office, handling miscellaneous and general assignments.

Agent Tamm is an intelligent and energetic young man who is well versed in the requirements of his position and who possesses a very substantial degree of executive and administrative ability. He applies most conscientiously to his work and exercises a fine degree of force and judgment in handling the personnel of the office.

This employe is a tireless and enthusiastic worker and has rendered services of real value to the Bureau and this office during the period of my assignment at this station.

This employe possesses a fair degree of ability in the operation of the typewriter.

I have had no opportunity to observe and am not informed as to his attitude and ability while testifying in Federal Court as a witness.

The character, ability and judgment displayed by this employe while under my observation prompt the opinion that he is an extremely capable and valuable agent. I regard him as one of the most competent and dependable employes whom I have had the opportunity to observe and it is my judgment that he will prove of increasing value to this service.

If deficiencies or disqualifications have been noted under "Remarks," have you brought them to the attention of the employee prior to the rendition of this rating? _____

In compliance with instructions contained in your letter dated August 16, 1935, the following is a list of those agents who have qualified in the use of .38 calibre revolver. The course fired was at 20 yards, 10 shots each, slow, time, and rapid fire, and 5 shots at hobbing target. The targets used were of the army type, and the army method of rating was therefore used in arriving at the final average:

The following named agents have not as yet had an opportunity to receive instruction, and shoot for qualification: Special Agent in Charge T. F. Cullen; Special Agents E. A. Tamm, V. J. West, W. Merrick, J. J. Keating, F. J. Kilmartin, L. G. Turren, and H. W. Kage.

All of the agents set forth above as having qualified with the revolver have also received instruction in the use of the shotgun, machine gun and rifle. However, the in-door range which we were using was not of sufficient length to definitely determine whether those receiving preliminary instruction in taking down these arms and actually firing them, could qualify at a distance greater than 25 yards. Arrangements are now being made to obtain the use of the rifle range at Poughkill, N. Y., and in the event this effort is successful, the agents will be taken to that point in three groups for the purpose of qualifying with the rifle, on a range at least 200 yards, and also to give them an opportunity to fire the machine gun at greater distances than heretofore.

The necessary notations are being made in the personnel files of the various agents indicating their proficiency in the use of firearms. In the event the Division so desires, a separate communication or memorandum will be furnished on each agent after the completion of the rifle qualification, in order that it may be included in the Division personnel files.

Very truly yours,

T. F. Cullen,
Special Agent in Charge.

Dear Sir:

Reference is made to your communications of August 31, 1933 and September 25, 1933, concerning the training of the Special Agents of your Office in the use of firearms. You state in your communication of September 25, 1933 that all of the Agents named in your communication of August 31, 1933 are qualified to handle the machine gun and the automatic shot gun.

It is desired that you advise the Division whether Special Agents J. M. McGrath, L. O. Carver, E. A. Tamm, W. J. West, A. E. Redert, W. Merrick, J. J. Keating, F. J. Kilmartin, L. O. Turrau, H. W. Kings, and yourself received instruction in the use of the automatic shot gun and the sub-machine gun and also whether all of the above Agents have received appropriate rifle instruction. According to the records of the Division, the Special Agents of your Office who are mentioned above, have failed to qualify as Marksmen with the pistol. It is requested that arrangements be made immediately whereby the Agents in your Office who have not qualified as Marksmen with the pistol may receive instruction and qualify at the earliest possible date. The grades received should be forwarded to the Division.

Concerning the assignment of Special Agent J. P. O'Connell and Special Agents (A) E. P. Hair and A. H. Crowl to the New York Office, you are advised that all three of these Agents have qualified as Marksmen with the pistol and have received instruction in the use of the rifle. However, the records of the Division indicate that no instruction has been given to these Agents in the handling of the automatic shot gun and the sub-machine gun, with the exception of Special Agent O'Connell who received instruction in the use of the sub-machine gun from a representative of the Federal Laboratories.

In arriving at the above rating for an employee, consider each of the ten qualifications separately. In the column headed "Grade" give a separate rating between 0 and 100% for each qualification, as explained at the beginning of the sheet under definitions of Inferior, Unsatisfactory, Fair, Good, and Excellent. Then multiply each separate grade given in each separate qualification by the respective number indicated in the column headed "Relative Weight." Extend the figure obtained for each separate qualification into the column headed "Total." Add all the figures in the column headed "Total" and divide this sum by 20 to arrive at the final rating.

REMARKS:

(Under this heading shall be set forth a digest of criticisms and conditions of significance which will reflect deficiencies, meritorious features, and special qualifications or disqualifications.)

This Agent is possessed of executive ability, of a high order, and is painstaking, energetic and intelligent. He is able to obtain the most out of men under his supervision and is possessed of initiative and a deep sense of responsibility. I believe he is of considerable value to the Division.

If deficiencies or disqualifications have been noted under "Remarks," have you brought them to the attention of the employee prior to the rendition of this rating? Yes.

Department of Justice,
Washington, D. C.

Attention: P. P. -- October 12, 1933.

Dear Sirs:

Upon the receipt of your letter of October 12th, in regard to my letter which was forwarded to your Department by Colonel Howe, covering the administration of justice in the United States Courts of the Middle District of Pennsylvania, I immediately got in touch with the largest New York creditor in the matter referred to in that letter, namely E. Gerli & Co. Inc. I understand from them that they forwarded a communication to your Department thru Senator Wagner, of New York, within the last month.

I wish to thank you for the manner in which your agents, Messrs. E. A. Tarr and W. J. West, conducted their investigation in New York City, in the offices of Salembier & Villate Inc., E. Gerli & Co. Inc. and Mr. Benj. Madel, C. P. A., accountant for the creditors. Mr. Mangan, of E. Gerli & Co. Inc., Mr. Madel and the writer gave them considerable information covering the New York end of the matter and also gave them references in regard to personalities, banks and court records in Scranton and other cities in Pennsylvania.

We were informed yesterday, when the three of us were in Scranton, upon the occasion of the hearings of the Special Master on the accounting of the Receivers in this matter, that Messrs. Tarr and West were in Scranton and that they had seen Mr. McGrath, of Welles, Humford & Stack, in regard to certain angles of the case; incidentally the above law firm is our representative in that district, being the correspondents of Messrs. Hughes, Schurman & Dwight, of New York City who represent six of the contesting creditors.

I enclose for inclusion in the file, a letter of introduction by Chairman Farley, of the Democratic National Committee, to the Hon. Wm. Stanley, of your Department; also a letter to the same gentleman from South Trimble, Jr., Solicitor for the Department of Commerce.

As a result of numerous conferences held in Scranton yesterday and the result of a general conference held this morning by the four of us upon our return from Scranton, we realize that we are up against a very powerful group, namely, the Receivers, their counsel and Judge Watson, who has charge of this case.

October 25, 1933.

At the hearing before Special Master Needle, Mr. Needle announced to the meeting that the Expectant Forsythe, who was formerly employed by the Receivers and who we understand also bought some assets from the Receivers, has filed a letter with the Special Master, thru his counsel Levy, alleging gross irregularities in the way the hearings were being conducted and that the conclusions of these hearings is a foregone conclusion; in other words, that the decision is known in advance by those on the inside; they stated that they would refuse to attend any further meetings and that they were taking the matter up with the Attorney General for the investigation of the Receivership and the hearings before the Special Master. The above statement is only in the roughest terms as Mr. Needle was quite agitated and did not quote word for word the communication which he had received from Forsythe and Levy in the above mentioned matter but the writer believes the above resume states approximately the position taken by Forsythe and Levy as expressed by the Special master.

The creditors referred to above, their counsel and the writer stand ready to cooperate with the Department in any manner that may be suggested to them by yourself or your agents.

Thanking you for the prompt attention given to this matter, I remain

Respectfully yours,

Dear Mr. Hoover:

DECLASSIFIED BY *SP-6 BJA/ae*

I wish to call to your attention a matter which is a rather unpleasant duty and one which might not be as serious as the length of this letter would indicate.

For some reason Mr. E. A. ⁰Tamm became confidentially communicative with me as to a situation which is set out for your information.

On the evening of December 12, 1933 Mr. Tamm suggested that if the work on December 13, 1933 would permit we would attend the Follies at the Nixon Theatre here, to which I agreed. We had been having our evening meal together as the work of each of us would permit and on my part I had endeavored, if possible, to give him the benefit of anything I could to assist him in his duties as Acting Special Agent in Charge. December 13, 1933 at about 7:00 P. M. on the way from the office to the Nixon Theatre which we were going to to get tickets before dinner, out of a clear sky as far as the conversation was concerned, Mr. Tamm, said, "I would not tell this to anybody but you. Last night I went to my Doctor with my cold and he said there was nothing to do except the old fashioned with some lemon. I did not tell him (meaning the Doctor) I had already tried this remedy the night before and apparently did not get any results or did not take enough. So I went to my room and took about three fingers but I failed to figure this was in a water glass and I mixed it all up in a lemonade and drank it and went to bed. I tried to pick up the telephone to leave a call and instead I picked up the bed light." I then said to Mr. Tamm, "What would you have done, if they had called you for duty! He did not answer as to this.

Previous to this on either Monday or Tuesday night when I returned from court to the office Mr. Tamm was rather hoarse and I jokingly said to him why don't you get some of this new stuff and he said "Well, I got something", and opened the right upper drawer of his desk and showed me a package which might have been a box of cigars as it was about that size and I considered it as a joke at the time.

On December 13, 1933 after the remarks of Mr. Tamm we purchased tickets at the Nixon Theatre and then had dinner and attended the theatre and when we had walked over as far as the Pitts-

burgher Hotel at 11:20 P. M. Mr. Tamm had not mentioned the subject above discussed again and as he was leaving me, not having brought it up again I called him back and then said to him, 'I do not want to appear as a moralist, but I believe you made a mistake in your reference to whiskey or liquor which you say you took for your cold. That while you may have taken this on the second time at the recommendation of your Doctor, still I believe as Special Agents in Charge we should lean over backwards in supporting any rule which is for the stability of the service; that we, Special Agents in Charge, who of course are such through the good wishes of the Director, can best support him by living up rigidly to all the rules which promote the interest of the service and the interest of the Director. The Director, necessarily has to depend upon the Special Agents in Charge in the Field to see that the interests of the service and himself are taken care of; that he had placed me in an embarrassing position in this due to his action in supposedly telling me this in confidence but that as between any such condition and the best interests of the service and Director there could be no such confidence; that where it was a matter of friendship and the best interest of the service and the Director, friendship ceased; that I wanted him to fully understand my position and for that reason I was not trying to soften the temper of my statements to him.' I went over this two or more times with him and he only replied that he was sorry he had said this to me and that he had same on his mind as he was coming down on the elevator and just spoke out.

I realize that he said that he had taken this on the second occasion on the recommendation of his Doctor and I may have been a little severe with him in my conversation, however, I wanted him to fully realize my position and what would be the best example for others under him.

Very truly yours,

E. J. Connelley,
Special Agent in Charge.

This will acknowledge receipt of your personal and confidential communication of December 18th enclosing copy of communication from Mr. Connelley dated December 14th, alleging certain irregularities in the Pittsburgh Office. The two allegations made by Mr. Connelley are absolutely false.

First: Mr. Connelley alleges that on Monday or Tuesday (December 11th or 12th) I opened the right upper drawer of my desk and showed a package. For your information, on December 11th Connelley said to me - "Tamm, you are very hoarse; why don't you get some of this new stuff for that cold". In a joking manner I opened the upper right hand drawer of my desk and showed to Connelley a package and commented - "That might be most anything". The package in question contained a box of cigars which I had purchased for my own use.

Second: Mr. Connelley in his communication alleges that on December 13, 1933, on the way to the office of the Nixon Theatre, that I said - "I would not like to tell this to anybody but you. Last night I went to my doctor with my cold and he said that there was nothing to do except the old fashioned with some lemon. I did not tell him (meaning the doctor) I had already tried this remedy the night before and apparently did not get any results or did not take enough. So I went to my room and took about three fingers but I failed to figure this was in a water glass and I mixed it all up in a lemonade and drank it and went to bed. I tried to pick up the telephone to leave a call and instead I picked up the bed light". Mr. Connelley's allegation that I had told him about taking the liquor for medicinal purposes, or for any other purpose, is a deliberate falsehood. I never made such a statement. I did tell Connelley that I had taken a hot lemonade the previous night, together with some aspirin to cure a very heavy cold which I had been experiencing for several days. Connelley apparently has misconstrued or misinterpreted my statements for some unknown reasons.

I regret if these allegations have caused you any undue concern. They are absolutely false and untrue.

Dear Sir:

I am transmitting herewith targets shot by Special Agent Dante DiLillo and myself on January 11, 1934.

It will be noted that the following grades were secured by Agent DiLillo and myself:

D. DiLillo:

15 yards - slow fire - 89
25 yards - slow fire - 80
15 yards - rapid fire - 88

E. A. TAMM:

15 yards - slow fire - 83
25 yards - slow fire - 74
15 yards - rapid fire - 71

Due to the lighting arrangements upon the pistol range upon which these targets were shot, it is necessary to place the target backwards on the target holder, which explains the fact that the targets appear to have been shot from behind.

Dear Mr. Tamm:

I am in receipt of your letter dated January 24, 1934, wherein you suggest that two or more groups or squads of Agents be organized to work exclusively on the investigations of War Risk Insurance cases in headquarters cities where Division field offices are located.

For your information, you are advised that the amount of the appropriation for investigations of War Risk Insurance cases is limited, and it is felt that the development of specialized squads for this type of investigation would be inconsistent with the Division's more effective policy of training its Special Agents in all phases of the Division's work.

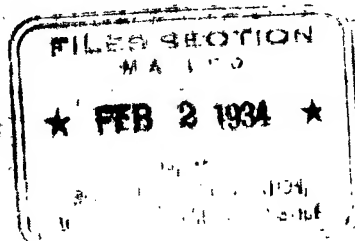

It is entirely probable, as you will recognize, that later there will be additional privileges granted veterans and a more liberal policy may reasonably be expected in the future toward the filing of claims by veterans; therefore, it appears that such types of investigations may be continued over an extended period. Likewise it does not always follow that the bulk of the War Risk Insurance investigations will arise in the cities where the Division's field offices are located. Although there is observed some degree of merit in your suggestion, and its purpose is appreciated and readily understood, it is felt at this time that it would be impracticable to adopt this plan.

However, I desire to express to you my sincere appreciation for your thoughtfulness in forwarding this suggestion.

TOTEN	FILE

Dear Mr. Hoover:

Believing that the present practice of the various United States Attorneys in proceeding to trial on War Risk Insurance cases within a few days after notice is given to a Division Office requesting investigation of the case necessitates the submission of investigative reports which are not up to the Division's usual standards, I am offering the following suggested method of handling these cases for any consideration that you believe it merits.

I respectfully suggest that you consider the creation of two or more groups or squads of five or six Agents to engage exclusively in the investigation of War Risk Insurance cases in the headquarters cities of the Division Field Offices. The personnel of these squads, if possible, should be made up of experienced Agents who have indicated both initiative and good judgment in the handling of all types of assignments. The Agents engaged on these cases would soon discover shortcuts and expeditious methods of reviewing the generally bulky Veterans' Administration files. Since a review of the Veterans' Administration file is often the most important step in the investigation of these cases, the especially trained squads could and would probably save considerable time in their preparation of the initial report. The various industrial and medical leads arising from the review of the file would not be handled by the squads engaged upon War Risk Insurance cases but could be assigned in the various Districts in the same manner as leads upon other types of cases. The squads working in this manner could concentrate upon those Districts in which the War Risk Insurance work is the heaviest and where there are but few cases sufficiently investigated to warrant trial.

It has been my observation while in Pittsburgh that the United States Attorneys' offices choose the cases to be tried in a rather haphazard fashion and, consequently, it is impossible to anticipate the case to be docketed for trial in the near future since some of the oldest suits have not been docketed and some of the newest cases filed are scheduled for early trial. I believe that if the various Field Offices could

82-1-118

Dear Mr. Hoover:

- 2 -

complete the investigation of a sufficient number of cases in the District to supply the United States Attorney's Office with sufficient material to carry it through two or three terms of court, we could eliminate the situation in such a manner as to have a fairly large supply of cases on hand ready for trial and at the same time save ourselves from the difficulties arising from demands for unanticipated immediate investigations. I believe the United States Attorneys' Offices generally, if presented with a sufficient number of cases completely investigated to enable them to exercise a considerable choice of cases for the next ensuing docket, would readily support our efforts to properly handle all War Risk Insurance cases.

The question naturally follows as to the source from which experienced Agents could be drawn and in this regard it is suggested that as Agents complete the Division's training course in Washington and are assigned to the various Field Offices, a corresponding number of Agents be withdrawn for service upon the War Risk Insurance squads. This procedure would allow each Division Office to function with the same amount of manpower which it presently has and at the same time would create several groups of Agents to engage exclusively upon War Risk Insurance cases in the various Districts requiring their attention.

The size of the various squads, their distribution and method of supervision would, of course, be contingent upon condition of the work in the various Districts. Small groups could be assigned to the smaller Offices and various groups converge in those Offices having the greatest number of War Risk Insurance cases pending trial.

As stated heretofore, the investigation of leads outside of headquarters cities and in the territory covered by auxiliary offices could be handled in the same manner as these leads are handled at the present time, namely, by the investigative personnel assigned to each case.

Appropriation: "Salaries and Expenses, Division of Investigation", FIELD

Date of Termination: 12/7/88

Justification: This employee who is at present employed as a Special Agent in the Division of Investigation in Grade Car 11, \$3800 per annum, is being transferred, after special training and trial, to the position of Special Agent, Grade Car 12, \$4600 per annum, inasmuch as he is now designated as Special Agent in Charge of the Pittsburgh office of this Division. As Special Agent in Charge he is responsible for the proper functioning of that office and must direct and originate the work of the Agents assigned thereto. His duties are of a supervisory and administrative nature and require a very complete knowledge and basic understanding of the principles and problems involved in connection with all investigations being conducted by the Agents of his office, these Agents being charged with making investigations and collecting evidence to be used in the prosecution of violations of Federal Statutes in the Federal Courts. The work also consists of the preparation of correspondence regarding the above and the handling of related matters. It is also necessary to conduct and supervise investigations of a very special and confidential nature when necessary. There are now nine Agents assigned to the Pittsburgh office, exclusive of the Agent being transferred, classified as follows:

Dear Ed:

I have been somewhat delayed in acknowledging your personal note, but I am certain you can appreciate what the pressure has been here at Washington. In regard to the Guerrero matter, I wrote him a letter relative to the undesirable practices which he has been following in connection with the borrowing of money. I received a letter from him, which indicated that he had apparently expected to have been dismissed for what he had done. I have ordered his transfer to the Chicago district, as I felt it would be undesirable to retain him in the Pittsburgh district, where he has carried on such borrowing propensities. I of course want you to run down all of the odds and ends which have come to your attention concerning the activities of Guerrero to make certain that he has been guilty of nothing more serious than indulging in the borrowing of money.

EX-104

We are studying the plans for installing in our field offices radio sets which possibly can be used for the so-called two-way purposes. I have recently procured from the Alcoholic Beverage Unit, formerly the Prohibition Unit, many of their automobiles, having in mind that if we were going to install these radio sets we would want machines that could properly function and not some broken-down old cars which they at first turned over to us. I do not know what cars have been turned over to you at Pittsburgh, but if any have I want you to make certain that they are in good condition. I think it is an excellent idea to have our field offices equipped with radio sets to receive local police calls; particularly this is of value in kidnaping and extortion cases. If you happen to know of any property which the Alcoholic Beverage Unit has in your district, and which you have not been advised is to be turned over to you, and which you actually need, please let me know at once, and I will see that orders are immediately issued to have this property transferred. This should be done immediately, because it is planned to transfer the Alcoholic Beverage Unit over to the Treasury Department before the end of this month, and consequently, any transfer of physical property must be effected before that time.

I was very sorry that former Congressman Shreve refused to swear to his statement. Obviously, he could have had nothing to do with effecting reappointment last summer because he was not then in Congress and was a

Republican. He also had nothing to do with my appointment in 1924, when I was appointed by Attorney General Stone, because at that time I did not know Mr. Shreve. I became acquainted with him after I became Director of the Division, when he was Chairman of the Sub-Committee on Appropriations for the House of Representatives. He was always most considerate and sympathetic with the problems of the Division.

I think it is wise for you to make as many contacts through the field as you can because through these contacts we can always get more work, which naturally is what we are looking for, in order to keep up the good record which we have been able to make.

Each day shows, I believe, a slight improvement in the condition of the work in this district, tho we still have a long road ahead of us. The number of cases referred to us can be augmented at any time that we are able to cope for them in a proper manner.

I, yesterday, wrote officially concerning the acquiring of another automobile for the Division's use, suggesting a 1932 Ford, eight cylinder sedan, which the Alcoholic Beverage Unit is willing to turn over to us. The Chevrolet we now have is useless for "hurry up" work out side of the city, and should be turned back to the Alcoholic Unit. The car has not been used a great deal, but

KEYSTONE ATHLETIC CLUB

its availability is, of course, of prime importance. Along these lines I believe the assignment of a second car, where procurable, to the Division offices is desirable for use in emergency matters. Virtually the only expense involved is garage hire and the utilization of the additional car in a few instances would offset the cost. The Beverage Unit has a number of cars here, any of which will be turned over to us, the most desirable being, after the Ford mentioned above, a Chrysler coupe, presently being reconditioned. While this body type is not of the most satisfactory style, the car from the viewpoint of potential speed and

Dependability is the best prospect among the government owned cars which we could obtain. I shall write further along these lines at a later date.

As to the extortion letter received by Mr. G. L. Humphrey, we have every possible angle lined up, so that if the case opens up at all we are bound to break it wide open. Mr. Humphrey was very appreciative of the prompt and enthusiastic response made to his complaint, and genuinely impressed with our preparations. He drew some rather astounding comparisons of this present incident to a letter which he some years ago turned over to the Post Office Department - who never did a thing with it. If the writer of the present letter

Dear Mr. Hoover;

With further reference to my conversation with

Milton

W Shreve at Erie several comments were made which may be of interest to you. Mr. Shreve stated that he was your friend on the Appropriation Committee when you were unknown to the rest of the committee, but that thru your contacts with the committee over a period of a few years the time came when the entire group was completely "for" you. He stated that Mr. Cummings was opposed to you at the beginning of the present administration and was not too favorably inclined towards you, but that within the course of about two to three months he (Cummings) had become very enthused both with you personally and with the results which you were accomplishing with the unit. He stated that Senator McKeller (Tennessee?) was strongly opposed to your reappointment and had in fact chosen a candidate to replace you and endeavored strenuously to have his own choice for Director named. Shreve made these comments to his son while explaining general conditions in Washington and was warm in his praise of you and enthused about the accomplishments of the Division. He stated several times that he would be back in Congress the first of next January and would again be a member of the appropriation group. I have heard from some sources that the Democrats are more inclined to support him than they are to support the party candidate because, it is said, Shreve knew how to take care of both sides while in Washington. I of course was careful to refrain from any comments for or against anyone, altho Shreve was very caustic in his comments concerning Crosby.

I feel that the Pittsburgh office is getting in a little better shape every day and after next week I am going to spend a few days each month out in the field establishing contacts where they will be the most valuable.

With sincere personal regards I am

Dear Mr. Tamm:

I have your letter of April 14, 1934 attaching a specimen record sheet which is maintained upon the scores averaged by each Special Agent in your office and, in this regard, I wish to inform you that I believe the preparation of such a sheet is an excellent idea. As a matter of fact, I thought you would be interested to know that I am having a supply of these sheets made up in order that a similar record might be maintained by every field office.

Kindly accept my thanks for the suggestion rendered in this regard.

Dear Sir:

In connection with Division communications requesting investigation of Applicants for Division positions, the prevailing practice is to send a copy of all letters addressed to auxiliary offices by the Division only to the office of origin. Copies of Division letters requesting investigation at the office of origin and any other auxiliary districts are not furnished auxiliary offices. As a result of this procedure information is often obtained in the auxiliary district concerning the applicant's activities in other auxiliary districts or in the district covered by the office of origin but the auxiliary office is unable to ascertain from its file whether the information obtained or developed has already been set forth for investigation in the proper district. This condition will, no doubt, occasionally cause the non-development of evidence which may be very pertinent to the investigation particularly in those cases in which one auxiliary office knows that another auxiliary office has received a copy of a Division communication and accordingly a request for investigation in its district.

It is respectfully suggested that the Division consider the advisability of sending copies of all requests for investigation of applicants to all field offices concerned in order that each office may have an accurate record of the information actually submitted for investigation.

Position: 2 - Caf 13 Special Agent (Chief) positions

Compensation: \$5600 per annum

Location: Field Service

Appropriation: "Salaries and Expenses, Division of Investigation", FIELD

Date of Vacancy: Two additional positions

Justification: These Special Agents, Grade Caf 12, \$4600, are being transferred after special training and trial to Grade Caf 13, \$5600 per annum to fill additional positions. The duties of the new assignments necessitate acting as a personal representative of the Director in the field and require that the Agents act upon their own initiative to a very large extent. They must advise as to the capabilities of field employees and personally interview and recommend the appointment of individuals applying for Special Agent positions. They must inspect statistical and administrative records to determine if they have been properly handled; attend hearings in cases involving delinquencies on the part of employees and make recommendations as to the administrative action necessary; review the work of field offices to ascertain if the Division's policies are being adhered to and issue any orders necessary to correct conditions in contravention thereto; and advise and direct groups of Agents when so required. They must make and personally supervise special investigations for the Director and high Government officials involving administrative, intricate, complex, and important problems requiring the services of an investigator of the highest order; and confer with Federal Judges, U. S. Attorneys, and other officials relative to the promulgation of Division policies. It is therefore requested that these transfers be approved inasmuch as the assignments constitute new positions.

Special Agent in Charge,

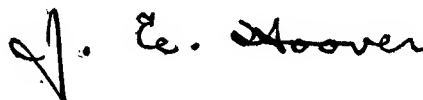

Attention: Mr. Tamm.

Dear Sir:

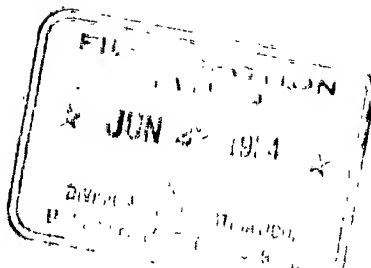

In view of the additional duties which have been placed under the jurisdiction of this Division, I feel that it would be desirable for us to ascertain the names of men who, while possibly not possessed of legal or accounting training, might be of use in connection with our work because of their knowledge and participation in law-enforcement work. It is believed that you and the Agents under your jurisdiction may be acquainted with high-class, intelligent, well-appearing men of practical police experience and training in your district who might be interested in securing a position in the Division.

I, therefore, would like to have you give this matter your careful consideration. In expanding the personnel of the Division, it will be necessary, of course, to adhere to the high standards of qualifications which have been followed in the past and in suggesting to any persons the matter of possible appointment in the service, you should keep in mind the desire of the Division to appoint particularly capable and outstanding law-enforcement officers. In any instances wherein it is suggested to such officers that they file application you should notify the Division in order that upon receipt of such application the same may receive special attention at the Washington headquarters of the Division.

Very truly yours,

Director.

Dear Mr. Hoover:

In attempting to properly acknowledge your communication of July 9, 1934 advising me of my promotion from grade CAF 12 to grade CAF 13 I am confronted with an actual realization of the inadequacy of printed words to properly express sincere gratification.

I desire, however, to thank you for the consideration which has been shown me and particularly since I realize the personal efforts that you have expended to make my promotion and the promotion of others possible. I will attempt to the best of my ability to justify the confidence which has been displayed in me.

MEMORANDUM FOR MR. TAMM

I want to indicate my extreme displeasure at the manner in which the memorandum upon the John Dillinger case was handled. I had given specific orders several times that there should be maintained a current memorandum of all facts in this case. On one occasion previously I had found that this was not being properly taken care of, and I brought it to your attention. While I appreciate that you could not prepare the memorandum, yet it was in charge of a supervisor under your direction. It is imperative that you check the work of your supervisors and that you see that the same is properly organized, as their mere verbal assurances that the matters are being taken care of are not sufficient.

I think that you should give immediate attention to a complete reorganization and a closer direction of the supervision of the supervisors' work. The memorandum in the Dillinger case was miserably prepared, and as a matter of fact, even to date, the memorandum has not been prepared in a satisfactory form or in content. There is no more important matter, in my estimation, than this under your supervision at the present time, and I would like to have you give it your immediate attention.

John Edgar Hoover,

MEMORANDUM FOR MR. TAMM

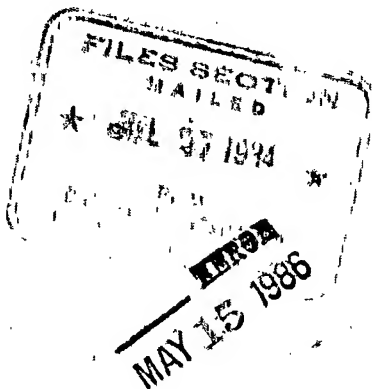

Last evening I had occasion to make inquiry as to whether an investigation was in progress by this Division of the nitrogen industry. This morning I was advised that upon making inquiry, you ascertained that there had been some reference to the nitrogen industry in another investigation, but no one seemed to know in the Division whether an actual investigation of the nitrogen industry was in process.

It seems to me that the supervisor in charge of the antitrust investigations of the Division should be immediately familiar with the major investigations which are being conducted under the antitrust laws. There are not so many of these investigations as to make it impossible to know whether or not a certain industry is being investigated. I do not believe it is necessary to have to always refer to a file to determine whether or not a major industry is under investigation, if the supervisor of antitrust work is properly supervising the same and is familiar with it as he should be. I am getting somewhat annoyed at the, what I believe to be, inefficient and more or less superficial handling of the supervising work at the Seat of Government. I have been hoping to be able to call the heads of the various Units together to indicate in no unmistakable manner my extreme displeasure at the way this is being handled, but to date I have not had time to do so. I do want to have a talk with you, Mr. Egan, Mr. Tolson, Mr. Quinn, and Mr. Edwards, and Mr. Coffey, but until I get time to do so, I must insist that you take steps to check on these matters and see that, at least in the investigative side, the supervisors are more familiar with the work that they are handling than has been indicated by the above inquiry.

MEMORANDUM FOR MR. TAMM

I gave orders last evening that I wanted at 9:00 o'clock this morning a memorandum upon the case in Philadelphia involving the theft of Government ammunition and the sale thereof by the M and H Sport Goods Company. This morning when the memorandum was delivered to me, I noted that it had been improperly prepared in that it did not indicate whether the three principal subjects had been questioned and had made any statement concerning the guilty knowledge upon the part of the M and H Sport Goods Company, of the source of the ammunition, and in glancing through the file I noted that on one occasion one of the principal subjects had sold ammunition to a representative of the M and H Sport Goods Company at Atlantic City, while he was dressed in the uniform of a Coast Guard Officer, though this fact did not appear in the memorandum. I do not know in what other respects the memorandum may have been inaccurate, because at that time I turned it over to you to have it rewritten. At the time that I am dictating this memorandum it is exactly ten minutes of eleven, and the conference for which I needed the memorandum is at 11:00 o'clock. It appears that the memorandum will not be available for me in time for this conference.

I have repeatedly indicated that there must be established by you some system and supervision whereby memorandums are properly prepared and are carefully reviewed by you before being sent to me for my use. I have neither the time nor the patience to have to carefully check the files to see that a memorandum is complete, and it should not be necessary that I should be subjected to these kinds of delays, in obtaining information concerning the status of investigative cases.

I want to again repeat that you must immediately arrange to exercise proper supervision over these matters so that I can have the information desired when requested.

Very truly yours,

John Edgar Hoover,
Director.

MEMORANDUM FOR MR. TOLSON

QUINN

TAMM

LESTER

I want to again call to your attention the necessity for more prompt action in the matter of preparing material dealing with cases handled by the Division for press purposes. With regard to outstanding fugitives being sought by the Division and other important cases, it is imperative that a memorandum be available at all times listing in accurate and concise form the developments in the case so that upon the apprehension of such fugitives or the conclusion of such a case it will be possible to have available for immediate use complete information as to the background of the particular matter. The necessary photographs and criminal records in each case should be available at all times so that there may be no delay in the issuance of appropriate press releases in Division cases.

Recently, two situations occurred with regard to making information available for press purposes. The first dealt with the address which I delivered before the American Bar Association at Milwaukee. Due to the fact that a copy of the address was made available to officials at the Seat of Government several days before the address was delivered, copies of the speech were not ready for press purposes when the speech was delivered.

The other incident involved the preparation of a press release following advice received from Mr. Cowley at Chicago as to the substance of such release. Several hours had elapsed between the receipt of this advice and the need for the press release in proper form and yet sufficient copies of the release were not available for members of the press. However, the matter was not appropriately handled at Washington and it was necessary for me upon my return to Washington to wait some time before the material could be released to the press, during which time it was difficult to hold up the release of similar information at Chicago.

It is rather difficult to issue specific instructions in this matter which will cover all situations but I trust that hereafter prompt and proper action will be taken in connection with all material of this kind in order to avoid situations such as those to which I have referred in this communication.

Very truly yours,

John Edgar Hoover,
Director.

While in Chicago last week, I learned that Mr. Cowley had not been advised of the identification made in connection with the machine gun recently found in Lake Michigan, and which our Crime Laboratory found to have been the same gun used in the Kansas City massacre. Obviously, there is something wrong with the system at headquarters when the results of such an examination by our Crime Laboratory are not forwarded to the interested office or offices. Will you please check into this matter and ascertain how this oversight occurred, and take steps to insure that in the future such field offices conducting the investigation are advised of the results of the examinations by our Crime Laboratory.

I want to again call to your attention in connection with the examining and interviewing of applicants the necessity for you to personally receive the test papers used by an applicant at the completion of the examination together with the questions submitted by the applicant.

In one instance recently, an accounting re-examination was not turned in to the interviewing officer and as a result it has been necessary to prepare another re-examination for use in examining Special Agent (A) applicants who take a second test. Furthermore, in receiving papers concerning test questions from an applicant, you should check the material returned to see that all of the questions are intact. Under no circumstances should an Agent or clerical employee be utilized in connection with the actual tests afforded to applicants or the receipt of tests from them.

MEMORANDUM FOR MR. TAMM

I am particularly concerned about the delay occasioned in connection with the preparation of a general letter to the field offices concerning the activities of members of the Karpis-Barker gang in the Bremer case. As I understand it, a decision was reached at the conference held at Washington on August 27th to send forth such a letter, and yet three weeks have elapsed and the letter has not as yet been submitted to me for approval to be sent to the field. I cannot too strongly stress the imperative necessity of your exercising a closer supervision over the work of your supervisors than has been exercised, judging from this particular incident. You should adopt immediately some sort of a follow-up system which would prevent conditions of this kind developing. I recognize that the duties assigned to you are quite heavy and that it is humanly impossible for you to be able to keep all of these matters in your mind. Consequently, I think a follow-up system of the proper kind would assist you in seeing that these matters are taken care of.

Of course, the failure of a supervisor who is charged with the direct responsibility of handling such matters is inexcusable, and I would like to have you impress upon the supervisors the necessity for seeing that these matters are given very careful and prompt attention. If there are not enough supervisors assigned to our investigative work, I should like to be advised.

In view of the fact that the movements of criminals in whom we are particularly interested are usually rapid and extend to all parts of the country, it is imperative that the same speed be attendant to our activities.

I am also somewhat concerned with the practice that is apparently developing in notifying only a selected group of offices concerning the activities in cases of major importance. You have informed me that in the Bremer case general information has been distributed only to approximately ten offices. No one in the Division has a right to assume that the Karpis-Barker gang will restrict its activities to the territory covered by these ten offices. We know that this gang has roved about in parts of the country on the Pacific Coast, the Middle West, and even into certain portions of the East. In cases of major importance, I think that all field offices should be kept fully and promptly advised of the general developments so that they may intelligently handle any leads which arise in their respective districts. Please see that this present policy is changed immediately and the policy which I have suggested is adopted and followed in the future.

I should like to have an explanation as to why the delay occurred in the sending out of a circular upon Doctor Moran. I can understand possibly why an Identification Order was not prepared, but I do not understand why all of our field offices were not notified of our desire to take this man into custody for questioning. He obviously is as important, if not more so, as the two doctors in the Piquett case at Chicago, and it was not until I personally instructed you to see that a circular went out upon this matter that one was prepared. This is another instance where closer supervision, I believe, is necessary, and where more attention should be given to the matter by the supervisor in charge of this work.

With reference to your memorandum of September 15, 1934 concerning the failure to prepare a Division bulletin listing the names, descriptions, criminal records and other data concerning the various individuals whose location is being sought in connection with the Bremer case, you are advised that the failure to promptly prepare and issue this memorandum is due solely to my failure to vigorously press the supervisor handling this case.

With reference to your statement concerning the number of supervisors, I feel that there are at the present time a sufficient number of supervisors assigned to this unit to properly handle the investigative work of the Division.

Instructions are being included in a form letter being prepared today for transmittal to all Special Agents in Charge advising them that copies of investigative reports containing pertinent data concerning any angle of the Bremer case or the activities of the various members and contacts of the Barker-Karpis mob should be furnished to all offices.

Mr. K. A. Tamm,

Dear Mr. Tamm:

I wanted you to know how much I appreciated, not only officially but personally, the tremendous help and assistance which you were to me during the past several weeks. Much credit and praise have been given in the press to various officials of the Division in connection with the Lindbergh case, but in the final credit which must be given in that case, you will stand out as one of the principal ones to receive that credit. Your supervision of it over many long and weary months has contributed materially, in my estimation, to the successful outcome of that case.

The past two weeks, as you know, have been unusual in their burden and strain upon the Division, and I know that the success with which the convention of the International Association of Chiefs of Police met and the prestige and credit which ensued to the benefit of the Division therefrom, could only have been accomplished through the whole-hearted, loyal support and interest of the officials of the Division at Washington headquarters, and in this group you stood out preeminently. I am very grateful to you, and wanted you to know how much I appreciate it.

Sincerely,

J. Edgar Hoover

MEMORANDUM FOR MR. TAMM

In regard to the attached memorandum concerning the night letter from Mr. Guinane dated October 7th, I note that you state authority was granted Mr. Guinane by telegram forwarded October 8th, but you will note that his night letter was sent from San Francisco at the ~~business~~ business October 8th, because it bears the time of 5:00 a.m., October 9th. What I am trying to find out is why Mr. Guinane's night letter of October 7th, which must have been received here on the morning of October 8th, was not immediately acted upon. I would like to know at what time on October 8th the answer was sent to Mr. Guinane.

Very truly yours,

MEMORANDUM FOR MR. TAMM

Do I understand from the attached telegram from Mr. Cowley that the fingerprints of the Barker gang have not been supplied to the Chicago Office and to our other field offices? If this is a fact, there has been a very serious oversight upon the part of supervision of this case at Washington headquarters. Please advise me at once as to whether it is a fact that the fingerprints of members of this gang have not been sent to the field offices. Please see also that Chicago is at once supplied with fingerprints as requested.

After the completion of the training course called for October 2, 1934 for instructing an additional group of agents and accountants in the examination of judicial offices, I believe it would be wise to send that Division official or supervisor, who will subsequently handle this type of case, into the field to participate in an actual examination of a judicial office in order that said supervisor will have practical knowledge of the difficulties arising during the conducting of an investigation of this type.

With regard to the preparation of the lists of ransom bills, while I understand that the responsibility for eliminating certain symbols from this list is that of Mr. Coffey, who assumed to eliminate these symbols, I feel that you should be particularly careful in the future to insure a checking of such matters before final action is taken. In other words, I do not believe it is proper for you to delegate the entire responsibility in such a matter without arranging to check and approve the action taken. Please see, therefore, that in the future some method is followed in your Unit of the Division to avoid a repetition of this sort of a situation arising.

MEMORANDUM FOR THE DIRECTOR

With reference to the telegram from the Los Angeles Office pertaining to a subpoena issued, requiring the production of records of the Los Angeles Division Office in the Federal Court, in connection with a civil action, you are advised that initial information concerning this subpoena was received from the Los Angeles Office in a letter dated October 22, 1934, which was received in the Division on October 24, 1934, received in my office on the afternoon of October 25, 1934 and received in Unit 1 on October 26, 1934. The contents of this letter were referred to the Antitrust Division of the Department by a memorandum dated October 27, 1934, in which it was requested that that Division advise what action should be taken by the Los Angeles Office in this matter. Under date of October 29, 1934, Assistant Attorney General Stephens responded to the Division's memorandum by transmitting a copy of a letter addressed by the Antitrust Division to the United States Attorney at Los Angeles, instructing him to bring the substance of Mr. Stephens' letter to the attention of the Judge of the Federal Court before November 6, 1934, and to immediately get in touch with Mr. Dunn in Los Angeles, informing him of the action on the part of the United States Attorney's office. The Antitrust Division in their letter to the United States Attorney at Los Angeles, points out that these documents are confidential and cannot be produced in the Federal Court in civil litigation. The contents of the Antitrust Division's memorandum and its letter to the United States Attorney at Los Angeles are being transmitted to the Los Angeles Office by air mail letter dated November 1, 1934, this letter having been prepared and transmitted to your office for signature prior to the receipt of the telegram from the Los Angeles Office. The memorandum of Assistant Attorney General Stephens was received in the Division on October 30 and in my office on the afternoon of October 31, 1934.

MEMORANDUM FOR MR. TAMM.

With reference to your memorandum of November 2, 1934, concerning the report which I requested from you on C. F. MacDonough, when I requested the report I wanted to know whether MacDonough had the right to refer to the fact that he was a member of the United States Navy or served in any capacity, or was connected in any way with the United States Navy. Maybe I didn't specifically state all of these details, but it would seem to me that when an inquiry is made, all the information should be procured. It is very embarrassing to be furnished only a part of the information, and then to later be advised that it was a fact that MacDonough had been a member of the United States Naval Reserves. Your supervisors should be instructed in the future to secure all information, for only part information is worse than none.

MEMORANDUM FOR MR. TAMM.

With reference to your memorandum of November 2, 1934, covering the conference which you had with your supervisors, I note that you endeavored to impress them with the necessity for a rigid examination of all current reports and mail, and that you stated that you would recommend the dismissal of supervisors responsible for major errors. I, of course, believe that this is entirely proper, but I do think that what is needed particularly at the present time in your unit of the Division is proper training and supervision by you of the supervisors. Most of these supervisors are new in their work, and no doubt there are many things confusing to them. I do not want them to become "rattled" or panic-stricken in their endeavors to handle the work. All of these men have been reported as having potential possibilities for development, and consequently, I think that you should give particular care and attention to their training and development.

MEMORANDUM FOR MR. TAMM.

With reference to your memorandum of November 21, 1934, concerning the sending of Mr. Pickering to Arizona in connection with the Robles Case, I believe that it should be distinctly understood that wherever expert testimony is needed in connection with a kidnaping case for which this Division has the primary responsibility, the best expert available should be sent to cover that case. I realize, of course, that Mr. Appel may have had other commitments, but I do not believe that any Motor Vehicle Theft case or any other type of case which the Division might handle would be as important to the prestige of the Division as a kidnaping case over which we have primary jurisdiction. For this reason I believe that Mr. Appel should have been sent to Arizona to have handled all phases of this case from the technical point of view rather than Mr. Pickering, and in the future I desire that careful consideration be given to the importance of the case in the assignment of experts to handle it.

This case is one of the most important cases which the Division has had for some time, and as I understand it, it entirely depends on the testimony of the handwriting expert, and Mr. Appel, for that reason, should have been sent to Arizona in the first instance.

Very truly yours,

John Edgar Hoover,
Director.

MEMORANDUM FOR MR. Tamm

With regard to your memorandum of November 16, 1934, covering your conversation with Mr. Cowley, I wish that you would check the memorandums more carefully, because I note in this memorandum that Piquett's name is spelled in this memorandum as "Pickett". Obviously, this will mislead the file room of the Division in indexing.

I do want the Chicago office to press vigorously the investigation of the Crown Point Jail escape. I assume, of course, that nothing can be done concerning the Pierpont angle in this matter until the Pierponts sufficiently recover from their recent injuries. Mr. Cowley, however, should keep this in mind, and as soon as they have recovered, should endeavor to bring about an interrogation of Art O'Leary in the presence of the Pierponts, so that the facts can be established if possible.

MEMORANDUM FOR MR. TAMM

With reference to your memorandum of December 20, 1934, covering your conversation with Mr. Fisher of the Criminal Division, I desire to state that I do not believe that this man's matter was handled properly. In other words, the memorandum from Mr. Keenan dated December 20, 1934, which was written by Mr. Fisher, stated that Mr. McKay had received previous note that the Postal Inspectors had been working on the case. Consequently, it was a case in which this Division should have taken no action, because it has been distinctly understood that any case or cases upon which Post Office Inspectors have been previously engaged will be concluded by them. I note that in this instance, in your conversation with Mr. Fisher, he stated that the Criminal Division did not contemplate taking any further action as it had no other interest in the matter. Mr. Fisher should have been specifically told by you that it was not a matter which this Division would, or could handle, that since the original complaint had been made to the Criminal Division, it was up to the Criminal Division to see that it was referred to the proper Governmental agency, namely, the Post Office Inspectors. The point that I would like to get over is that, when complaints of this character are received by the Criminal Division, instead of their trying to receive the complaint and handle it, usually improperly, they should inform the party calling or writing that he should refer the matter to the Division of Investigation. The call should then be transferred to this Division.

In this particular instance, the Criminal Division received the call and presumed to assure the party phoning, namely, Mr. M. W. Alworth, that the matter would be given immediate attention by the Division of Investigation, when as a matter of fact it should have been handled by the Post Office Inspectors. Unless the Criminal Division has it very emphatically impressed upon them that such calls should be transferred to the Division and the Division officials handle the same, they will continue with this practice, and it was with this in mind that I issued instructions that you should communicate with Mr. Fisher and pass the case back to him and let him take care of it in any such way as he may see fit.

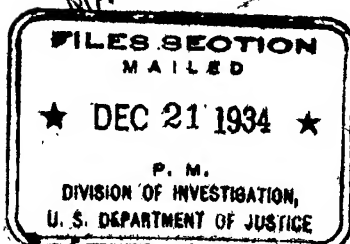

However, since Mr. Fisher out-maneuvered the Division in this particular matter, and now that we have the case on our hands, we will have to handle it. I would like to see that it is handled vigorously and properly.

Very truly yours,

To replace Mr. W. A. Smith as Supervisor of Bank Robbery investigations, I recommend Special Agent P. E. Foxworth. Mr. Foxworth is presently stationed at the Division, where he has been conducting a review of the fugitive cases in which Identification Orders are outstanding. Agent Chambers has also been working upon this review of the fugitive cases and will continue on the review. As soon as I have found a suitable man for recommendation to assist Mr. Chambers, I will make a recommendation for this replacement.

In this regard, I believe it would be well to extend the present survey to all fugitive cases, in order to properly review all of the fugitive cases, and to issue Identification Orders where this process is desirable.

Respectfully,

I do not know what this means. I thought we were making such a review. What I want to get done is a thorough review of all fugitive cases & I. O.'s issued where necessary. Can't we get a clear understanding on fugitives & I. O.'s

MEMORANDUM FOR MR. TAMM

I think that there must be something radically wrong in connection with the supervision of cases at the Washington headquarters, when I consider the considerable annoyance and embarrassment occasions by reason of the manner in which the case of Miss Canary has been handled by the New York Office. This is not an intricate case, but a very simple one; yet I think that every blunder that could have been committed has been committed by the New York Office and by the Washington headquarters in the supervision of this case. You will note in the correspondence going out today that I was again advised last night that Miss Canary personally called upon Father O'Hara, one of the complainants against her, and advised him in detail of what other complainants had said about her, and informed him that she had obtained this information from our New York Office. To date I have not received any comprehensive report concerning this case, though on at least three occasions, I had evidenced to you and through you to the New York Office my interest in the same and my displeasure of the manner in which it has been handled. I want now to have a full and detailed report upon this case in my hands not later than the close of business Friday, January 4, 1935 and at the same time I would like to have a full and detailed report of the reasons why this case has been so miserably mishandled by our New York Office and why it has not been followed up properly at the Washington headquarters.

From the reports which have reached me from outside parties at New York, it would appear that we have constituted ourselves as a defender and shield for Miss Canary and have put on the defensive those parties who sought to bring to our attention her alleged unlawful activities. Certainly, someone in our New York Office must be extremely gullible to have been able to have swallowed the story of this woman; and then to make the situation even worse, we apparently disclosed to her all information which we have received concerning her.

As I have indicated, I have previously called this matter to your attention, and apparently it has been handled in a routine manner. I realize that you personally have more than you can possibly handle, but I do think that you should designate someone in your office who will give these cases special attention and see that prompt reports are submitted on them to me. This has not been done in this case, and it has caused me considerable embarrassment to be totally ignorant of the progress which has been made in the investigation, if, in fact, any progress has been made.

Very truly yours 67-15585-133

Director.

Smith upon the derogatory remarks made in connection with the case entitled "Alice Eleanor Hunt Canary - Impersonation," I still desire that every effort be made to procure, if possible, a copy of the letter which Father McIntyre states he received from Mr. Ralph Easley. Failing to procure this letter, I would then like to get the exact phraseology used by Mr. Easley in his letter to Father McIntyre.

In connection with Mrs. Uzzell, I assume that she was one of the persons who was given as a reference by Mrs. Baldwin as having information concerning Miss Canary. The memorandum, however, is not clear in connection with this matter. If my assumption is correct, I am not surprised at Mrs. Uzzell having the attitude she has toward the Department of Justice, if she was treated in the manner she was by Special Agent Kavanaugh, who seems to have committed every blunder and bungle possible in his handling of this case.

In connection with Miss Canary, I am not in the least concerned as to what she may think about the Department of Justice, because, naturally, she would be particularly hostile toward it in view of the fact that she is the subject of an investigation. From the previous memoranda submitted, I gained the impression that there were a number of witnesses who had criticized the Department. I assume that the memorandum of Mr. Smith is now complete, and that the only persons who have so criticized the Department are Mrs. Uzzell, Miss Canary and Mr. Ralph Easley, in his letter to Father McIntyre. Please advise me if my assumption is correct in this matter.

The attention of Mr. ~~K~~ay at New York should be called to the fact that the manner in which this investigation has been handled by his office is no doubt responsible for the criticism of the Division by Mrs. Uzzell, and possibly other parties. If other investigations are handled in a similar manner, I can well understand why persons at New York City may feel that the Division of Investigation does not function with the efficiency with which it should function, and it should be very clearly and definitely pointed out to Mr. Kay.

I have not as yet received the full and detailed report concerning Special Agent ~~K~~avanaugh's work in this case. I still want that report as I intend to take some administrative action, either by way of reprimand, suspension or dismissal, whichever the facts warrant. Please see that this memorandum is placed in my hands as soon as possible, together with the additional information which I have indicated I desire in the above memorandum.

MEMORANDUM FOR MR. TAMM

With reference to your memorandum of January 21, concerning the photographs of Alderton and Farmer, which had not as yet been received at Washington, I note that Mr. Ladd states that through an oversight they were not transmitted to the Division. This may be very true, but what I am particularly concerned about is why the Washington headquarters failed to procure these photographs immediately after they had been taken. This is not the first time that photographs and fingerprints of persons arrested by our Agents and held by them for a period of time have not been received at Washington promptly, and while it is the duty of the field offices to send them in at once, it is also the duty of the investigative unit at Washington headquarters to see that they get here. In this particular instance, your office should have followed this matter up within 24 hours after the arrests had been made to make certain that the photographs and fingerprints had been received.

I want you to make certain that the photographs of the persons arrested in New York and in Philadelphia, as well as in any other sections of the country, in connection with the Karpis-Barker gang, and the Mais-Legenza matter are forwarded promptly to Washington, irrespective of whether we already have photographs on file here of them. We want the latest photographs.

I was advised this morning that we did not have photographs of Vidler and McLaughlin. Now I am advised that we do have these photographs. Something must be done to get accurate information for me when I ask for it. Will you please give this matter your immediate attention.

Very truly yours,

MEMORANDUM FOR THE DIRECTOR

I contacted Mr. Ladd at Chicago this morning and asked him whether he had transmitted to the Division photographs of Harold Alderton and Elmer Farmer. He stated that these photographs had been taken in the Chicago Office but that through oversight he had failed to transmit them to the Division. I instructed Mr. Ladd to submit these photographs immediately by air mail, special delivery and admonished him for his failure to transmit them to the Division immediately after they had been taken.

Photographs of Vidler and McLaughlin are being prepared in the Photographic Section and will be finished this afternoon.

MEMORANDUM FOR THE DIRECTOR

Relative to your memorandum of January 3, 1935 concerning the issuance of Identification Orders, you are advised that this section of the Manual is being revised and Identification Orders will hereafter be issued in all cases when immediate leads are exhausted in fugitive cases. The Manual will require the field offices to check the records of the offices of the United States Attorneys at least every six months to ascertain whether process is still outstanding against the fugitive.

The review of the pending cases in which Identification Orders are outstanding is continuing but will require approximately sixty days work to complete. I have recommended the assignment of an additional Agent (C. E. Weeks) to assist Mr. Chambers in conducting this review.

With reference to your memorandum of January 7, 1935, referring to the Identification Order situation, you are advised that the fugitive files are being reviewed, additional Identification Orders being issued, the field offices being instructed to ascertain whether the fugitive will be prosecuted, if apprehended, and the Manual provisions so revised as to provide a frequent periodical check upon these matters.

The review of the Identification Order cases will be extended to all fugitive cases immediately upon completion of the work upon those cases in which Identification Orders are outstanding.

Respectfully,

Re Bremer case.

Mr. Alt telephoned and stated that in telephonic conversation with Assistant Director Nathan at St. Paul, the latter had stated that in his opinion it would be alright to send the \$14,000.00 and the diamonds to St. Paul by express, providing the former could be insured for its full amount, and that the car should be driven to Savannah, Georgia, in order to get it out of the state of Florida. Mr. Alt stated that Mr. Nathan had requested him to get authority from the Division before these moves were taken however.

I inquired as to the purpose of this movement and Mr. Alt stated that he did not know the reason for Mr. Nathan's suggestion that the money and diamonds be forwarded to the St. Paul office.

I advised Mr. Alt that he should go ahead and forward the above articles in accordance with Mr. Nathan's suggestion and that the car could be ~~sent~~ to Savannah.

NOTE

What is this being done for? I can understand about car but I can't see why we are taking any interest in money & diamonds.

MEMORANDUM FOR MR. TOLSON.

I was astounded today to learn that our Jacksonville Office, acting upon the instructions of Mr. Nathan at St. Paul and with the concurrence of Mr. Tamm at Washington Headquarters, had transmitted the \$14,000 and diamonds belonging to the Barkers and which were found in the house which the Barkers were occupying at Ocala, from Jacksonville to St. Paul. In the first place, this Division has absolutely no right to seize any such property at any time. Apparently Section 29 of the Manual of Rules and Regulations has become a totally dead letter in so far as certain officials of this Division are concerned.

I wish that you would immediately advise all officials at Washington headquarters and all Inspectors and other officials of the Division, whether at Washington headquarters or in the field, that Section 29 of the Manual of Rules and Regulations means exactly what it says. I would like to have a letter addressed to all Agents in Charge relative to this matter. The only property which this Division has any right to seize would be guns, ammunitions, and automobiles. Any other personal property should not be taken by Agents of this Division, and in this particular instance it seems to me that the action of transporting this money and jewelry from Jacksonville to St. Paul is more for the convenience of the attorneys for the Barkers in order that they may file the proper attachment upon the same so as to secure this money for legal fees. We already know that an attorney for "doc" Barker has obtained a court order to take over the \$5,000 in the safety deposit box at Chicago

belonging to the Barkers, and I have but little doubt that when this money reaches St. Paul and it becomes known that it is there, a similar court order will be procured by the attorneys for Barker. I do not see why the resources of this Division should be utilized to assist defense counsel in such matters. The property should have been left in the State of Florida, either in the possession of local authorities or in the possession of the United States Attorney or the United States Marshal, and then if the United States Attorney at St. Paul or any other Federal official at St. Paul desired that the property be taken to St. Paul, the proper legal procedure could have been taken.

I think the action in this case is most reprehensible and I want a very definite understanding upon the part of all officials of this Division at Washington headquarters, as well as in the field, that they are to make no exception to the Manual of Rules and Regulations of this Division without specific authorization from me personally.

Very truly yours,

MEMORANDUM FOR THE DIRECTOR

With reference to the \$14,000 in currency and several diamond rings which were recovered at Ocala, Florida from the bodies of Kate and Fred Barker, after they had been exterminated by Division Agents, I called Mr. Alt at Jacksonville and ascertained that he had sent the money and rings by express to the Special Agent in Charge of the St. Paul Office. Mr. Alt stated that he talked to Mr. Nathan at St. Paul late last week concerning the disposition to be made of these articles and Mr. Nathan advised him that he would confer with the United States Attorney and see what disposition he desired made of these items. Mr. Alt states that Mr. Nathan subsequently called him and told him to forward the money and rings to the St. Paul Office if this procedure had the Division's approval. Mr. Alt called me on January 26th (Saturday) and advised that he had conferred with Mr. Nathan at St. Paul concerning the disposition of these articles and that it was desired there that they be transmitted to the St. Paul Office. I advised Mr. Alt that in accord with Mr. Nathan's instructions it would be satisfactory to transmit these items by express to the St. Paul Office.

MEMORANDUM FOR THE DIRECTOR

Re: John Paul Chase

Relative to the Division letter of February 4, 1935, transmitting a check in the sum of \$2500 to the San Francisco Office, you are advised that this letter was dictated by me on January 17, 1935. It was transcribed several days thereafter and transmitted to the Chief Clerk's Office, in order that the check might be attached. The original wording of the letter as prepared by me was that a Government check was being transmitted. The Chief Clerk's Office changed the letter to read "New York draft" and approximately two days thereafter the letter again came to me for initialing. The letter was initialed, again returned to the Chief Clerk's Office and it was at this time that I advised you that the letter had been transmitted. This was on Saturday, February 2, 1935. On Monday, February 4th, the letter again came back to my desk with an inquiry from Mr. Tracy as to whether a formal release should be transmitted with the letter. I endorsed a notation on the letter that an ordinary receipt, including a provision, stating that the donee of the funds released the Government from any further claim for any reward or compensation offered in this case, would be sufficient, pointing out that the sample receipt approved by the Department in the Dillinger case was in virtually this same form. The letter was returned to your office for signature on that date.

Reference is respectfully made to the memorandum addressed to Mr. Tolson and myself today, concerning the contacts of Special Agent Louis Loeb with Mr. Dickerson N. Hoover of the Steamboat Inspection Service during a recent investigation into alleged irregularities on the part of Steamboat Inspectors. The initial investigation requested in this case over the signature of the Secretary of Commerce, in a letter dated November 6, 1934, after referring to the testimony given in a recent Post Office Department hearing, states: "The Director of the Bureau of Navigation and Steamboat Inspection has a copy of the record in question, and if you can comply with the above request and will instruct your Agent to contact the Director of the Bureau of Navigation and Steamboat Inspection, a copy of the record will be furnished to your representative and an opportunity may also be afforded to discuss the case in question."

When this case was assigned to Mr. Loeb, he proceeded to the office of the Director of the Bureau of Navigation and Steamboat Inspection Service, and upon making known his identity there, was informed that the gentleman he should consult was Mr. Dickerson N. Hoover, who was fully familiar with all of the facts in this case. Mr. Loeb accordingly contacted Mr. Hoover, who asked him what assistance could be rendered Mr. Loeb in conducting this investigation, and what records would be necessary or desirable. Mr. Loeb advised Mr. Dickerson Hoover that he would of course desire to contact the Personnel Officer and obtain certain personnel files. Mr. Hoover stated that it would expedite matters if he obtained these files for Mr. Loeb and accordingly, about 25 personnel files were obtained and made available for Mr. Loeb's examination. Mr. Hoover furnished additional data concerning the identity of ships operated by the Lykes Brothers Steamship Company, the names, dates and places of annual steamboat inspection made of the ships of the Lykes Company, and other data and information. Mr. Hoover advised Mr. Loeb that if any difficulty was encountered in obtaining the records of the Lykes Brothers Steamship Company, he would, upon being so advised, take appropriate steps to have the records made available.

After Mr. Loeb had conducted investigation in Galveston, Houston and New Orleans, and had returned to Washington, D.C., it was deemed advisable to ascertain whether investigation was desired in San Juan, Puerto Rico, in which city many of the Lykes Brothers Steamships had undergone their annual inspection. Mr. Loeb consulted Mr. Hoover, concerning this matter, and at that time furnished

him general information concerning the progress of the investigation up to that point. Subsequently, Mr. Dickerson Hoover indicated that the Department of Commerce felt investigation in Puerto Rico necessary, and desirable, and accordingly, Agent Loeb1 proceeded to San Juan and conducted inquiry there. When he returned to the United States, he again contacted Mr. Dickerson Hoover, who at that time had in his possession copies of the four investigative reports which had been submitted in this case, prior to the investigation conducted in Puerto Rico. At this time, Mr. Loeb1 advised Mr. Dickerson Hoover of additional developments in the investigation in Puerto Rico.

On at least one occasion, Mr. Dickerson Hoover stated to Mr. Loeb1 that he would transmit a letter to the Department concerning the case and the letter was subsequently received, bearing the signature of the Acting Secretary of Commerce.

From the attitude displayed by the Bureau of Navigation and steamboat Inspection Service of the Department of Commerce, it was felt that this investigation was being conducted at their specific request and for their information.

Respectfully,

E. A. Tamm

That is true but there is no justification for our agents making verbal reports. They should always be in writing & transmitted thru regular channels.

MEMORANDUM FOR MR. TOLSON
MR. TAMM

I am particularly disturbed over the supervision and handling of the investigative work of this Bureau at Washington headquarters. This morning there came to my desk for approval a letter drafted for the Attorney General's signature, addressed to the Secretary of Commerce, transmitting copies of Special Agent Loeb's reports on irregularities in the Steamboat Inspection Service of the Department of Commerce. My attention was called to the fact that in these reports there appears a statement that Mr. Loeb has been verbally reporting the developments in this matter to the Assistant Director of the Steamboat Inspection Service, Mr. D. N. Hoover. When this investigation was ordered, I specifically directed that very great care and attention be given to it because of the fact that Mr. D. N. Hoover is my brother, and I did not want any action taken by this Bureau during the course of the investigation which could be in any way construed by persons so inclined to criticize me for the manner in which the investigation would be handled so far as fairness and thoroughness were concerned. I did not have the time to personally supervise this investigation, and I did not know of the developments in the case or what action had been taken until the papers came to me this morning. I was shocked to learn that Special Agent Loeb has been reporting verbally all developments in this matter to my brother, the Assistant Director of the Steamboat Inspection Service. Charges have been made, as I understand it, indicating extreme irregularities upon the part of employees of the Steamboat Inspection Service, and we should have proceeded with the investigation thoroughly and vigorously and submitted our reports direct to the Secretary of Commerce, who had requested the investigation to be made. Under no circumstances should any verbal reports have been made to any official of the Steamboat Inspection Service, and more particularly in this matter certainly no reports should have been made in this case in view of the relationship existing.

In no case do I believe that any Agent of this Bureau should verbally report to an official of some other Government Department or agency the developments of an investigation when we are requested to make an investigation, we should proceed with it and submit written reports upon the same, transmitting them in the proper manner to that Department or agency. It is a new procedure and policy, to my knowledge, for Agents of this Bureau to report verbally their progress in investigations to other Governmental agencies interested, and I have never approved of the same, and I want this policy to be immediately terminated.

MAY 15 1986

67-9524-184

In the beginning of my memorandum, I stated that I was somewhat concerned over the supervision of investigative work at the Washington headquarters of the Bureau, because just yesterday in the memorandum which I addressed to you, I called attention to the fact that Special Agent Lechl of the Washington Field Office had contacted the Department relative to the investigation of Charles Harris, the man under death sentence in the District of Columbia. Obviously, very little supervision or instruction is being given to these important cases, and I personally have not the time to supervise each important special investigation; yet, in these two cases, which involve so much and in which a false step by this Bureau may result in public criticism and condemnation of the Bureau, actions have been taken without any attention being given to them by the supervising officials at the Washington headquarters. If we need more supervisors, please let me know, but my personal opinion is that it is not the number of supervisors which we need - it is the quality and the proper direction of the same.

Two other instances within very recent weeks have given me great concern. One is the approval by Washington headquarters of the transmission of the money and jewels in the Barker case from Jacksonville, Florida to St. Paul, Minnesota, and the other is the handling of the transportation of Volney Davis from Kansas City to Chicago. The latter resulted in very strong public condemnation in editorials and articles, of this Bureau, and in both of these instances very bad judgment was exercised, not only in the field, but at Washington headquarters, and the same bad judgment has been exercised in connection with the Harris case and with the Steamboat Inspection case.

We must give very careful consideration to these matters and endeavor to exercise proper judgment so that actions taken will not be the basis upon which critics of the Bureau can report to for harmful criticism of our work and procedure.

Very truly yours,

John Edgar Hoover,
Director.

Dear Sir:

I am in favor of the adoption of the plan suggested by you for the establishment of a fund to be paid to the widow or designated beneficiary of any Special Agent of the Division of Investigation, United States Department of Justice, who may lose his life by violence in line of official duty, and am forwarding herewith (CHECK - MONEY ORDER - DRAFT) in the sum of ten dollars (\$10.00), made payable to the Chief Clerk of said Division, to be included in said fund. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund, which I understand is to be administered in the following manner:

The Director of the Division will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping, and expending of said fund, which committee will recommend appropriate action to the Director of the Division in pertinent matters. The Chief Clerk of said Division shall receive all contributions and account for same to the Director.

Upon the death of any Special Agent, the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. In the event of a finding that the death was due to violence in line of official duty, appropriate instructions will be issued to the Chief Clerk, directing him to pay to the designated beneficiary the full amount of said fund as of the date of death.

It is further understood that I will contribute the sum of ten dollars (\$10.00) from time to time, as the need for such a fund may arise.

MEMORANDUM FOR MR. TOLSON

I sometimes despair at the loose and slipshod manner in which supervision is exercised, not only over our field offices, but over individual Agents. We were recently requested by the Attorney General's office to conduct an investigation into certain aspects of the Charles Harris case, the man who is under sentence of death in the District of Columbia, and in whose behalf Mr. Nugent Dodds and Mr. Neil Burkinshaw have interested themselves. Mr. Carusi, of the Attorney General's office, has discussed this case with me several times, and recently forwarded to me papers pertaining to the same, with the request that an investigation be made of certain angles of this case. I referred this matter to Mr. Tamm, and instructed Mr. Tamm to direct the Washington Field Office to assist Agent Loebel especially to this matter.

XEROX

MAY 15 1986

This morning I learned that the Washington Field Office went directly to the Department and borrowed the files in this matter, and I assume that Mr. Loebel must have conferred with Mr. Carusi, because in some correspondence routed to this office this morning, there appears on the routing slip from the Attorney General's office the designation of "Hoover - Loebel." I do not know what right the Washington Field Office or any field office has to contact Department officials direct, nor do I know of what right individual Agents have to make such contact unless specifically directed to do so by Washington headquarters of this Bureau. It was my intention, in my instructions to Mr. Tamm, that Mr. Loebel would be on this case as a special assignment, and he would report directly to Mr. Tamm, and any information or Departmental contacts which he might need would be made by Mr. Tamm. However, Mr. Tamm informs me that he was totally ignorant of the fact that Mr. Loebel had contacted with the Department, and I assume that it is a common practice of the Washington Field Office and individual Agents attached there-
to to make such contacts without first communicating with Washington head-
quarters officials of the Bureau.

I wish that you would take this matter up at the Executives Conference, and also advise Agent in Charge Keith that the Washington Field Office has no more right to contact Department officials relative to matters upon which information is desired, any more than any other field office of the service, and that individual Agents attached thereto likewise have no right to make such contacts. This, of course, would not apply to instances where specific instructions are given to the Washington Field Office to interview persons in the Department, either in connection with applicant cases or in connection with certain investigative cases, but in this instance no instruction was issued to the Washington Field Office to interview any one in the Department relative to this case, but apparently, on its own initiative and responsibility, such contact was made.

Mr. Tolson

- 2 -

2-14-35

In this particular case, it is not my desire that Agent Loebl or any other investigator make direct contact with Mr. Dodds or Mr. Burkinshaw. Mr. Dodds and Mr. Burkinshaw were requested by Mr. Carusi to put into writing any information which they had concerning this case, and I would prefer to have such statements as they may make, in writing.

I want to have it very definitely impressed that this case is to be vigorously and expeditiously handled and to be thoroughly investigated. If Mr. Loebl is in need of any additional assistance, the same should be designated, but I want Mr. Loebl to work through Washington headquarters. As soon as Mr. Nathan returns to the city, I believe it might be well to assign this Harris case specifically to him to supervise. It, of course, is imperative that it be concluded as soon as possible, because Harris is under sentence of death, the execution to take place, I believe, some time next month.

Very truly yours,

John Edgar Hoover,
Director.

MEMORANDUM FOR THE DIRECTOR

In compliance with your memorandum dated February 14th, I have conferred with Mr. Keith and Mr. Tamm concerning the Charles Harris investigation.

I was advised that Special Agent Loebl went to the office of the Pardon Attorney, for the purpose of reviewing the files in order to secure additional information in connection with this investigation. Mr. Finch was very ill and Mr. Loebl was informed that Mr. Carusi was handling the pardon matters and had the Harris file on his desk. Accordingly, Mr. Loebl conferred with Mr. Carusi.

I instructed Mr. Keith and Mr. Tamm that agents of the local field office should not contact Departmental officials, and that the work of the Washington Field Office should be conducted similarly to the work of any other field office of the Bureau. We agreed that an exception should be made in Pardon Attorney cases, and that it would be proper for the agents to confer with the Pardon Attorney and review files, for the purpose of eliciting leads to be pursued in such investigations. However, it was understood that this would not apply to conferences with any officials in other branches of the Department concerning pardon cases.

The only other exception we think should be made is that accountants, who are working on the Cotton Linters cases, should be permitted to confer with attorneys handling such work in the Department.

I was informed by Mr. Tamm that Mr. Carusi has been contacted by memorandum for the purpose of securing further information in the Harris case in writing from Messrs. Dodds and Burkinshaw. It appears that Mr. Carusi told Agent Loebl to go to see these men concerning this case. This action, of course, should not have been taken and I believe Mr. Keith is

MEMORANDUM FOR MR. TAMM

I desire to express my extreme displeasure in connection with the submission to my office for signature of a letter to Colonel Schwarzkopf, wherein he is advised that Mrs. Rose Hinkley appeared at the Chicago Office of this Bureau recently, and advised that she had previously furnished complete information to representatives of that office concerning the identity of persons who kidnaped Charles A. Lindbergh, Jr. Colonel Schwarzkopf was advised that the files of this Bureau contained no previous reference to Mrs. Rose Hinkley.

According to the letter from the Chicago Office dated February 13, 1935, Mrs. Hinkley called at that office on that date. According to the files, the late Agent Baum submitted a report dated March 22, 1934, in which five pages pertained to the details of an interview with Mrs. Rose Hinkley. The files further contain a reference to Mrs. Hinkley in the form of a memorandum by Mr. Clegg to Mr. Nathan, dated December 28, 1934, advising that Mr. Boyd of the Attorney General's office inquired concerning a Mrs. Rose Hinkley, and Mr. Clegg, after communicating with you, informed Mr. Boyd that a Mrs. Rose Hinkley was interviewed on March 2, 1934.

Such an error as this is inexcusable. I do not have the time to check Bureau files in connection with correspondence emanating from the Bureau. I am becoming more and more disturbed over the supervision of the handling of the investigative work of this Bureau at Washington headquarters, and I want to have it very definitely impressed upon the supervisors under your direction that they must give more careful attention to the preparation of correspondence, as I do not intend to check files in this office.

MEMORANDUM FOR THE DIRECTOR

Re: Bremer case

I telephoned Mr. Coulter at the St. Paul Office in regard to the above matter, and inquired if he had received the \$14,000 and the diamonds from Mr. Alt at Jacksonville as yet. Mr. Coulter stated that they were received. I then asked if he had turned them over to the United States Attorney as yet. Mr. Coulter stated that he is somewhat skeptical in this matter, believing that the United States Attorney won't accept the money. He stated that this is not evidence; we have admitted that it is not evidence, and the United States Attorney was somewhat reluctant to issue a subpoena for the money and diamonds in the first place; that, however, he will do everything in his power the first thing Monday morning to get them to take it, and if they do take it, he will get a receipt therefor, and thus clear the Division of the responsibility of it; that, however, if they refuse to accept it, he will then contact me.

Time 9:35 PM

Re: Volney Davis.

Mr. Quinn telephoned Mr. Hoover at New York and advised him of the escape of Volney Davis from the custody of Agents Trainor and Stakem; that these two agents were occupied in bringing Davis into Chicago from Kansas City by plane; that the plane had been forced to make a landing about forty miles from Chicago near Yorkville, Illinois, and that Davis had escaped at this point. Mr. Quinn stated that the details are not very clear as yet but it appears that the Agents removed the leg irons and handcuffs from Davis in order that he would not be conspicuous and that he managed to escape in an automobile. Mr. Hoover stated that it was outrageous to let this man escape; that in the first place it was extremely unwise and inadvisable to only have two agents accompany a man of Davis' character and that, of course, the removing of the leg irons and handcuffs could not be excused. Mr. Hoover stated that Agents Trainor and Stakem should be ordered suspended without pay pending an investigation into the matter; that they should be ordered to return to Kansas City immediately and upon their arrival there they should submit a full and detailed explanation for their actions and a detailed report of the whole matter. Mr. Hoover further instructed Mr. Quinn to obtain all of the facts possible from Mr. Nathan at Kansas City concerning the orders he gave concerning the transportation of this man.

Mr. Quinn further advised Mr. Hoover that Mr. Connelley is on his way to the place where the escape took place and is taking with him a large squad of men in the hope of being able to round Davis up. Mr. Hoover stated that all men available should be furnished to Mr. Connelley if he needs them.

Mr. Hoover then talked to Mr. Tamm and instructed him also to see that Mr. Connelley was given sufficient men to take care of the situation; and not to contact the local officers. Mr. Tamm advised Mr. Hoover that Agent Trainor had already contacted the Sheriff and advised him that a dangerous criminal had escaped and the information was subsequently broadcasted to nearby officers. Mr. Hoover instructed Mr. Tamm to have Mr. Connelley, when the latter contacts the Division, secure a full statement from Agents Trainor and Stakem before they return to Kansas City and transmit it along with other facts concerning the break to the Division by telephone; that definite orders should be issued to Agents Trainor and Stakem to return to Kansas City after this statement is secured. Mr. Tamm stated that the plane secured was the only one available. Mr. Hoover stated that this was no excuse; that there were no orders issued to go by plane; that in his opinion, two men were insufficient to serve as a guard for such a dangerous criminal as in all other instances

MAY 15 1936

67-7985-160

Telephone call from Mr. Quinn to
Mr. Hoover, 2/6/35 -2-

when such dangerous men as Barker, Chase, Alcorn and others were transferred to other points a guard of at least four or five agents went along. Mr. Tamm stated that he had communicated with Mr. Nathan at Kansas City regarding the transportation of Davis and had approved the use of the plane and two agents as guards, as, in Mr. Tamm's opinion, two men would be sufficient guards if the prisoner were shackled with leg irons and handcuffed securely, as the weather was reported clear and it was only about three hours flying time. Mr. Hoover stated that regardless, this was, in his opinion, an error in judgment and could not be excused. Mr. Tamm advised Mr. Hoover of the few further details in regard to the escape, stating that when the plane was forced down it landed in a corn field near a small town in Illinois; that the Agents took off the leg irons and handcuffs from Davis in order that he would not be conspicuous; that they then proceeded to a small restaurant or hotel where Agent Trainor went into a telephone booth, leaving Davis with Agent Stakem and hearing a scuffle, looked around in time to see Davis hit Stakem and dive through a window, where he took an automobile and escaped. Mr. Tamm stated that they should, of course, handcuff Davis to themselves as handcuffs are not conspicuous.

Mr. Hoover stated that Mr. Tamm should advise Mr. Connelley as soon as the latter calls in that Mr. Connelley should advise Agents Trainor and Stakem that they are suspended without pay and to obtain a full and detailed from them as to what happened and then these two agents are to return to Headquarters. Mr. Hoover stated that he would get in touch with Mr. Nathan and express to him also his displeasure at the manner in which the matter was handled. Mr. Hoover stated that he desired to be informed if any thing turned upon the case; that if the press makes any inquiries about the matter, and they probably will learn of it because of the fact that it has been broadcast, they should be informed that he, Mr. Hoover, was handling the matter, and he was in New York.

Time 10:00 PM

Mr. Quinn telephoned Mr. Ladd at Chicago and instructed him to advise Mr. Connelley as soon as possible to have Agents Trainor and Stakem submit to him a verbal statement regarding the escape of Davis and that these two agents should ~~then be~~ instructed to return to Kansas City immediately; that he, Mr. Ladd, should provide sufficient agents for Mr. Connelley to conduct an intensive investigation to try to apprehend Davis. Mr. Ladd stated that he is calling men in and organizing them for this purpose.

Time 10:15 PM

Mr. Quinn telephoned Mr. Nathan at Kansas City and advised him that Agents Trainor and Stakem are being instructed to return to Kansas City and are being suspended without pay; that he should secure their property.

Mr. Nathan advised that Mr. Hoover had already telephoned him from New York and advised him of this. Mr. Quinn instructed Mr. Nathan to secure a full and detailed statement from each of these two agents and forward it to the Division; that he, Mr. Nathan, should prepare a night letter tonight and forward it to the Division giving in detail the instructions issued to these two agents in regard to guarding David.

MEMORANDUM FOR MR. TOLSON
RE: "TAMM"

I desire that immediate steps be taken to improve the supervision of correspondence and memoranda submitted to my office for approval or signature.

The attached cover memorandum, dated January 11, 1935, transmits a memorandum dated February 11, 1935, relative to suggested changes in the Supervisors Manual. A copy of this Manual is attached. However, it is not properly marked to show where changes are to be made, and according to the contents of the memorandum referred to, it would be necessary for me to count lines on the various pages of the Manual in order to ascertain just where the proposed additions and changes are to be placed. I am also unable to find any initials on the file yellow approving the memorandum, although it appears from a routing slip that several members of the Executive Conference - although not all - have reviewed it.

The memorandum further states that a copy of the organization chart is attached. However, I failed to find the same.

It is not a function of my office to prepare or assemble memoranda or correspondence submitted by the administrative or investigative units. Material such as the attached is but further evidence of the gross carelessness and slipshod manner of handling matters at the Seat of Government.

John Edgar Hoover,
Director.

Re: Bremer case

Relative to your inquiry as to why the \$14,000 and diamonds recovered from Kate and Fred Barker at Ocala, Florida were transmitted to the St. Paul Division Office, I have talked to Mr. Nathan and to Mr. Connelley about the origin of this idea. Mr. Nathan states that he was in St. Paul and that he does not recall the source of the idea but that he approved it subject to a Division approval. Mr. Connelley states that he does not know the origin of the idea. In view of the fact that I was notified by Mr. Alt that he had discussed the situation with Mr. Nathan in St. Paul and that a subpoena duces tecum was being issued for the money and diamonds, prior to the time that they were actually transported to St. Paul, and I failed to issue any instructions cancelling the arrangements theretofore made, I feel that the fault in this matter is mine.

MEMORANDUM FOR MR. TOLSON
CHIEF, TAMM

With reference to our discussion yesterday in which I directed you to ascertain exactly what information was furnished by the Bureau of Investigation to the Jacksonville Police Department for the broadcast concerning the stolen automobile which later was found to be in the custody of Karpis and Campbell, I note from the attached memorandum that Mr. Tamm telephoned Mr. Kingman of the Jacksonville Office relative to this matter and Mr. Kingman was instructed to ascertain just exactly how much information was furnished to the Jacksonville Police.

I am at a loss to understand why this procedure should have been taken. Obviously, any information furnished to the Jacksonville Police must have been furnished by a representative of the Bureau of Investigation, and it seems to me to be a rather peculiar procedure to have to go to the recipient of the information to ascertain what he received rather than to the giver of the information. Certainly, we should know who in the Bureau contacted the Jacksonville Police Department, and there would be a record of exactly what information he gave to it to broadcast. If we have not this information, then there has been a great laxity in the supervision of this case and in procuring the details concerning the same. It seems to me to be most embarrassing to have to ask a Police Department what we told it, and that is exactly what is being done in this instance.

Very truly yours,

MEMORANDUM FOR MR. TOLSON
MR. TALLM

I am attaching hereto a telegram addressed to me by Mr. Carl Byoir, of 10 East 40th Street, New York City. Mr. Byoir is the public relations representative of Mr. Henry L. Doherty, owner of a chain of hotels in Florida, of which the Miami Biltmore is one. Some weeks ago he called the Bureau relative to the robbery of a Mrs. Bell in the Miami Biltmore, and I believe we made some preliminary investigation of this matter. From his telegram, it would clearly appear that the case is one involving a violation of a Federal Statute in that the property stolen was in excess of \$5,000 value and was taken across the State lines. It is just such cases in which I desire this Bureau to take active and vigorous investigative steps. Apparently this has not been done in this matter and I would like to know why.

Furthermore, in this particular case a man by the name of Charles Scaffa is mentioned as having acted as an intermediary for the return of this property. This man Scaffa is a private detective agent in New York City, and I believe we already have something in our files concerning him, because Mr. Fay spoke to me about him on last Saturday. Scaffa has served in similar capacities in a number of large jewelry robberies, generally appearing at the end and acting as an intermediary for the return of the jewelry, it being generally assumed that the party from whom the jewelry was stolen would pay a substantial sum of money and would therefore ask no consideration. This certainly would make him a party to a conspiracy. I think it would be well in this particular case to select two particularly good criminal investigators of this Bureau and assign them to this case exclusively, and have them take vigorous steps for prosecution of all parties to this crime. Please give this immediate attention.

Very truly yours,

John Edgar Hoover,
Director.

MEMORANDUM FOR THE DIRECTOR

Re: Bremer Case

I have talked with Mr. Egan concerning the telegram which Superintendent Carroll of the Grand Rapids, Michigan Police Department stated was addressed to Mr. Egan, requesting information concerning the charges preferred against Cassius M. McDonald. Mr. Egan recalls receiving such a telegram as he was leaving his office on an undetermined date, and turning it over to Mr. Pennington for transmittal to me. Mr. Pennington states that he personally brought this telegram to my office. I have no present recollection of having received this telegram, although I do remember an inquiry from some source concerning the charges upon which McDonald was being held, which rather surprised me at the time and conveyed the impression to me that McDonald was evidently endeavoring to bring some pressure to bear upon the Bureau. I cannot recall whether this was the telegram in question, but in ordinary procedure, I would refer such an inquiry to Mr. Nease with a "See me" or other notation, indicating the manner in which I desired the inquiry handled. Mr. Nease advises me that he never received such a telegram but does recall a letter or inquiry concerning the charges upon which McDonald was being held. This letter was from Chief of Detectives Frahm of Detroit, Michigan.

I will make further efforts through the File Room to locate the telegram which Superintendent Carroll forwarded to Mr. Egan.

Respectfully,

MEMORANDUM FOR MR. TOLSON

I wish that you would take up the following matter at the Executives Conference: On Saturday night many inquiries were made of the Bureau concerning a statement alleged to have been made by Jess Doyle at St. Paul, in which he admitted participation in a number of bank robberies, and in his statement was supposed to have cleared a man now serving time in the Stillwater, Minnesota Penitentiary for one of these robberies. I communicated with Mr. Tamm, and was informed by him that there was no foundation to the story; that Doyle had not talked; and that as a matter of fact, we had a rather weak case against him. I again reaffirmed this statement with Mr. Tamm this morning following an inquiry made of me by Colonel Gates, and upon Mr. Tamm's assurance that there was nothing to the story I informed Colonel Gates that he might advise the press that I stated the story was a total fabrication. Some time later Mr. Tamm called me and informed me that it was a fact that Jess Doyle had made a statement in Kansas City some time ago when we arrested him, and at that time admitted the participation in several bank robberies. I informed Mr. Tamm that I could not understand why I had not been given this information on Saturday night, and that I was placed in a particularly embarrassing position in having given to the press this morning a story branding the Doyle statement as a pure fabrication. I inquired of Mr. Tamm as to who is handling this case in his Division, and he informed me it is Mr. Newby. I inquired as to whether he had made inquiry of Mr. Newby Saturday night about this matter, and he told me he had not. Obviously, had he made inquiry of Mr. Newby, he would have obtained the information which he obtained this morning, and I would not have been placed in the embarrassing position in which I now find myself.

I wish that you would impress upon all of the Executives of the Bureau at the Executives Conference that when inquiries are made of them for information concerning the work under their jurisdiction, they should not presume to reach a conclusion and give to me a statement of facts without first consulting with and making inquiry of the supervisor charged with the specific responsibility of handling that particular class of work. It was Mr. Newby's responsibility, and I assume that he knew the facts in this matter and could have advised Mr. Tamm of them on Saturday evening, and had Mr. Tamm made that inquiry the embarrassing situation would not now be existing.

I want this to be impressed on all Executives very strongly so that there will not be a recurrence of this matter in the future.

Very truly yours,

John Edgar Hoover,
Director.

MEMORANDUM FOR THE DIRECTOR

Receipt is acknowledged of your memorandum of May 30, 1935, making inquiry relative to the sending of a telegram to the Washington Field Office, and the method of sending the same message to the New York, Chicago and St. Paul Offices.

The persons responsible for the inexcusable carelessness in this matter are myself, Mr. Tamm and Mr. Foxworth, the telegram having been prepared by Mr. Foxworth, sent to Mr. Tamm and then to me. I am informed that the non-teletyping of the message to New York, Chicago and St. Paul was the subject of discussion, and it was decided to send it by telegraph to these three places because it was considered that secrecy could best be maintained by sending it in code that way. I am not in accord with this viewpoint. Code messages can be sent over the teletype as well as by telegram.

CONFIDENTIAL

MEMORANDUM FOR MR. TOLSON

This morning, Special Agent William Friar of the Washington Field Office called. He stated that he had something on his mind and felt that he would be relieved if he could discuss the matter with me and I agreed to hear him. He stated that recently the Washington Field Office had been instructed to place Mr. Hickey in charge of the Washington Field Office during Mr. Keith's absence to replace Mr. Friar; that he had searched diligently to ascertain some cause for his removal and had been unable to find but one possible incident that would occasion the action taken.

He stated that during the SAC Conference, an extortion letter was received by an individual at Baltimore. In order to establish the plant, Mr. Keith, then in Washington, laid full details for the establishment of the plant and placed Mr. Oliver in charge thereof. He stated that no results were obtained and subsequently, while Mr. Keith was on the desk, a second letter was received and the same plant that was initially adopted was reestablished. There were no results. Quite recently, a third letter was received and Mr. Keith had suggested that the same plant be adopted and Mr. Oliver was placed in charge of it with a group of men. He claimed that as a result of this plant which was continued while Mr. Friar was on the desk, without any modification from the original plan of Mr. Keith for the plant, a truck driver came up to the front of the house and was proceeding toward the rear of the house where the package was placed when he was apparently disturbed by a noise in an adjoining house where there were some sick people. This frightened the truck driver who returned to his truck. He was called upon to stop, but failed to do so. Several shots were fired at the tires of his car, and he apparently never reported this fact to the police, indicating the possibility that the truck driver was the writer of the extortion notes. Mr. Friar stated that it was about five hours later that Agent Oliver telephoned him concerning the situation, and he immediately tried to communicate with Mr. Tamm who was in church; that he was able to get Mr. Tamm at the office at about one o'clock. He stated that he started explaining the matter to Mr. Tamm; that Mr. Tamm interrupted in a very abrupt fashion, and Friar thought that it would be tactless to continue offering explanations and, therefore, he did not get in a detailed explanation of the situation. He felt that

67-20228-56

3/18/35

Mr. Tamm's abruptness was of a very arbitrary character that precluded Friar's making the full explanation; that probably Mr. Tamm had reported the matter to the Director, and this was responsible for Friar's removal from the position of Acting Special Agent in Charge.

Mr. Friar stated that he was not at all downhearted; that he had learned a valuable lesson, namely, that when he was Acting Special Agent in Charge, the full responsibility rested with him, although at the time, since Mr. Keith had established the details of the plant and had even gone so far as to suggest that this plant be continued according to the pre-arranged plan, he felt that that was the only thing for him to do under the circumstances, but that in the event a subsequent opportunity were afforded, he would assume full command in the event he were made Acting Special Agent in Charge. This he considers to be a very valuable lesson. He stated that he had failed to observe any criticism coming from the Bureau concerning his work as Acting Special Agent in Charge, and when Mr. Keith informed him that Mr. Hickey was supplanting him, Mr. Keith had added that he believed Friar had done a job on the desk that was entirely satisfactory, and that Mr. Keith had no criticism to make; that Mr. Keith had stated that he did not know why Friar was removed unless it was because of the failure of this extortion plant.

He stated that he felt that there were two mistakes on his, Friar's, part, and one was that he had mentioned the fact that Mr. Keith had made the plan; that he felt that this was improper as it appeared that he was trying to pass the buck when the responsibility should have been and was his own; that he had not intended to convey the impression that he was trying to pass the buck to Mr. Keith, but had merely explained that the details had been initially set up by Mr. Keith who suggested that the plan be continued subsequently. His second error, he believes to be his failure to recognize it as his personal responsibility after Mr. Keith had left the city, and he had improperly relied upon the details already made by his Agent in Charge.

Mr. Friar stated that his purpose in coming to me was because of the fact that I had instructed him while in training school to get any matter he had on his mind that was worrying him off his chest and not to become morose and sullen about it; that he was adopting this procedure, and after having explained the details to me he felt better and would forget the incident except the lesson he had learned. He stated he felt that he was entitled to make this explanation as he had been unable heretofore to make such a detailed explanation of the circumstances surrounding this case.

Mr. Friar's attitude appeared to be O.K. It would be my personal

Mr. Tolson

- 3 -

3/18/35

opinion that he, because of his youthfulness, is considerably hurt as to what he interprets a demotion. I explained to him that I knew nothing of the circumstances; that I had not heard of the case until he told me about it; but that, of course, it is the Bureau's desire to give training to as many Agents as possible in the administration of Field Offices, and it might be that this was merely a routine administrative change since Friar was to attend a training school beginning on March 25.

Respectfully,

H. H. Clegg.

MEMORANDUM FOR THE DIRECTOR

Reference is made to the memorandum addressed to Mr. Tolson under date of March 18, 1935, by Mr. Clegg, concerning his interview with Agent William Friar of the Washington Field Office, concerning a complaint that I had been "abrupt" in my comments upon Mr. Friar's reporting the mishandling of a plant arranged in connection with an extortion case being handled by the Washington Field Office of the Bureau.

When Mr. Friar reported the facts to me in connection with the unsuccessful effort to maintain a plant in connection with the case entitled Unknown Subjects; Albert D. Hutzler, Dr. Palmer F. C. Williams, Victims; Extortion, near Baltisore, Maryland, I listened to his detailed account of how the suspected subject had approached the ransom package, had become startled, fled from the scene of the plant, entered a truck and made his get-away, despite the fact that the Agents had on two prior occasions set up a plant in this locality. Mr. Friar explained the circumstances in detail, answered inquiries as to why the Agents had not pursued the subject as he departed in his truck and furnished other details, complete information concerning which are set out in a memorandum previously prepared upon this matter. When Mr. Friar had completed his recital, I told him that in short the situation boiled down to a condition where the Agents had "muffed" another case and that the Bureau was becoming disgusted with the unsuccessful efforts being made to maintain plants, search apartments occupied by known criminals and other indications of inefficiency and improper planning. I pointed out to Mr. Friar that a situation of this kind could only result from improper planning and otherwise indicated to him my belief that this case had been improperly handled. I was particularly concerned at this time with such occurrences since this matter followed closely upon several other miscarriages in various parts of the country.

I was probably abrupt in my statements to Mr. Friar. I was however, I am certain, not personal, profane or rude in any comment which I made.

Respectfully,

11 "

MEMORANDUM FOR THE DIRECTOR

With reference to your inquiry as to why photographic copies of the first ransom note in the Weyerhaeuser Case were not upon your desk at 9:00 A.M. on June 3, 1935, you are advised that the photographic copies of the note had been placed in my office on Saturday afternoon, June 1, 1935, in order to be readily available when you desired them. At five minutes to nine on the morning of June 3, you instructed me to submit immediately a memorandum of the disposition of the charges preferred against all persons indicted in the Bremer Kidnaping Case at St. Paul. Since Mr. Newby, assigned to the supervision of the Bremer Case, had not yet arrived at the office, I personally undertook the preparation of this memorandum, and a few minutes after nine, Mr. Tracy of your office called, requesting that photographic copies of the ransom note be sent into your office. This was the first request received for photographic copies of this note, the previous instructions being to have the photographic copies ready and available. I informed Mr. Tracy that I was preparing a memorandum for you at your instructions, and that as soon as I completed the preparation of this memorandum, which would take a few minutes, I would send the photographic copies of the ransom note to your office. In the meanwhile, the photographic copies of the ransom note were being assembled with a photographic copy of the envelope attached to each photographic copy of the ransom note. This procedure took from five to eight minutes, and the photographic copies of the note were sent to your office not later than 9:15 A.M.

Respectfully,

E. A. Tamm

MEMORANDUM FOR MR. TAMM

I am attaching hereto a carbon copy of a memorandum which came from your Division, giving a summary of the Motor Vehicle Theft case involving the Dentons. You will note that it is practically impossible to read the memorandum because of its illegibility. I wish you would see that appropriate instructions are issued to your supervisors and stenographers that they must make it a point to have carbon copies clear and legible.

Dear Mr. Tamm:

I want to take this occasion to express to you and through you to all the Supervisors who performed work in connection with the preparation of the ransom list published in the Meyerhaeuser kidnaping case my commendation and appreciation.

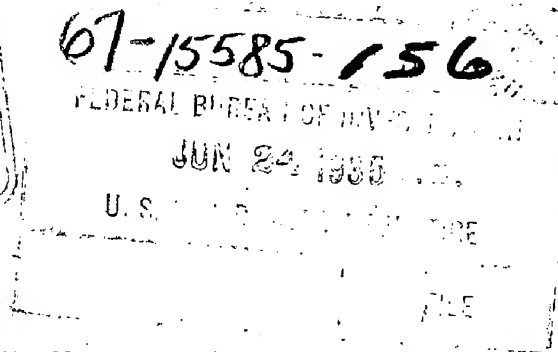

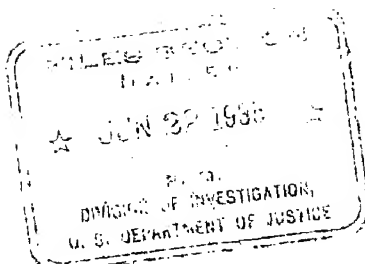

I realize that this emergency matter necessitated considerable overtime service and want the persons who rendered this service to know that I not only officially but personally appreciate the assistance and help they rendered in this regard.

It is a source of great pleasure and gratification to me to know that the employees have the interest of the Bureau so much at heart that they willingly make personal sacrifices in order that important work may be promptly dispatched.

MEMORANDUM FOR THE DIRECTOR

Reference is made to the letter addressed to Major Youell of the State Penitentiary at Richmond, Virginia, on June 20, 1935, which is in response to Major Youell's communication of May 25, 1935. The letter from Major Youell was received in Division 1 on June 3, 1935, and was returned on three occasions for corrections in the letter. The return of the letter for correction does not of course justify the unusual delay in answering this letter, and I am unable to offer any explanation therefor. I have again impressed upon the Supervisors the necessity for promptly answering all incoming communications.

In connection with the attached letter addressed to Master Art Chricks, of Helena, Montana, I note that we did not retain a copy of the photograph which he sent us. I thought the instructions were specific to the effect that any documents or papers returned to a correspondent should be photostated and photostatic copies kept in our files. Obviously, this was not done in connection with this correspondence.

Please make arrangements to see that this rule is followed in the future.

MAY 15 1935
 I am very much concerned over the report made to me by Mr. Tolson concerning certain discussion occurring in the last meeting of the Executives' Conference. As I understand it, these discussions arose out of some information prepared in the Identification and Crime Laboratory Division concerning the development of latent fingerprints. It is my understanding that this material was forwarded to the Director's office initialled and approved by the proper officials of the Identification and Crime Laboratory Division, and with this initialling I made certain of this material available to the Associated Press. I now learn that the officials of the Identification and Crime Laboratory Division were very much opposed to the releasing of any of this information for publication, but there was no indication upon the memorandum transmitted to the Director's office of any such objections.

I am further informed that as a result of this discussion certain officials of the Bureau have indicated that they have likewise been opposed to certain policies, actions and procedure of the Bureau, but they have not formally or even informally indicated their objection.

I consider this attitude to be entirely unwarranted, and to be indicative of a general lack of either interest or industry upon the part of such officials. The Executives of this Bureau have been selected for the purpose, not of acting as rubber stamps, but for the purpose of contributing ideas, suggestions and criticisms to the efficient and successful operation of the Bureau. I do not believe a single Executive of this Bureau can point to an instance where I have ever objected because of opposing views, or where I have at any time, in any way, endeavored to force an Executive to change his opinions or views concerning policies in the operation of this Bureau; yet, I now learn that at least some of the Executives of the Bureau do not consider it to be their responsibility or duty to express any views on policy unless specifically asked for the same. When I request memorandums to be prepared or send memorandums to be checked, these are not to be checked or prepared solely for typographical errors, or for form, but the matter of policy is to be considered also. Obviously,

67-9524-195

7-5-35

if it was merely for the checking as to form and typographical errors, that could be done by a fourteen hundred-dollar clerk and we would not need five-thousand-dollar-and-over Executives to do that kind of work.

I have previously indicated my annoyance at this somewhat lackadaisical and indifferent attitude upon the part of our Executive staff, and I want to now, for the last time, make it distinctly clear and understandable to all members of the Executives' Conference that the principal function of an Executive in this Bureau is to express himself upon the policies, activities and operations of the Bureau, in addition to the handling of the detailed work incidental to his particular office. The mere fact that the Director's office asks for something to be prepared does not mean that it should be prepared by an automaton, without any expression of views as to policy or wisdom or manner of use of the material. It exasperates me considerably to have Executives manifest this kind of an attitude when I have done everything in my power to try to get them to participate actively in the operations and direction of this Bureau. As I have said, the only explanation that I can reach concerning this matter is either laziness or indifference.

In order, therefore, that there can be no misunderstanding now concerning this matter, I desire that each of the persons to whom this memorandum is being directed, submit to me immediately a memorandum setting forth any policies, procedure, activities or other forms of operation of the Bureau with which they disagree, and the reasons for their disagreement. If they do not have any objection to the various policies, et cetera, of the Bureau, then I would like to have a memorandum in writing making that statement. It seems rather silly to have to specifically request this kind of a statement from a presumably intelligent executive force, but obviously from the discussion which occurred in the last meeting of the Executives' Conference, there is a great deal of "buck-passing" being indulged in, or, as I have said, indifference and laziness being manifested, and I want, and intend to have a termination to these practices.

Henceforth, each of the members of the Executives' Conference will please express himself upon all phases of a matter and not merely consider it to be his function to do the clerical work incident to the same.

Very truly yours,

John Edgar Hoover,
Director.

MEMORANDUM FOR THE DIRECTOR

Reference is made to your memorandum of July 5, 1935, addressed to various members of the Executive Conference, concerning a discussion held in the Conference on the night of July 3, 1935, concerning the discontinuance of dissemination of certain types of information to the public through press releases and through exhibits maintained in the Bureau and available to the public through the tours conducted, which are open to the public. I cannot speak for the other members of the Executive Conference as to what they had in mind in approving various recommendations as were made as to discontinuation of certain types of publicity. I endeavored to point out, particularly to the Chairman, and to the other members of the Executive Conference that my attitude was not one of criticism for what has been done in the past, but rather a feeling that as a matter of policy a change in our program might be desirable, in view of the wide dissemination which is being given through the press to all matters relating to the Bureau's activities. I endeavored to point out, and stated specifically, that the Director should be informed that we were recommending a change in policy and not criticizing any action in past matters. I feel that I have not at any time been hesitant to express my views on all matters relating to the Bureau and its operation, and have never hesitated to oppose any suggested program which I conscientiously thought would not operate to the best interest of the Bureau, until the time when the suggestion was adopted as a matter of Bureau policy, after which I have without reservation supported all adopted policies.

My attitude towards the suggested changes in policy advanced on the night of July 3 was that in the light of previous experience, a change in policy upon the subjects under discussion would be advisable, and accordingly, I desired to go on record as favoring those changes. I do not have any objection to or mental reservation towards any policies of the Bureau.

It is noted in connection with the above call that the writer attempted to contact Mr. Tamm for the purpose of transferring the call to him and was advised Mr. Tamm was out to lunch. An attempt was then made to contact Mr. Foxworth who usually takes Mr. Tamm's desk in the latter's absence and it was found he was also out to lunch. Then an attempt was made to contact Mr. Newby who is in charge of kidnappings and it was found he was also out to lunch. It was therefore necessary to ask the party calling to call back for the information. It is suggested that it may be advisable to have a supervisor take over Mr. Tamm's desk when he is at lunch in order that calls may be conveniently handled in a more satisfactory manner than the writer was compelled to handle the above and also to provide for any emergency calls this office may wish to transfer to Mr. Tamm. cek

MEMORANDUM FOR THE DIRECTOR

Relative to the memorandum addressed to me under date of July 30th by Mr. Tolson, concerning his ability to reach anyone in my office at 1:15 P.M., you are advised that the luncheon schedule maintained in the divisions under my supervision is such that half of the Supervisors are on duty at all times and those men on duty so distributed that at least every other room in the investigative divisions is occupied. Supervisor Foxworth's luncheon period is from 12 noon to 12:45 P.M., and he occupies my office from 12:45 to 1:30 P.M., which is the period during which I ordinarily take my luncheon. On the day in question, Mr. Foxworth was appearing before the training school for the entire day, and I did not report to the office until approximately 12 noon, due to illness, and left the office at about 12:30 P.M. to make a visit to the doctor. Supervisor E. L. Richmond, who had occupied my office from approximately 9:00 A.M. until I reported for duty, had departed for luncheon at the time I left the office and there was not available at the time of my departure a Supervisor whom I cared to leave in my office.

It may be noted that I made rather a hasty departure due to my physical condition and did not delay any great time in endeavoring to find someone to occupy my office.

Respectfully,

E. A. Tamm

MEMORANDUM FOR THE DIRECTOR.

On Saturday, July 27, Agent in Charge Brantley, who is in Washington, advised me of the receipt of information from his office in Oklahoma City to the effect that Mr. Mark T. Little, a former Agent of the Bureau, is now Acting Agent in Charge of the office of the Division of Investigations, Interior Department, at Oklahoma City. Mr. Brantley had received word that Mr. Mark T. Little had circulated a story to the effect that the Director was going to resign and intended to establish an international detective agency. The report further indicated that Mr. Tamm was slated to become Director of the Bureau.

I telephoned Mr. John Little, Acting Agent in Charge of the Oklahoma City Office, and instructed him to communicate with Mr. Mark Little and to inform him that this is an absolute falsehood, that Mr. Hoover has no intention of resigning, and further if he did resign he certainly would not establish any international detective agency. Mr. John Little stated that he would communicate with Mr. Mark Little and that he would verify his conversation with Mr. Little in this matter by letter.

Respectfully,

Clyde Tolson.

Director,

DECLASSIFIED BY *SP-6 BJA/ML*

Dear Mr. Hoover:

In accordance with telephonic instructions from Mr. Tolson, Mr. Mark T. Little, formerly an Agent in the Bureau, called at the Oklahoma City office today, at my request, in connection with the statement or rumor reported to emanate from Mr. Little to the effect that you contemplate resigning as Director in order to establish an international detective bureau and would be succeeded by Mr. E. A. Tamm as Director.

Mr. Little stated that he first received this report in East Texas, the sources of which he declined to reveal, but stated that he received the same information from two independent sources, which sources considered the report to be well founded and "to be a matter of general knowledge in Washington". Mr. Little stated that the report, as he heard it, was to the effect that you were to be succeeded by Mr. Tamm or Mr. Tolson.

Mr. Little stated that he attached no credence whatever to the story, considering it merely idle gossip, and in the event he has unwittingly repeated this report, it was unintentional and he sincerely regrets that the source of such a report should be attributed to him. He was advised that the report is untrue and that there is no basis whatever for the circulation of a story of this character. Mr. Little stated that "his lips would be sealed" so far as any further repetition of this story is concerned. During the interview, Mr. Little spoke only in the highest terms of you, and it was noted that he referred to you frequently as "the boss" with apparently no premeditation.

Mr. Little is presently Acting Special Agent in Charge for the local office of the Division of Investigations of the Department of the Interior, and stated that he wished to dispel any ideas that the rumor referred to emanated in any manner as propaganda in connection with any antagonistic feelings formerly reported to exist between the

Bureau and the Division of Investigations of the Department of the Interior, as a result of alleged proselyting on the part of the Interior in employing Bureau trained Agents.

The information resulting in the interview with Mr. Little was occasioned by information furnished by me to Mr. Brantley. Although I knew from the first that any statement of this character would be false and without basis, I appreciate the fact that you desire to be advised thereof promptly. I shall be governed accordingly in the future and should any information of a like character be received by me, while acting in charge of a Bureau office, I shall see that the same is furnished you directly.

Director,
Federal Bureau of Investigation,
U. S. Department of Justice,
Washington, D. C.

Dear Sir:

For inclusion in the fund to be paid to the widow or designated beneficiary of any Special Agent of the Federal Bureau of Investigation, United States Department of Justice, who has contributed to this fund and who may lose his life by violence in line of official duty, I am forwarding herewith (CHECK - MONEY ORDER - CASH) in the sum of ten dollars (\$10.00), made payable to the Chief Clerk of said Bureau, to be included in said fund. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund, which I understand is to be administered in the following manner:

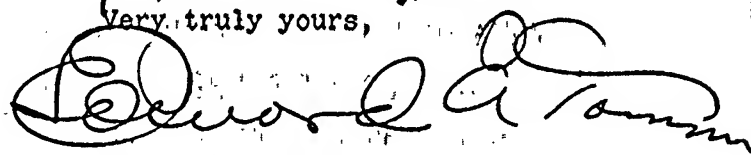

The Director of the Bureau will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping, and expending of said fund, which committee will recommend appropriate action to the Director of the Bureau in pertinent matters. The Chief Clerk of said Bureau shall receive all contributions and account for same to the Director.

Upon the death of any Special Agent, the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. In the event of a finding that the death was by violence in line of official duty, appropriate instructions will be issued to the Chief Clerk, directing him to pay to the designated beneficiary the full amount of said fund as of the date of death.

The following person is hereby designated as my beneficiary:

Name Mrs. E. A. Tamm Address 1650 Harvard Street, N.W., Apt. 406
Relationship wife

Very truly yours,

67-15585-166

Special Agent.

Dear Sir:

In connection with your interviews of Special Agent applicants, it is desired that hereafter each applicant be given the fictitious interview and dictation test, which was formerly afforded to applicants for the position of Special Agent. Each applicant should be advised, however, subsequent to the fictitious interview test that the person interviewed was in reality a Special Agent of the Federal Bureau of Investigation.

Please commence the use of the fictitious interview and dictation test at once.

MEMORANDUM FOR THE DIRECTOR

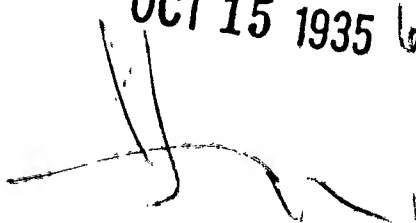

In our campaign to popularize the designation "F.B.I." I believe a valuable field would be to instill this designation into the minds of the police officers attending the Bureau police training school. It is accordingly suggested that in place of the present prepared stationery entitled "Police Training School", there be prepared stationery upon which the letters "F.B.I." would stand out followed by the designation "Police Training School". I believe since this training school is to be continued permanently, that it would be well to have a distinctive type of stationery prepared for use of all communications, bulletins, etc., which come to the attention of the officers upon which the designation "F.B.I." and the Director's name would appear.

Respectfully,

E. A. Tamm

MEMORANDUM FOR MR. TAMM

This morning when I requested you to send to me two or three of the most interesting and outstanding Motor Vehicle Theft cases in addition to the Greenblatt case, I expected, of course, to receive this material in such form that I could immediately transmit it to the Attorney General's office. Instead, when I returned from luncheon I found that you had sent me eight or nine mimeographed cases. I do not know whether it is appreciated, but it is physically impossible for me to read through such a large bulk of material and pick out the cases myself. I had left this to you to do. As it is, I am overwhelmed with the volume of work coming into my office, and it has been very difficult to impress upon the Assistants in the Bureau the fact that there are many functions which they can perform for me and not merely pass on to me the detailed work to be done.

This material was wanted quite promptly by the Attorney General's office for a story for today, but by reason of the fact that it has not been handled properly it is not very likely that I will be able to give it to the Attorney General's office before tomorrow. Hereafter, when requests are made by me for such material, will you please give it your personal attention or have whoever is designated by you in your division to personally look after it, and not merely pick up eight or nine mimeographed cases and transmit them to me by memorandum, because I haven't the time or the physical stamina to wrestle with such a volume of details.

Very truly yours,

John Edgar Hoover,

Please expedite the preparation of the memorandum upon this matter.

Dear Sir:

I am transmitting herewith photostatic copy of the Government's answer to the petition and the amended petition for a writ of habeas corpus filed by Mrs. Anna Sage.

In connection with this answer particular attention is directed to Exhibit 4, and particularly to the place marked therein concerning a telephone conversation had by Mr. Brown of the Department of Labor on September 21st, 1935, with Mr. E. A. Tamm of the Bureau. It is noted therein that Mr. Tamm informed Mr. Brown that explicit instructions were outstanding to all Field Offices of the Bureau of Investigation that they were, under no circumstances, to make any promise of immunity to any person as the promise would not be binding and of no effect.

At the time this answer was received by the writer from Mr. Austin Hall, Assistant United States Attorney, he stated that when this petition had been filed by the Government in Federal Court he had specifically pointed out that particular portion of the answer to the newspaper men.

During the discussion with Assistant United States Attorney Hall concerning this matter, he stated that it was his intention to avoid using Mr. Purvis as a witness in this hearing; that he does not desire to give Purvis any publicity and that he feels that Purvis' only interest in this matter is the publicity which he can gain therefrom. Mr. Hall further remarked that it was his opinion that Mr. Purvis was not friendly to the Bureau anyway.

In connection with the answer as filed I desire to call attention to the fact that same is filed by the Bureau of Immigration and Naturalization of the Department of Labor and not by the United States Attorney's office.

On Saturday afternoon, Mr. Vetterli of the St. Louis Office by telephone informed me that the United States Attorney had taken up with the Federal Judge in St. Louis the question of an appeal from the court's ruling in connection with L. B. Reed's writ of habeas corpus, and that the court had stated an appeal would be proper and would be allowed; that, consequently, the United States Attorney is perfecting the necessary steps for the appeal. Mr. Vetterli said that in view of this it would be unnecessary for Reed to be in St. Louis on Monday morning, but would have to report there some time in the near future in order to make a new bond, but that would not be necessary until the appeal had been perfected. I asked Mr. Reed whether the United States Attorney had taken this matter up with the County Prosecuting Attorney and he stated that the United States Attorney had not done so because the County Prosecuting Attorney and all of his assistants were out of the city, but that the United States Attorney was convinced from his conversation with the Federal Judge that his proceedings were entirely proper.

It appears that I informed Mr. Vetterli that I would contact the Omaha Office and tell Mr. Reed that it would be unnecessary for him to be in St. Louis on Monday morning. However, through an inexcusable error on my part, I was of the impression that Mr. Vetterli was going to notify the Omaha Office, and consequently I failed to notify Mr. Reed that he would not need to report at St. Louis today. I have no excuse or justification to offer for failing to notify the Omaha Office of this matter, but was engaged in handling a number of long distance telephone calls simultaneously on Saturday afternoon in connection with the reported escape of Basil Banghart, and consequently overlooked this detail of Mr. Vetterli's call.

MEMORANDUM FOR THE DIRECTOR

Relative to your memorandum of October 21, 1935 addressed to Mr. Tolson and read by Mr. Tolson before the Executive Conference, pertaining to the failure of a number of Bureau supervisors to attend the graduation exercises held for the Bureau's police training school, I desire to state that I was first notified that Bureau supervisors would be permitted to attend this closing session of the training school at approximately 9:30 A.M., at which time there were several hundred pieces of mail and correspondence on my desk, including the bulk of the mail prepared in the investigative units on Friday, October 18, for signature on Saturday morning, October 19. The work in my office had been in a delinquent status throughout the entire week but desiring to attend the graduation exercises I went to the training school at approximately 10 minutes to 10 and was informed that the exercises would consume at least 1½ hours. I did not believe that the best interests of the Bureau would be served by my being absent from my desk for such period of time, and accordingly I returned to my office.

Respectfully,

MEMORANDUM FOR MR. NATHAN
MR. TOLSON
MR. CLEGG
MR. EDWARDS
MR. Tamm

I am very much concerned over a general trend upon the part of the Assistant Directors to delegate many of the responsibilities to subordinates which they, themselves, should assume. It is my belief that each of the Assistant Directors should assume full responsibility for the handling of all work in his particular division, and this would include not only the proper supervision of the work, but the checking of the work and the planning for future developments. There have been many instances which have come to my attention within the last few months where an Assistant Director has not known exactly what is going on in his division, and has generally excused the same with the rather nonchalant gesture that such matters are being handled by some one else under his supervision. I do not intend to accept this kind of an excuse in the future. Any mistakes or any errors that are made will be charged directly to the Assistant Director in charge. I recognize that the Bureau has expanded greatly in its work and that each of the divisions has also expanded greatly in its respective functions, but the Assistant Director in charge of each division should assume the responsibility and not follow the all-too-frequent practice indulged in in the Bureau of "passing the buck" to some subordinate.

To take up the matters specifically, I believe that the Assistant Director in charge of investigations, which is Mr. Nathan, and in his absence, Mr. Tamm, should know exactly what is transpiring in the major cases and should be in frequent touch with the supervisors, and not merely refer matters to the supervisors leaving it to them to handle the details and considering that then the function of the Assistant Director, is performed.

The Assistant Director in charge of administrative matters and personnel, Mr. Tolson, should be thoroughly familiar with exactly what is taking place in the division under his direction. He should know what the Chief Clerk's Office is doing; what the personnel file room is doing; and other matters that come under his supervision. The frequency with which mistakes are being made in the Chief Clerk's office - which has now reached an astounding degree - and the amount surprising attitude of the supervisor in charge of the personnel file room, are matters of responsibility of the Assistant Director in charge of personnel and administration. It is his duty to correct these situations and to see that there will not be repetitions of the same.

The Assistant Director in charge of training should not only prepare the curriculum and arrange for the faculty of the training schools, but he should check and see that the individual lecturers perform their duties properly; he should make it his duty at various times to attend lectures; to attend the training in the Laboratory, in the Identification Division, in the gymnasium, and at Quantico to see that the officials of the Bureau are handling these matters as they should be handled. There has not been a proper handling of the matters at Quantico by the supervisor in charge and there has not been a proper handling of their training work in the gymnasium.

The Assistant Director in charge of the Identification Division and Crime Laboratory should not only generally direct the same, but he should be thoroughly familiar with exactly what is going on in the various branches of his division. I am not satisfied at all with the functioning of the Laboratory. There have been some very serious blunders or errors made in handwriting identification, and I think the conditions in the Crime Laboratory are far from being ideal. The same condition applies to other sections of the Identification Division. I recognize the magnitude of that division, but there are a number of supervisors assigned, and it is the duty of the Assistant Director in charge of that division to be thoroughly familiar with what is going on through the supervisors and take steps for corrective measures.

I am getting somewhat weary and annoyed at the somewhat indifferent and melanchant attitude taken by the Assistant Directors in handling their respective responsibilities. I am looking to a marked improvement in this condition.

Very truly yours,

John Edgar Hoover,
Director.

MEMORANDUM FOR MR. TOLSON

I wish that you would take up the contents of this memorandum with the Executives' Conference.

On last Saturday the Bureau's Police Training School was brought to a close, and I indicated to you that all officials and supervisors of the Bureau desirous of attending the same might do so. I did not issue this as an order concerning attendance because I assumed that all officials and supervisors of the Bureau were sufficiently interested in the project to attend. This was particularly true in view of the fact that the Attorney General was to deliver the principal address. In addition to the attendance of the Attorney General there were four of the leading Chiefs of Police of the country in attendance. I was very much surprised and disappointed to note that many of the officials and supervisors of the Bureau did not attend these ceremonies. I have been previously impressed with an apparent lack of interest in this project when it was initiated in July, and at which time but very few of the officials and supervisors of the Bureau were in attendance. It is possible that at that time it might have been assumed by the officials and supervisors that the opening ceremonies were not open to them, but I believe this assumption would be a little erroneous in view of the fact that it is a project in which the Bureau has been vitally interested, and certainly inquiry could have been made as to whether any one might attend who desired to do so. However, on the occasion of last Saturday I specifically indicated that those desirous of attending could do so, and I was very disappointed to note the fact that there were many who did not take advantage of this occasion. As I have indicated, this was particularly true in view of the attendance of the Attorney General.

Very truly yours,

John Edgar Hoover,
Director.

MEMORANDUM FOR THE DIRECTOR

I notice in the Respondent's Memorandum, filed in behalf of the Sheriff, in the habeas Corpus proceedings brought by Special Agent L. B. Reed, the counsel challenges Reed's authority to go to the house and attempt to apprehend the person residing there, under that section of his brief dealing with "Reed's duties". Counsel points out that Reed's duties as expressed by his commission, which was reported in evidence, recites that he was "charged with the duty of investigating violations of the laws of the United States and collecting evidence in cases in which the United States is or may be a party in interest." Counsel then states that according to Webster investigate means "to follow up by patient inquiry or observation" and thereafter points out that the duty of Reed was to follow up by patient inquiry of observation violations of the laws of the United States and to gather into one body or place, or assemble, evidence in cases in which the United States is or may be a party in interest.

In view of the authority of Bureau Agents to make arrests and of the fact that much of the Agent's time is spent in endeavoring to locate and apprehend fugitives, I believe it would be well to revise the wording of the commission card to include all of an Agent's duties in order that if a situation like this ever again arises, the Agent will have been acting within the scope of his duty, as outlined in his commission card. A tentative suggestion would be that the commission state that the holder is charged with the duty of investigating violations of the laws of the United States; of causing the location and apprehension of fugitives from justice, and persons violating or believed to have violated Federal Statutes and collecting evidence in cases in which the United States is or may be a party in interest.

MEMORANDUM FOR THE DIRECTOR

As a result of reviewing the comments made by the police officers who attended the police training school concerning their suggestions for changes in the school, I believe it would be well in future schools to so draw up the schedule as to avoid a concentration during the first week or ten days of the school upon matters relating to Federal procedure and criminal law in the Federal Courts. While I do not ~~purpose~~ in giving the police trainees a smaller quantity of such teaching, I believe it would be well to intersperse this subject with various other matters so that the policemen will not get the opinion during the first two weeks of the school that it is devoted entirely to Federal Procedure, since I believe this mental attitude formed during the first weeks of the school is often difficult to change. I observe also that comment is made about the long hours and the Sunday work, and believe it would be well to so draw up the future schools that no classes will be held on Sunday.

Reference is made to your inquiry as to the reason for delinquency in a letter addressed to Sheriff Stacy of Wynne, Arkansas, on November 26, 1935, thanking him for his cooperation with a Special Agent of the Bureau.

The letter to Sheriff Stacy is predicated upon a letter suggesting it from Special Agent in Charge Shivers of the Little Rock Office, dated November 15, 1935, which was received in the Bureau on November 18th and in Unit One at approximately six P.M., on the night of November 18th. This matter was routed to Supervisor Richmond on the fugitive desk as it pertains to a fugitive case. I have been utilizing the services of Mr. Richmond to assist me in my office several hours a day. I have, consequently, been deferring the handling by Mr. Richmond of matters in which time is of greater importance, and accordingly, the addressing of this letter to Sheriff Stacy was delayed several days.

Reference is made to the inquiry from your office as to the delinquency in a letter which I addressed to Agent in Charge Spears at the Portland Office on November 27, 1935.

My letter specifically refers to Mr. Spears' letter of November 16, 1935, which was received in the Bureau on November 18, 1935. After I reviewed this letter, I transmitted it to Mr. Foxworth, Supervisor in charge of the Weyerhaeuser Case, and instructed him to prepare a complete memorandum of the facts and circumstances forming the subject matter of Mr. Spears' letter. Mr. Foxworth prepared a memorandum dated November 23, 1935, which I reviewed on November 25, 1935, and, not being completely satisfied that the conduct of Agent in Charge Spears had been correct in this procedure, I then dictated the letter to Mr. Spears on November 26, 1935, the letter being transcribed on November 27, 1935.

I believe it might be well to establish in the Bureau an investigative research unit. I believe we could start off with one man and assign to him the various research projects which would undoubtedly accrue to the benefit of the Bureau. For example, we have closed hundreds and hundreds of extortion cases and undoubtedly there is buried in the Bureau files a great wealth of information concerning successful methods of placing and maintaining surveillance of a plant under various conditions and circumstances; information concerning methods used by criminals in violating the National Motor Vehicle Theft Act to obtain registration for cars and to obtain bills of sale for automobiles; information concerning exceptional or unusual leads developed for the location of fugitives and so on, through the entire classification of Bureau offenses. I believe that the files contain much information which could be distributed to the field through monthly conferences, retraining schools and other channels, to the advantage of the Bureau. For the past several months, we have been endeavoring, through the supervisors, to obtain data and information concerning interesting methods of handling individual cases, but I believe that the greater bulk of material available in the Bureau files lies from point of time, beyond the knowledge of the present supervisory staff.

I recommend that you give consideration to the designating of one man to function in the capacity of a research authority to undertake assimilation, publication and distribution of material and data of interest to the Bureau field forces.

Respectfully,

E. A. Tamm

MEMORANDUM FOR THE DIRECTOR

Relative to your inquiry as to the reason for the delay in answering a memorandum addressed to the Bureau under date of November 15, 1935 by Assistant Attorney General James W. Morris, pertaining to an investigation requested, for the purpose of ascertaining financial responsibility of a convicted person in the Buffalo District, you are advised that Mr. Morris' memorandum was received in my office on November 18 and that after checking the Bureau's files and records in similar cases, I addressed a memorandum to you, which was typed on November 26, but redated November 27, 1935, advising of this situation, and attaching a letter to the Buffalo Office, instructing that office to conduct investigation in the matter. I did not at the time the memorandum and letter were prepared, prepare an acknowledgment of Mr. Morris' memorandum, but transmitted it to one of the Supervisors, after the letter to Buffalo had been approved, and instructed him to prepare an acknowledgment of Mr. Morris' memorandum. I cannot justify in any manner the delay occasioned in handling this piece of correspondence.

Respectfully,

E. A. Tamm

Mr. E. A. Tamm,
Federal Bureau of Investigation,
U. S. Department of Justice,
Washington, D. C.

Dear Sir:

It has come to the attention of the Bureau that very little or no supervision is being given by the interviewing officials to applicants taking the Special Agent or Special Agent (A) examination, in one instance making it possible for the applicant to make a copy of the questions.

It is requested, therefore, that the proper supervision be afforded by the interviewing official.

Very truly yours,

John Edgar Hoover,

MEMORANDUM FOR THE DIRECTOR

Re: Ben Lazare;
Blue Shirts of America.

I telephoned SAC Whitley at New York City informing him that the President desires today to address a letter to Ben Lazare of the Blue Shirts of America 1941 Douglas Avenue, Brooklyn, and in this connection, it was desired that an immediate check be made on Lazare and the Blue Shirt of America to see just what it is all about.

Mr. Whitley said he would have this done at once, and would call me back.

Time -

Mr. Whitley called me back and said that Ben Lazare is the organizer of a group known as the National Blue Shirt Minutemen of the USA. The exact title of the organization does not appear to be of any particular importance, and it is entirely likely that the members of this organization refer to themselves as the Blue Shirts of America on occasions. Lazare is a Jewish-American youth in his twenties, as are all of his associates. Their number varies from 25 to 100 depending upon the particular activity which at a given moment is engaging their attention. They are all said to be athletically inclined, and more or less sturdily built. Their primary purpose on earth appears to be to break up, if possible, any pro-Nazi meetings which may at any time be held within the city limits. Their first important endeavor along these lines was early in the month of May, 1935, when they marched in a body with their leader, Lazare, at their head, to the City Hall in order to lodge a protest with Mayor LaGuardia against a meeting to be held on May 17, 1935, at Madison Square Garden by an organization known as the Friends of New Germany, a strongly pro-Nazi group. They not only protested to Mayor LaGuardia, but also later visited the meeting and endeavored by the use of physical force to break up the meeting. Later, during the Summer of 1935, a meeting of pro-Nazi, German-Americans was held at Ridgewood Grove, Brooklyn. Lazare and his group attended this meeting and as a result of the fracas that ensued, the police reserves had to be called out to quiet the meeting, but the purpose of the Blue Shirts was accomplished.

I specifically stated to prepare memo for my signature but it was not done

Neither Lazare nor any of his associates has any criminal record, and the only knowledge the police have of them is the result of their activities previously described. It seems that the organization has been in existence approximately two years. The headquarters of the organization is at 70 Thatford Avenue, Brooklyn, New York, and Lazare, it is believed, resides at 1941 Douglas Street in Brooklyn.

The further results of the investigation will be furnished to the Bureau by letter, air mail, special delivery, tonight.

MEMORANDUM FOR THE DIRECTOR

An inspection of the offices on the fifth floor was conducted last night by Mr. Quinn, Mr. Tracy and the writer, and we are showing the condition of Mr. Tamm's section by room numbers as follows:

Room No. 5742

This room was found to be in satisfactory condition.

Room No. 5740 - Mr. Tamm's office

Letter from SAC Connelley, dated January 21, 1936, received in the Bureau January 22, 1936, and in this unit January 23, 1936.

62-32895, section 4, charged out by file room on January 10, 1936.

62-1, section 5, charged out by file room on September 21, 1935.

7-1, section 25, charged out of file room on January 21, 1936.

7-1, section 54, charged out of file room on January 21, 1936.

Serial 8054, file 7-576, letter from SAC Connelley, dated November 16, 1935, routed during November, 1935, to Mr. Nathan, Mr. Tolson and Mr. Coffey. No apparent action since November, 1935.

Memorandum to Mr. Tamm from Agent McIntyre, dated November 13, 1935, with file 7-1330 attached. This file charged out by file room on November 6, 1935.

Super .38 Automatic and small Felice Positive Revolver found unloaded in unlocked file cabinet. On inquiry, we find that there are no keys for this cabinet and that is the reason same was left unlocked. However, it is believed the guns should be in a more secure place.

I have stopped at P. 3. That was enough.
It is a shameful condition. Corrective measures
must be taken at once. J.H.

MEMORANDUM FOR THE DIRECTOR.

With reference to your memorandum addressed to Mr. Quinn on December 29, 1935, concerning your telephonic inquiry as to why certain information which you requested to be transmitted to you in New York by teletype was delayed, you are advised that the request for this information was received by me at 25 minutes to 5:00 on the afternoon of Saturday, December 28, 1935. I considered the possibility of dictating this information direct to a teletype operator, but in view of the very large number of figures and dates, I felt that many inaccuracies would occur if the information was dictated to the teletype operator, and knowing that this information was desired for release to press representatives, I felt that accuracy was tantamount to speed. I accordingly dictated the material to a stenographer and this dictation required slightly in excess of 45 minutes. As soon as the first page of the stenographer's transcription was returned to me and had been checked for accuracy, it was sent to the Communications Section, so that the message was actually being forwarded by teletype while the stenographer to whom it had been dictated was transcribing his notes. It is to be noted that this message required 50 minutes to transmit by teletype and despite the fact that the operator was sending the message from a typewritten message before him, some 17 errors occurred in the actual transcription. While the majority of these were of a minor nature, I believe that they indicate the inadvisability of attempting to dictate direct to a teletype operator.

Respectfully,

(S) E. A. TAMM

ALL THAT WAS NECESSARY WAS TO DICTATE DIRECT TO TELETYPE OPERATOR. SOMETHING SHOULD BE DONE RE ERRORS. MORE EFFICIENT OPERATORS SHOULD POSSIBLY BE SECURED FOR TELETYPE MACHINES. J.E.H.)

MEMORANDUM FOR MR. TOLSON

Re: INCORRECT TRANSMISSION OF
TELETYPE MESSAGE December 28, 1935.

Reference is made to the attached memorandum for the Director, dated January 6, 1936, submitted by Mr. Tamm, concerning the delay in transmitting a teletype message to the Director at New York City. It is noted that Mr. Tamm states that it took fifty minutes to transmit the message by teletypewriter and that some seventeen errors occurred in the actual transmission thereof.

I have had this matter looked into and find that the message was sent by Mr. W. C. Skousen, Night Teletype Operator. Mr. Skousen is one of the best typists we have in the Communications Section at the present time. He passed the typing test with a rating of 97 and I have found that he is particularly well adapted for the work to which he is presently assigned.

With reference to the message itself, I respectfully inform you that the message was five pages in length and contained approximately 1,675 words, the transmission time being, as Mr. Tamm states, fifty minutes. I personally believe that the transmission time is very good, the Operator averaging about thirty-four words a minute. I do not believe that the transmission of this message can be considered in the light of a transmission of an ordinary message, as will be noted from a copy of the message attached. The message in itself was made up of numerous figures. Further, I have been informed that the entire message was not given to the Teletype Operator at the time he began sending the message, but that it was delivered to him in rough form by individual sheets. By rough form I mean that the message had been typed up but that insertions in ink had been made throughout the message.

It is noted in (Mr. Tamm's) memorandum that seventeen errors were counted in the message in question. In this regard, I desire to inform you that the total number of errors in substance in the message is five and not seventeen. This information can be verified by reference to a copy of a correcting teletype dated December 28, 1935, which was forwarded to the New York Office.

RECEIVED
MAY 15 1936
67-35001-44

Memo. Mr. Tolson

- 2 -

January 16, 1936.

I agree with Mr. Tamm that there were other words misspelled in the message, but the appropriate corrections in those cases were made. In this regard, your attention is invited to the fact that all Teletype Operators have been instructed that when any word has been incorrectly spelled in a message, immediately upon seeing the error, the Operator must hit three x's, which designates that the word has been incorrectly transmitted and that the correct word is being transmitted immediately thereafter. This is a standard rule followed by all Teletype Operators and has been enforced in the Bureau since the installation of the machines in question.

Considering the pressure under which Mr. Skousen sent this message, and further considering the fact that he had five errors of substance in a message containing 1,675 words, I frankly do not believe that the message in question was poorly sent.

I want to state again that I believe Mr. Skousen is an excellent Typist and an excellent Teletype Operator. I have found that he attends strictly to business; is very much interested in his work; and is striving to do his best at all times. I respectfully recommend that no administrative action be taken regarding this matter at this time.

Respectfully,

W. R. Glavin.

S.A. Tamm

Mr. Tamm and I on the afternoon of February 15, 1936 made a detailed examination of the desks and rooms occupied by the Supervisors and stenographers assigned to the Investigative Units, and the condition of each office and desk is indicated in the attached memorandum. A check has been made of the files charged to the various Supervisors and it was ascertained that no file was in a Supervisor's possession which had been charged out prior to February 13, 1936.

The various items which are commented on in this memorandum will be brought to the attention of the individual supervisors.

Very truly yours,

The stationery in the closet could be a little better arranged, and there is a wooden base which does not appear to have any purpose in this closet. The closet also contains seven mail tubes which should be sent to the mail room. A pencil sharpener in the closet has not been emptied, evidently, since it was installed and it contains a large amount of shavings.

This room contained an Underwood typewriter on a desk, which typewriter was not properly mounted and the desk was not closed.

Room 5712 - E. P. Hair

One of the stationery cabinets in this room contains a number of forms, evidently used in examinations of judicial offices, which could be arranged in more orderly manner.

INVESTIGATIVE UNIT

MEMORANDUM FOR MR. NATHAN

With reference to file 9-1465 which was found in my office, you are advised that this file was one of a number of files which had been given to Miss Gallavan with dictation by Mr. Smith.

With reference to file 62-32159, you are advised that this was a closed file in which I was rewriting an Interesting Case write-up previously prepared on the case.

The following files were being held in my office awaiting additional files with inspection comments prepared upon the Salt Lake City Bureau office by the various supervisors.

15-3427
15-3628
15-3653
91-69

These files are held in my office until all comments are received, after which they are reviewed and made the subject of an appropriate letter.

The typewriter which was in the stenographic room on the floor was an extra typewriter which has been returned to the Chief Clerk's office.

Very truly yours,

E. A. Tamm

MEMORANDUM FOR THE DIRECTOR

"Tamm"

An examination of the offices occupied by the investigative units was made on the night of March 16, 1936. The details of this examination are outlined in the attached memorandum.

Mr. Tamm has advised that the typewriter found on the floor in Room 5730 was an extra one, and it has now been returned to the Chief Clerk's office.

Door 4254 in the Stenographic Pool on the fourth floor was found unlocked. Instructions have been issued to the stenographers and typists occupying Rooms 4250 to 4256 to the effect that these doors must be locked at night.

There is set out below information relative to the files which were found to be delinquent, together with explanations relative thereto:

9-1465 (Mr. Tamm's Reception Room) - Mr. Tamm advises that this file was one of a number of files given to Miss Gallavan with dictation by Mr. Smith.

62-32159 (Mr. Tamm's Reception Room) - Mr. Tamm advises that this was a closed file in which he was rewriting an Interesting Case write-up previously prepared.

15-3427

15-3628

15-3653

91-69 - Mr. Tamm advises that these files were being held in his office awaiting additional files with inspection comments prepared upon the Salt Lake City Bureau Office by the various supervisors. These files are held in his office until all comments are received, after which they are reviewed and made the subject of an appropriate letter.

26-31912 - Mr. Vincent advised that this file has been returned to the file room twice recently to be brought up to date, and that it is being held while preparing inter-office identification bulletins for two subjects.

RECEIVED
MAY 15 1936

67-9400-B-21

88-103 - Mr. Vincent advised that he had a "See me" from Mr. Tamm on this, later dictated on it, and then had another "See me", and dictated on it again, this causing the delay.

91-163 - Mr. Vincent advised that the Identification Division requested him to review both sections of this file and have wanted notices withdrawn by field offices; that the files are very thick, and that he has been reviewing them when current work permits.

88-27 - Mr. Vincent advised that he was holding this file to discuss the case with Mr. Tamm; that he did not do so promptly, but that the matter has been taken care of.

15-33282 - Mr. Weeks advised that he has been reviewing the two sections of this file at such times as his current work will permit, for the purpose of preparing an Interesting Case write-up, but that this review has not yet been completed.

57-01 - Mr. Soucy advises that he had occasion to refer to bulletins and letters of administrative interpretation appearing in this file on rather frequent occasions, and inadvertently held this file, but it has now been returned to the file room.

87-07 - Mr. Soucy advises he was holding this file in an effort to find a letter from the Department giving an interpretation of a phase of the statute applicable to the facts in the case, prior to writing the interested field office. This file has also been returned to the file room.

Very truly yours,

H. Nathan.

Mr. J. Edgar Hoover,
Federal Bureau of Investigation,
Washington, D. C.

My dear Mr. Hoover:

I am at a tremendous loss to find words that might express my deep gratitude to you and your most wonderful department in the manner in which you went about locating my son, Robert. I am certain that without your kind offices our boy would not be with us today.

In my entire experiences in contact with people of every walk of life, I say, without reservation, that I have never before been in contact with a fine set of men, both from a personal standpoint and from a standpoint of efficiency and outstanding courtesies, that I found in contact with the personnel of your most excellent department. I wish particularly to mention Mr. E. A. Tamm of the Washington office, Mr. W. Hanni and Mr. H. A. Diets of the Aberdeen office. I commend you most heartily in having such outstanding men as these in your service.

Since my contact with your department I have had an entirely new perspective of your department; its personnel and the indispensable services rendered to our nation. I have also learned, through inquiry, the astounding fact that your department, through its efficient methods and forced rigid economy, is probably the only Federal Agency in the entire country that shows a financial profit to the country far in excess to the money allotted this department for their existence. This, indeed, is a remarkable situation and I wish to commend you most highly in this regard.

I assure you, Mr. Hoover, that I intend to do everything in my power to bring the merits of your department to the attention of all my friends in an endeavor to make them conscious of the high standing of your department.

Permit me to again thank you most sincerely for your good work in my behalf and hoping that I may have the great pleasure of meeting with you personally in the near future, I am

Yours most sincerely,

MEMORANDUM FOR THE DIRECTOR

An examination of the offices occupied by the investigative units was made on the night of March 2, 1936. The details of this examination are outlined in the attached memorandum and necessary instructions have been issued to correct the conditions outlined therein. A check with the file room of the various files enumerated did not disclose any files that had been charged out for a period of more than five days. The inspection was made by Mrs. Tamm.

Dear Mr. Tamm:

The Bureau is in receipt of the report of the physical examination which was afforded you by the United States Public Health Service on March 10, 1936, at Washington, D. C. This examination disclosed the following defects:

You have flat feet; knock knees; and a partial inability to close the left hand due to a contracture of tendon of the second finger.

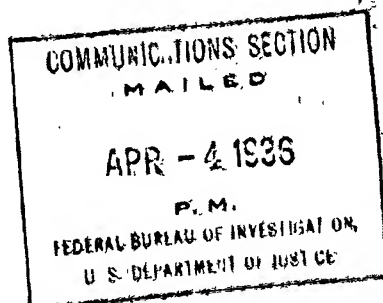

The results of the physical examination are being furnished for your information.

Sincerely yours,

John Edgar Hoover,
Director.

MEMORANDUM FOR THE DIRECTOR

Apropos of your inquiry concerning the instructions which were issued to Special Agent in Charge Magee at New Orleans, concerning his obtaining hotel facilities and arranging to meet you upon arrival at the airport, you are advised that I first contacted Mr. Connelley at the New Orleans Office, at approximately 3:00 P.M. on Thursday afternoon, April 30, and told Connelley the exact hotel accommodations that were desired, the name in which they were to be registered, the manner in which arrangements were to be made so that it would be unnecessary for you to stop at the desk on the way to the rooms and told Connelley that you were leaving New York at approximately 3:45 Eastern Standard Time, and that Magee should make arrangements to arrive at the Airport at about 9:00 P.M. his time.

After meeting you at the Washington Airport, I called Magee at approximately 6:30 P.M., told him that your plane had left here a little before 6:00 o'clock and that the pilots estimated it would take from 6½ to 7 hours to make the flight. I informed Mr. Magee at this time that Washington was not on daylight savings time but that your departure was Eastern Standard time, and suggested to him that in view of the fact that flying conditions often vary the estimate of arrival by an hour or more, he allow plenty of leeway, in order, to insure a car being available to meet you when you arrived at the airport. Mr. Magee stated that he would take care of the entire matter.

From approximately 9:45 P.M. to 10:20 P.M. on the evening of April 30, I endeavored from the office to reach Mr. Magee at New Orleans by telephone, to make sure that all arrangements had been perfected. I was unable to contact Magee since he was reported out of the office but the operator advised his return was momentarily expected and accordingly, when I reached my residence at 10:55 P.M., I contacted Magee, who stated that the hotel arrangements had been made and that he was that moment on his way to the airport to meet you.

Respectfully,

E. A. Tamm

MEMORANDUM FOR THE DIRECTOR

An examination of the offices occupied by the investigative units was made on the night of March 30, 1936. The details of this examination are outlined in the attached memorandum.

There is set out below information relative to the files which were found to be delinquent, together with explanations relative thereto:

62-24572, charged out on March 21, 1936, was found in Mr. Tamm's Office. Mr. Foxworth has advised that this file pertains to one Bernard Livingston, concerning whom the Director has requested an investigation to determine if he had violated any Federal law, and at the time of the inspection Mr. Foxworth had a "see me" from the Director on this case, the file being held for that purpose.

91-147, charged out on March 20, 1936, and 62-41234, charged out on March 31, 1936, were found in Mr. Soucy's office. He advises that it has been necessary to constantly refer to these files in connection with the Bank of Manhattan case.

26-37419, charged out on March 21, 1936, was found in Mr. Vincent's Office. He has advised that he requested this file to dictate a letter to the New Orleans Office, transmitting a memorandum from the Identification Division concerning a fugitive therein. He also made up a fugitive index card for the fugitive. In addition, he reviewed the file in connection with another Bureau file, so that a letter could be dictated to the New Orleans Office, requesting that the subject therein be carried in the proper file and advising that an unnecessary file had been opened by New Orleans, which resulted in confusing the two files at the Bureau. After the dictation of the letter, but before it was returned from the typist, another report came in, which necessitated a change in some of the dictation.

In Mr. Tamm's reception room one dirty milk bottle was found on the floor. Appropriate instructions have been issued in this regard to the clerical employees in Mr. Tamm's office.

A few old ticklers were found on Mr. Tamm's desk, concerning which I will confer with Mr. Tamm upon his return.

The door to Mr. Chambers' room was found unlocked. He has been spoken to relative thereto.

A dirty milk bottle was also found on the floor in Mr. Smith's room and he has been spoken to about this.

In Mr. Rosen's room the light were on and the door was unlocked. Appropriate instructions have been issued to him in this connection.

The lights were on in Mr. Soucy's room and the door was unlocked. Appropriate instructions have been issued to him in this connection.

A broken lamp was found on the window sill in the stenographic pool on the fifth floor. I was informed that a new shade had been ordered for this lamp.

In Mr. Weeks' office a double lamp on the table was found to be out of order. He has been told to have this repaired.

In Mr. Johnson's office were found two old ticklers in the cases of George M. Lorus, et al, and Robert Lee Gower. Mr. Johnson is destroying that in the George M. Lorus case, but will retain the Robert Lee Gower memorandum to assist in the preparation of an Interesting Case write-up.

In Mr. Harich's room the lights were on and the door was unlocked. Mr. Harich has been spoken to relative thereto. A March 7th issue of Liberty was found on a table in this room and will be disposed of.

In the office of Mr. Foxworth the lights were on and the door was unlocked. Mr. Harich, who was also handling the work in this office at the time of the inspection, was appropriately instructed in this regard.

In the stenographic pool room on the fourth floor a January, 1934 Congressional directory was found. Instructions have been issued to forward this to the Chief Clerk's Office. Two brushes for the typewriters, found in a drawer of a table will be placed in the supply cabinet.

Very truly yours,

H. Nathan.

MEMORANDUM FOR MR. TAMM

I was surprised to learn this morning that we have references in our files to the Black Legion. This matter has been a matter of considerable comment in the press for the last week. I had assumed that this Bureau not only was not taking any part in the investigation of the Black Legion at the present time, but in fact had no information in its files concerning it, and I was surprised this morning to learn that we do have information in our files about it. It would seem to me to have been elementary that a complete and summary memorandum would have been at once prepared and sent to me when this matter became one of national importance. Certainly, during the last three or four days when there have been diligent efforts to bring this Bureau into the investigation of this activity, a summary should have been prepared for my information.

Henceforth, you will please see that complete and detailed summaries are prepared upon any matter of such importance without being specifically instructed to do so.

Very truly yours,

John Edgar Hoover,
Director.

MEMORANDUM FOR THE DIRECTOR

With reference to the attached telegram addressed to Lieutenant Robert W. Hicks by Governor Hoffman at Newark, New Jersey, you are advised that I endeavored to learn Hicks' address through Frank Waldrop since I knew Waldrop had been to Hicks' place, but found that Hicks had moved and, accordingly, arranged with the Washington Field office to deliver this telegram to Hicks. The address of Hicks' mother was located but she declined to disclose his present whereabouts, merely stating that he was in New York but she accepted the telegram for transmittal to him. Various rumors are current that Hicks is now confined in an insane asylum.

I felt we should do this, not because of any interest we have in Hicks, but because the telegram emanated from the Governor. I believe the attached letter to the Governor with reference to this situation is desirable.

Respectfully,

E. A. Tamm.

we should not have done this.
Hicks is not connected here

so advised and dropped it.

MEMORANDUM FOR THE DIRECTOR

Correspondence emanating from Europe received by us through the State Department, particularly in the Bank of Manhattan case, indicates that there is considerable activity in European countries in the dealing in of stolen securities, bonds and stock certificates. From the files of the Identification Division I will obtain a list of the police representatives in the various European countries in order that we may hereafter direct to them circulars upon all stolen property which may find its way to Europe, but I believe we should go further than that and attempt to establish personal contacts with the police departments in the major cities of the Western European countries in order that the Bureau would be advised direct of the activities of any individuals, particularly American citizens, engaged in Europe in the disposition of stolen securities.

I believe that the Bureau would be amply repaid for the expenses incurred if a Bureau representative were to spend about two months in Europe contacting the representatives of the police departments in the major cities.

Respectfully,

E. A. Tamm.

Dear Mrs. McFall:

I have received your letter dated June 4, 1936, in which you commend Inspector E. A. Tamm of this Bureau for the address which he recently delivered before the Neighbors' Club of Cherrydale, Virginia.

I was glad to make Mr. Tamm available for this occasion and I am gratified to learn that his appearance was so favorably received.

Permit me to thank you for your good wishes for the success of this Bureau and my administration of it.

With best wishes and kind regards, I am

Sincerely yours,

Mr. John Edgar Hoover,
Federal Bureau of Investigation,

My dear Mr. Hoover:-

Thank you so much for your kindness in providing the Neighbor's Club with such a splendid speaker as you did last evening in Inspector Tamm. He certainly presented the work of the Bureau in a most interesting and effective way, and we all enjoyed meeting him personally as well.

With all good wishes for the continued success of your Bureau and yourself. I am

Cordially yours,

MEMORANDUM FOR THE DIRECTOR

In the event that legislative matters now pending in which the Bureau has an immediate interest are terminated favorably in the near future, I believe it would be well to give consideration to the obtaining of newspaper editorials, columnists' comments, et cetera, as to the desirability and necessity for some organization or foundation to finance the attendance of police officers at the Bureau's Police Training School. I believe a little propaganda upon this subject would bring immediate results either through the Rockefeller Foundation or through the adoption by some national civic organization, such as Rotary, Kiwanis or Lions Club, of a national program to finance the attendance of local officers at this school.

Respectfully,

Dear Sir:

It has come to the attention of the Bureau that those officials designated to conduct interviews and examinations of Special Agent and Special Agent (A) applicants have been doing this work in a more or less haphazard fashion. It is desired that more attention be given to this work.

It is requested that in the future when interviewing Special Agent (A) applicants, you indicate on the interview form the amount of time spent in interviewing the applicant and also that you indicate on this form whether you personally gave the examination to the applicant.

I believe it would be well to have prepared a distinctive type of efficiency rating form to be utilized for stenographic and clerical employees. The characteristics upon which a Special Agent is graded are very much dissimilar to those upon which stenographers and clerical employees are graded and to make for greater accuracy in evaluating personnel, I believe a distinctive efficiency rating form should be prepared and utilized.

MEMORANDUM FOR THE DIRECTOR

In view of our improved financial condition after July 1, 1936, and since we will have available a number of additional Special Agents, I believe it would be well to give consideration to placing Bureau personnel, particularly members of the training school faculty, in any schools or colleges giving courses in police work. I have in mind specifically the course in traffic organization and handling given at Harvard University. I feel that the Bureau, through the operation of the police training school should ultimately have a number of men, each of whom would be regarded as the outstanding national authority on some phase of police work.

MEMORANDUM FOR THE DIRECTOR

Re: Presentation and substance of talks made by officials and supervisors of Bureau attending or speaking before SAC Conference - Conferences with the - Recommendations as to their speaking ability.

I think that the six best speakers from among the personnel at the Dept of Government to appear before the SAC Conference are as follows: L. C. Schilder, E. H. Clegg, Harold Nathan, R. T. Harbo, E. T. Foxworth and L. R. Pennington.

In summarizing, I believe that six of the above mentioned speakers, as indicated, are especially effective and that probably ten more officials and employees at the Dept of Government can make creditable speeches with several of them showing definite possibilities of rapid development if given sufficient opportunity.

Respectfully,

NOTE: There are some excellent suggestions in this, particularly we should develop some of the latent material of Wash. It is more than I suspected was available.

J. E. H.

Mr. Tamm

Mr. Tamm should speak to his audience and not keep his head down

near his notes. His material before the SAC Conference was well assembled and the substance good and pertinent. His voice is low and was hoarse, probably because of a cold, and showed a strain toward the end of his talk. He is a nervous type of speaker but this does not detract from his presentation. I think he would be effective before groups of a "peppy" nature and recommend that, if possible, he be designated to give talks before small groups at the present time.

In view of the large number of law enforcement journals and magazines which quote verbatim from articles appearing in the F.B.I. Law Enforcement Bulletin, I believe it would be well to carry in the bulletin each month a statement requesting persons using this material to credit it to the F.B.I. Law Enforcement Bulletin. Such a request should, of course, be carefully worded and should follow generally the wording which usually is used in periodicals, newspapers and magazines.

MEMORANDUM FOR THE DIRECTOR

Tamm

Reference is made to the attached memorandum from Mr. Tamm regarding a call from Mr. Keenan on August 21, 1936, in which Mr. Tamm states that had he known the call was transferred from the Director's office he would have talked to Mr. Keenan and that, as a general rule, when such calls are referred to his office from the Director's office, he is notified the call is being referred to him.

It has been the practice in the Director's office, on the receipt of telephone calls in the Director's absence, to ask the party calling whether they will talk to some Bureau official in the absence of the Director, and in such case, they are transferred and the Bureau official concerned is notified of the transfer. In the event the party calling states, as in the instant case, that he desires to talk to some other Bureau official, it has not been the practice to notify such Bureau official of the receipt of the call in the Director's office.

Mr. Kleinkauf advises me that when Mr. Keenan called the Director's office, he apparently called direct to National 5303 inasmuch as the long distance operator was not on the line but Mr. Keenan was on the line himself and requested, after being informed the Director was not in, to be transferred to Mr. Tamm.

Respectfully,

S. J. Tracy.

MEMORANDUM FOR THE DIRECTOR

About 4:25 P.M., Mr. Keenan called my office, the operator informing that it was a long distance call. In accord with my usual practice in attempting to have Mr. Keenan and Mr. McMahon contact your office on official matters, I told my secretary to advise the operator that I was temporarily out of the office. I have learned since this occurred that Mr. Keenan first called for you and was informed that you were out of the office. Had I known, of course, that the call was transferred from your office, I would have talked to Mr. Keenan. As a general rule, when such calls are referred to my office from your office I am notified that the call is being referred to me.

Respectfully,

W. A. Tamm

MEMORANDUM FOR THE DIRECTOR.

Relative to the delay of Special Agent in Charge Listerman in interviewing Moshe Menuhin at Alma, California, Listerman explained that he had been so busy making speeches and attending to various other matters of an official nature that he had been unable to spare the time to proceed to Alma for the purpose of interviewing Menuhin.

I told Mr. Listerman that the Bureau's letters were to be considered as instructions rather than requests and suggested that if he could not find time otherwise to carry out this assignment, he take Sunday and proceed to Alma at that time. This is evidently what Listerman did.

Respectfully,

E. A. Tamm.

MEMORANDUM FOR THE DIRECTOR

Relative to the telegram from Listerman at San Francisco, stating that he was proceeding to Alma, California to contact Moshe Menuhin, you are advised that this interview is predicated upon a letter from Mr. Menuhin addressed to you under date of April 9, 1936, protesting against the publicity given to his taking up his residence, together with his family, in California, which newspaper articles you will recall, reported that Menuhin Castle had been constructed with electric eyes, secret wires, radio beams, etc., etc. In a letter addressed to Mr. Menuhin under date of April 10, 1936, he was informed that he should communicate with Listerman in the event any threats were made against the safety of his family, if extortion complaints were received of anything else happened within the Bureau's jurisdiction. By letter dated April 10, 1936, it was suggested to Listerman that after a reasonable length of time he call upon Mr. Menuhin for the purpose of ascertaining whether Mr. Menuhin had been the victim of any violation within the Bureau's jurisdiction. On May 9 and on July 7 by letter Listerman was instructed to interview Menuhin and during the recent SAC conference, I told him that he should contact Menuhin without further delay.

Respectfully,

E. A. Tamm

NOTE: What explanation does Listerman give for waiting from April 10 to Aug. 8 nearly 4 months and why did we let him get by with it. I note no follow up in June.

MEMORANDUM FOR THE DIRECTOR

An examination of the offices occupied by the investigative divisions was made on the night of July 29, 1936. The details of this examination are outlined in the attached memorandum.

There is set forth below information concerning the delinquencies which were found, together with explanations relative thereto.

The following files which were found in Mr. Tamm's office had been submitted to his office by the various supervisors with inspection comments to be forwarded to the Portland, Oregon, Office:

<u>File No.</u>	<u>Charged Out</u>
9-1060	July 18, 1936
9-1783	July 18, 1936
29-5565	July 11, 1936
31-43199	July 22, 1936
31-42866	July 22, 1936
31-43909	July 22, 1936
47-11626	July 16, 1936
49-6272	July 16, 1936
49-7196	July 21, 1936

File 62-41591, charged out on May 29, 1936, was found in Mr. Tamm's Office. This file was being held in Mr. Tamm's office because of instructions received by him, from the Director, to furnish personally to Mr. Aslinger certain information contained therein.

File 62-44864, charged out on July 20, 1936, was found in Mr. Tamm's office. Mr. Ward had received dictation from Mr. H. G. Spear in connection with this file.

The lights were on in Mr. Tamm's office as well as in the reception room, and the door to the reception room was unlocked. Appropriate instructions have been issued relative to these matters.

The following delinquent files were found in Mr. Smith's office:

File 9-1724, charged out on July 22, 1936. Mr. Smith has advised that entries had been made on the extortion charts prior to July 29, 1936 and the file was being held for further review and additional dictation, which had not been completed, inasmuch as he was absent from the office on July 28th and 29th.

File 9-1493, charged out on July 18, 1936. He has advised that this was a highly active case and was called for examination upon receipt of a teletype message from the Philadelphia Office. On July 22, 1936 an additional report was received which necessitated dictation for the extortion charts. This was completed but the file was held until July 28, 1936 for additional dictation. On that date Mr. Smith became ill and did not return to work until July 30, 1936, when the remaining dictation was completed.

Files 77-2387 and 77-2307, charged out on July 18, 1936. Mr. Smith has informed that these files were used by him in preparing a memorandum for the Attorney General, which had been dictated and approved by him, but which was returned to him on a "see me" on July 25th and was being so held on July 29th, Mr. Smith having been on sick leave on July 28th and 29th.

File 9-1785, charged out on July 13, 1936. Mr. Smith has stated that this file was held for several days until Mr. Tamm could be consulted as to whether certain copies of extortion letters requested by the Detroit Office, to be furnished State law enforcement agencies, should be forwarded. Thereafter arrangements were made with the Technical Laboratory for the necessary copies to be secured and they were received on July 27. However, the dictation on this was not reached prior to the time Mr. Smith left the office on account of illness.

File 7-249, charged out on July 18, 1936. Mr. Smith has advised that this was a closed case, the file having been obtained for review on the possibility that the subject was identical with an unknown subject in a pending extortion case. Upon review it was found the criminal record was desirable and that dictation would probably be necessary. Such dictation had not been completed on July 29th.

8/5/36

Files 77-5684 and 77-7276, charged out on July 20 and July 21, 1936, respectively. These files were held by Mr. Smith for a time until two other files could be secured, one of them from the Personnel File Section. Conflicting statements existed in a report received on July 20, 1936 in File 77-8684, and all files had been reviewed for dictation, which had not been reached on July 27th. Mr. Smith stated that pressure of other duties prevented earlier dictation, which has now been completed.

Files 9-1469, 9-1250, 9-1672, 9-1065, and 9-1557, charged out on July 18, 1936, and File 9-1664, charged out on July 22, 1936. Mr. Smith has advised that closing reports had been received in these cases; that due to the pressure of other duties a review of these files had not been possible before July 27, 1936, and it had not been realized the files were held for so long a time.

File 9-252, charged out on July 18, 1936. Mr. Smith has informed that a closing report was received necessitating a review of this file. The review had been made and the file marked with slips bearing notations in order that the case might be discussed with experts of the Technical Laboratory. An opportunity for such discussion had not offered itself by July 29th and Mr. Smith stated he did not desire to return the file, as it had been marked as indicated above.

File 7-1608, charged out on July 7, 1936, was found in Mr. McIntire's office. He has advised that the file was called for the purpose of reviewing same and inserting the information contained therein in the kidnapping chart book, which has now been done. He stated it was impossible to complete the work prior to July 29, 1936 due to the Special Agent in Charge Conference, which commenced on July 6 and continued until July 18, 1936, and that following this Conference he was given numerous special memoranda to prepare which made it necessary for him to delay the proper examination of File 7-1608.

8/5/36

File 23-4702, charged out on July 11, 1936, was found on Mr. Week's desk. He has advised that this file was transferred to him on July 27, 1936 from Mr. Boney, and that he was holding it to confer with Mr. Tamm concerning the action to be taken.

File 47-19402, charged out on July 21, 1936, was found on Mr. Linquist's desk. He has advised that a letter was received from the subject in this case on July 21st, addressed to the Department, complaining of the actions of the Bureau in connection with this case; that a reply was dictated the following day, and after being typed was returned to the stenographer for retyping. Mr. Linquist stated the delay in typing and the changes necessary in the outgoing letter caused the delay in the return of this file.

The lights were on in Mr. Warner's office and the door was unlocked. The door of Mr. Pennington's office was also unlocked. They have advised that they were working on the night of July 29th and had been called to the "Crime Scene" room in connection with an experiment being conducted there; that they did not expect to be away from their offices for a great length of time and, therefore, had not locked the doors and extinguished the lights.

The doors to Room 5228, occupied by the stenographers, and Room 5230, occupied by the typists, were not locked. They had recently moved to these rooms and keys had not been issued to them. Appropriate instructions have been issued in this regard.

Very truly yours,

E. Nathan.

Dear 

Upon my return to the city I received your letter of October 3, 1936, and I want you to know how deeply appreciative I am of all the help and assistance which you have been to us in the Means matter. It was particularly fine of you to sacrifice your other commitments to go to Kansas City to lend your aid and help in trying to bring about the clarification of this most confused, muddy situation. The fact that the mission was not successful does not in any way diminish the appreciation which I have of your unselfish help and assistance.

We all who associated with you upon this mission realize how much you did to help and aid.

I am deeply grateful for the very kind expressions of commendation which were contained in your letter of the third instant concerning Mr. Fallon and Mr. Tamm. I, myself, share your views of their fine character and high dedication to public service.

Hoping to see you soon, and in the meantime, with all good wishes, I am

Sincerely yours,

J. Edgar Hoover

MANRESA-ON-SEVERN
ANNAPOLIS, MARYLAND
LEAGUE OF LAYMEN'S RETREATS
WASHINGTON, BALTIMORE, SOUTHERN AND WESTERN MD.

SATURDAY, October 3rd, 1936

Mr. J. Edgar Hoover, Director,
Federal Bureau of Investigation,
U. S. Department of Justice,
Washington, D. C.

" E. A. Tamm "

My dear Mr. Hoover:

It has been my intention to write you since my return from the West a week ago but with two retreats on my hands and the necessity of getting out The Manresan I have been kept very busy. Then too, I wanted things to cool off a bit in my own mind with respect to Gaston B. Means.

I am sorry that our mission was not as successful as we had hoped it would be. The man was obdurate and I am convinced that the chief reason for our failure lies in his pride of intellect. This is one of the most difficult obstacles to overcome as most theologians admit. It practically requires a miracle of grace to induce the softening up process without which nothing can be done. Perhaps, I was a little too optimistic in thinking that he would be willing to surrender in all humility on the day and the hour set by me. I have a feeling that our visit was thirty days too soon and that he deliberately stalled for more time since he knew that the operation was not imminent.

You may be interested in my summary of the visit. I saw him three times and for rather long periods. The first visit on Tuesday morning, September 22nd in the presence of Mr. Fallon and Billy was quiet, somewhat progressive and more or less satisfactory, at least to my mind. Billy felt the same way about it. The second visit on Tuesday afternoon in the presence of Mr. Fallon indicated to me that a real battle of wits was pending and I went through with it as patiently, reasonably and coolly as possible. On this occasion I had the sickly feeling that he had suddenly sought refuge in the shadows of his criminal mentality. He would not come clean and was trying to force me into a position where I would call him a liar openly. This I refrained from doing in order to nurse him along if possible. But it was useless and when the session broke up Mr. Fallon and I were pretty well worn out and down in the mouth. On my return to the hotel I was so disgusted at the obduracy of the man that I felt like leaving town that night without saying Good-bye to him.

However, on Wednesday morning after consultation with the Chaplain I decided to approach him again and tell him two things, namely, a) that I had decided to leave the question of spiritual ministrations entirely to the Chaplain, and b) that I wanted him to know now that I was quite aware that he had lied to me personally on at least five or six occasions over a period of years. I felt that he should know my mind clearly in this respect. Therefore, much to the surprise of Mr. Fallon I appeared on the scene and we both went to the mat for a showdown. It was on this occasion that when I was at loss for words and could not continue the conversation due to the silence of Means that Mr. Fallon broke in and took matters in his own hands.

Then for the next ten minutes or more Mr. Fallon leaned across the bed and gave the most remarkable summary of the case fact by fact that one could ever hope to listen to. Every word counted and every sentence tied Means up tighter and tighter. I kept studying his face and his head was bowed and he knew that logically he was licked but he would not give in. Mr. Fallon appealed to every motive of decency, to things human and divine, to my presence there and to Billy's interests and Means even admitted that he had sold his own son's birth-right for a mess of pottage. He would bow his head and agree that Mr. Fallon was right but he would not give in. At this point I had become so moved and wrought up by Mr. Fallon's futile efforts to win this man over that I again went to the front with all the intensity and sincerity of my nature and I gave him what I had in my system for the past five years. He got the truth from me as no man ever got it but he was adamant. At the end I told him he was the hardest-hearted man I had ever met and I was through with him forever. This seemed to shake him a bit and Mr. Fallon put his arms around me and told me to quit. That was the end of the session and unless I miss my bet the three of us were exhausted.

My dear Mr. Hoover I want you to know that I can never properly express my gratitude to you personally and to the men of the Bureau for the really generous consideration given to me, to Billy and to Means himself in this instance. I tried to drive the same idea into Means' head. No man, in my opinion, ever received greater consideration than and there from the Government and he certainly did not deserve a bit of it.

Permit me to say that in conclusion. I enjoyed the trip by plane very much and will never forget it I am most grateful for the car at Kansas City, for the convenient access to the prison, for the numerous favors granted throughout in the arrangement of details and for the safe conduct home.

I could not however close without paying a just and well deserved tribute to Special Agent James Fallon. We lived very close to each other for four days and four nights. He had to handle not only Means but me and that was a sort of compound-complex problem for Mr. Fallon. He never missed a trick. He was kind, generous, thoughtful, diplomatic and efficient. He not only tried to do his dut but he did what he could in a very superior way. I shall never forge Jim Fallon and I treasure the memory of his companionship. The F.B.I. is blessed in having men of such sterling character as Special Agent Fallon.

May I add too that I am deeply grateful to Mr. Edward Tamm for the way in which he received in in his office on two occasions and the manner in which he perfected all arrangements. You have every reason, my dear Mr. Hoover, to be proud of these men. Their modesty is surpassed only by their personal loyalty to you and yield more of them to such a necessary service.

With very good wish and as ever,

/s/

Re: QUINN TAMM
Technical Expert

Dear Mr. Hoover:

I thought you would be interested in learning of the very favorable impression made by the above named Technical Expert in connection with his appearance at Wooster, Ohio, to give testimony in the case of three defendants who were charged with the robbery of the Sweet Glover Dairy Company of that city last summer.

Chief of Police Walter Yost expressed himself as being deeply appreciative of the very effective and efficient manner in which Mr. Tamm presented the technical evidence in this case. Chief Yost related that had it not been for the testimony of Mr. Tamm, in view of the appearance of members of the Wooster, Ohio, Police Department as witnesses for the defendants, a conviction would not have been had in the said case.

From what the writer could gather from Chief Yost, Mr. Tamm manifested such a keen interest in his own work and in the problems of the local Police Department that he won the esteem and confidence of the said Chief of Police, as well as of Dr. Fritz and Dr. Reiman, prominent citizens in Wooster, Ohio.

It should be also indicated here that the above named gentlemen also spoke very highly of the very cordial and friendly treatment they received at the Bureau in Washington by Mr. E.A. Tamm, upon a visit they made to the Bureau some months ago. I feel it my duty to report to you that they stated that they were greatly impressed with the "snappiness" of the Tamm brothers, both of whom seem to have at their fingertips a range of knowledge concerning the work of the Bureau and Technical Laboratory that would qualify them as good company in any gathering.

Chief of Police Walter Yost and the Doctors hereinabove mentioned have very high regard for you personally and are real Bureau boosters.

Very truly yours,

J.P. MacFARLAND,
Special Agent in Charge

Dear Mr. Hoover:

This is an indication of my sincere appreciation of the copy of your address, entitled "Problems in modern law enforcement", delivered before the Penn Athletic Club of Philadelphia. It was most interesting and exceedingly well done.

At the same time, may I take this opportunity to express not only my personal appreciation but that of the entire committee for the Monaghan Testimonial Dinner of your courtesy in sending Mr. E. A. Tamm to attend that dinner and the conference of police officers in the afternoon preceding it.

Mr. Tamm made an excellent impression, gave us very instructive information regarding the working of your department and by his every act exemplified the thing you speak of in your speech, that this is a "we" organization and not an "I" organization.

Sincerely yours,

MEMORANDUM FOR THE DIRECTOR

I observed in the courtroom of Judge Ralph H. Smith in the State Court of Pennsylvania at Pittsburgh a device known as Pils's Manikin manufactured by the American Thermo Ware Company of 16 Warren Street, New York City, which, I believe, would have considerable value in the Bureau's Laboratory and for consultation by both the Investigative Division and the Training School Division. This device is the portrait in about life size dimensions of a human being arranged in such a manner that sections of the body may be turned open like the pages of a book to disclose the structure, characteristics, etc., beneath the skin. For example, the chest may be opened disclosing the ribs, the ribs opened displaying the lungs, the lungs opened to disclose the internal structure, and beneath the lungs the shoulder muscles, etc., clear through the body to the spine. The charts are in color and show both the front and rear views of the various sections of the human body.

I believe that this device would be particularly desirable in attempting to understand and study autopsy and post mortem examination reports, since it is possible to actually visualize the exact nature of the wound and the sections of the body penetrated. I recommend that one of these Manikins be obtained for the Laboratory.

Respectfully,

E. A. Tamm.

MEMORANDUM FOR THE DIRECTOR

With reference to your inquiry as to why a fingerprint expert was not detailed to Baltimore Saturday night, you are advised that it was my opinion that a majority of the Special Agents assigned to the various squads were qualified to do this type of work either because of their training school experience or because of their training in the retraining schools. I was very much surprised to learn from Mr. Foxworth that a number of the Agents whom he questioned concerning the classifying of fingerprints taken on the night of the raids in Baltimore were not qualified to classify these prints, since it was my belief that the vast majority of the Bureau Agents were qualified in this work.

It is my recollection that during the course of the planning of these raids some suggestion was made by Mr. Spear, Mr. Foxworth, Mr. Hottel or some other person concerning the necessity of having a technical man from the Seventh Floor in Baltimore, and I personally overruled this suggestion, stating that I was confident that Bureau Agents could handle any classifying work that was necessary to be done on this occasion. The fault of the matter is, consequently, solely and individually mine.

Respectfully,

E. A. Tamm.

Apropos of the letter of Agent in Charge Dewey addressed to the Bureau under date of March 29, 1937, pertaining to the Missing Persons Bureau established at Louisville during the recent floods, I believe it would be well in the future if the Bureau would volunteer its services and send a number of men into areas of this kind to do all possible in connection with relief work. I believe that we might draw up a schedule of the type of work which we could conduct and make appropriate plans and efforts so that we could appear prominently in this type of work.

MEMORANDUM FOR THE DIRECTOR

E. A. Tamm
Further reference is made to the Executive Conference memorandum dated April 22, 1937, relative to the possibility of the Bureau participating, to a greater extent, in training schools for local, county, and state law enforcement officers.

In this connection it is my frank opinion that the Bureau should do everything possible to dominate the training school situation throughout the United States. I think that we are possibly losing some ground by having men who obviously are not qualified lecture at police conventions and before police schools. I have in mind the fact that North Dakota has not been represented in the Police Academy, nor do we have an application from that state. South Dakota has been represented by only one man who is in the present school, and this may be wildly speculative, yet I believe that this may be attributable, in part, to the fact that there are but few small towns and the territory sparsely settled, but the further fact that Mr. Hammi, who does not speak English clearly, undertakes to lecture in the training schools, and, in my mind, discourages any activity of this kind. This is just an example of what may be occurring in many instances.

I certainly think that in order for the Bureau to be invited to attend training schools and conventions a carefully selected individual should be chosen and that it would be better to decline rather than to send someone that we all know is totally unqualified to fill the job.

I am of the opinion, therefore, that to the extent possible, with available personnel who are qualified, the Bureau should undertake to participate in all police conventions and police training schools.

I have tried to prepare a list of those Bureau employees whom I believe to be qualified along this line, with special reference to the types of lectures which they can give, provided the Bureau furnishes those who are in the field with some material or outlines. I believe that the Bureau should undertake to give experience to additional employees who show latent qualifications. With this in mind Mr. Kohn is presently in Washington to receive such training. If a program could be inaugurated where, for a period of thirty to sixty days, different field

employees could be brought to Washington and assigned to lecture before training schools they could be given experience and training, and then the Bureau will have available, in its field offices, field employees who could relieve the Seat of Government from the burden of having to handle all of these assignments.

I am further of the opinion that although the Bureau should not go out and openly solicit invitations to teach in police training schools, the Special Agents in Charge should be aware of the existence of all police training schools in their respective territories, should keep well informed as to their programs, policies, plans, and curricula, and that these agencies should be informed that the Bureau will be pleased to cooperate. Then, when a Bureau representative is sent to speak on some general subject he should not confine his remarks solely to the accomplishments of the Federal Bureau of Investigation.

I recommend, therefore, that another letter be forwarded to the Special Agents in Charge, informing them of their direct responsibility of keeping themselves informed as to the existence of all training schools for police in their respective divisions, and that both by correspondence from the Bureau and by contact from the field, those in charge of these training schools should be informed of the Bureau's desire to be of all possible assistance. The only qualifications I believe proper to make at this time is that first consideration and favoritism be shown to those departments which have been represented in the FBI National Police Academy, for to these graduates the Bureau has promised the fullest extent of its cooperation in organizing and conducting training schools.

Those who I believe are qualified to lecture on general subjects, including administrative matters and investigations are the following:

J. S. Bugas	A. M. Kohn	T. D. Quinn
H. H. Clegg	D. M. Ladd	H. H. Reinecke

Director,
Federal Bureau of Investigation,
United States Department of Justice,
Washington, D. C.

Dear Sir:

For inclusion in the fund to be paid to the widow or designated beneficiary of any Special Agent of the Federal Bureau of Investigation, United States Department of Justice, who has contributed to this fund and who may lose his life by violence in line of official duty, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of ten dollars (\$10), made payable to the Chief Clerk of said Bureau, to be included in said fund. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund, which I understand is to be administered in the following manner:

The Director of the Bureau will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping, and expending of said fund, which committee will recommend appropriate action to the Director of the Bureau in pertinent matters. The Chief Clerk of said Bureau shall receive all contributions and account for same to the Director.

Upon the death of any Special Agent, the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. In the event of a finding that the death was by violence in line of official duty, appropriate instructions will be issued to the Chief Clerk, directing him to pay to the designated beneficiary the full amount of said fund as of the date of death.

The following person is hereby designated as my beneficiary:

MEMORANDUM FOR MR. TAMM

There are listed below the grades which employees under your supervision made on the written examination given at the conference of Bureau officials and supervisors on May 28, 1937:

J. E. Lawler	82
H. Ranstad	76.5
A. B. Leckie	71.75
L. H. Chipman	71.5
A. Rosen	71
J. C. Harris	67
R. C. Vogel	53.5

Your own grade on the examination was 83.5

The examination given at this conference was of such a type that it was reasonable to expect each employee present to make a grade of 85 per cent or more. It is absolutely imperative that steps be taken by those who occupy supervisory positions in the Bureau in order that they may be sufficiently informed concerning the contents of the Bureau's manuals and its policies so that they can make satisfactory grades on these examinations.

Very truly yours,

John Edgar Hoover,
Director.

MEMORANDUM FOR THE DIRECTOR

The attached newspaper dispatch indicates that Major Adams of the Pennsylvania State Police is assigning instructors to crime courses at Bucknell Junior College, Swarthmore, Lehigh and Villanova, and also to the Pittsburgh Police School. It is noted that courses are offered also to municipal police in various localities upon fingerprinting, ballistics, etc. The State Police are evidently waking up to the possibilities of promoting good will among local police officers by making available teachers to local departments and I believe it would be well for the Bureau to go a step forward in our training work and have the Agents in Charge contact police training schools in their district for the purpose of ascertaining whether the facilities of Bureau lecturers will be utilized by these schools. In other words, I believe that instead of waiting for requests to be made of us for instructors, we should take the initiative and volunteer our services to departments who may be interested in using them.

Respectfully,

E. A. Tamm.

Dear Jack:

I have received your note of July 14, 1937, and feel that you have no need for further concern relative to the inquiry of the Ingram woman, who evidently was inquiring about some person other than yourself.

I can well appreciate the large volume of work being performed in the Buffalo district, and feel that it is needless to tell you after your long hitch at the Bureau that we, too, are almost submerged in a sea of business.

Sincerely,

Mr. E. A. Tamm,
Federal Bureau of Investigation,
U. S. Department of Justice,
Washington, D. C.

Dear Mr. Tamm:

Recently Mr. Pieper received the letter from the Bureau advising that woman by the name of Ingram had been interviewed out in Kansas and from the information she furnished she obviously was not referring to me. I want to thank you very much for letting us know the results of the interview; I greatly appreciate your thoughtfulness in sending the information on so I would know the outcome.

As usual we have been very busy with the work. Mr. Pieper has been away quite a bit making speeches and, of course, he expects to be in New York the end of the month for the Police Convention. Lately I have been spending considerable time on the War Risk Insurance cases as they are assigned to me now that Agent Moss is transferred.

Without asking, I know that you are all very busy back in Washington. You looked so well when I saw you in June, you should watch your working hours so you can continue in such good health. Speaking of hours, I want to let you know that I certainly appreciate the advice you gave me over the phone several nights ago. This business of getting fugitives out of Canada is quite a job, especially when they're located some distance across the border. Thanks very much, Mr. Tamm, for the many things you have done for me; I deeply appreciate them.

With kindest regards and with very best wishes for your continued success and happiness, I remain

Sincerely yours,

/s/Jack W. Barnes
